Hop to Heaven Mike Pearce,2020-07-08 Have you seen ivy climbing high up to the top of a house? Hop plants can do the same. How high can they climb? If you had a long enough pole would they climb right up into the clouds and reach heaven? This story is about some hop pickers and a young girl called Anna who tried to get a hop to grow right up into the clouds. Her dreams are shattered when she is forced to marry someone she does not love, but must do it to save a famer and family who adopted her from losing their farm.

Along The Road To Heaven Jeffrey Langer,2006-08 Shortly after finishing my last book Aliens and Cowboys I found myself with time on my hands so I began writing songs. The driving motivation for this book began when I moved to Auburndale Florida. Polk County is a rural community (home to orange groves and sparkling fresh water lakes) this is the first time I spent any amount of time with country folks. I started listening predominately to country music and evangelists on the radio. A short time later I realized these outside influences were changing the nature of my words and themes. For nine months I lived in Polk County the rest of the time I lived with my father and brother after separating with my long time girl friend. I finished this book at King's Point in Delray Beach Florida. The selections picked for this book reflect real life after all they come from real people and true-life events. The songs/poetry in this book were inspired by people I know, people I've spoke with (in person and in chat rooms on the web). The songs are about the Cast Of Characters that have been in and out of my life for the past year. I am not sure how some of the people I wrote about will react about the stories I tell, after all they are my interpretation of their words, their tears, their hopes and yes their fears, but also their optimism, faith in god and love of life. It celebrates the human spirit that begins our everyday and never goes away. Be well, keep your head up, and see you along the road to heaven. Jeffrey Langer

Heaven's Ditch Jack Kelly,2016-07-05 A page-turning narrative, Heaven's Ditch offers an excitingly fresh look at a heady, foundational moment in American history. The technological marvel of its age, the Erie Canal grew out of a sudden fit of inspiration. Proponents didn't just dream; they built a 360-mile waterway entirely by hand and largely through wilderness. As excitement crackled down its length, the canal became the scene of the most striking outburst of imagination in American history. Zealots invented new religions and new modes of living. The Erie Canal made New York the financial capital of America and brought the modern world crashing into the frontier. Men and women saw God face to face, gained and lost fortunes, and reveled in a period of intense spiritual creativity. Heaven's Ditch by Jack Kelly illuminates the spiritual and political upheavals along this psychic highway from its opening in 1825 through 1844. Wage slave Sam Patch became America's first celebrity daredevil. William Miller envisioned the apocalypse. Farm boy Joseph Smith gave birth to Mormonism, a new and distinctly American religion. Along the way, the reader encounters America's very first crime of the century, a treasure hunt, searing acts of violence, a visionary cross-dresser, and a panoply of fanatics, mystics, and hoaxers.

Death, Resurrection, and Transporter Beams Silas N. Langley,2014-08-22 What has Star Trek to do with eternal life? It provides the perfect metaphor for understanding the main Christian views concerning what happens to us when we die. In this book, Silas Langley uses the Star Trek transporter beam to explain five main Christian views about life after death. Each of us lives with some personal answer to the universal question of what comes after death. Even among Christians, views differ as to what exactly happens when we die. Meanwhile, the modern secular world increasingly challenges the possibility of life after death. How can we live again after we die if much of science and philosophy suggests that all that we are dies with our bodies? This book shows how each of these views responds to these challenges. Death, Resurrection, and Transporter Beams sorts out these disagreements and their biblical grounding. These differences matter, since they bear on who we are and how we are to live our lives. Readers will come away with a clearer understanding of their own beliefs on this topic, and with tools to enter into dialogue with people whose beliefs differ.

Heaven Born Merida and Its Destiny Munro S. Edmonson,2010-06-28 When the Spaniards conquered the Yucatan Peninsula in the early 1500s, they made a great effort to destroy or Christianize the native cultures flourishing there. That they were in large part unsuccessful is evidenced by the survival of a number of documents written in Maya and preserved and added to by literate Mayas up to the 1830s. The Book of Chilam Balam of Chumayel is such a document, literally the history of Yucatan written by and for Mayas, and it contains much information not available from Spanish sources because it was part of an underground resistance movement of which the Spanish were largely unaware. Well known to Mayanists, The Book of Chilam Balam of Chumayel is presented here in Munro S. Edmonson's English translation, extensively annotated. Edmonson reinterprets the book as literature and as history, placing it in

chronological order and translating it as poetry. The ritual nature of Mayan history clearly emerges and casts new light on Mexican and Spanish acculturation of the Yucatecan Maya in the post-Classic and colonial periods. Centered in the city of Merida, the Chumayel provides the western (Xiu) perspective on Yucatecan history, as Edmonson's earlier book *The Ancient Future of the Itza: The Book of Chilam Balam of Tizimin* presented the eastern (Itza) viewpoint. Both document the changing calendar of the colonial period and the continuing vitality of pre-Columbian ritual thought down to the nineteenth century. Perhaps the biggest surprise is the survival of the long-count dating system down to the Baktun Ceremonial of 1618 (12.0.0.0.0). But there are others: the use of rebus writing, the survival of the tun until 1752, graphic if oblique accounts of Mayan ceremonial drama, and the depiction of the Spanish conquest as a long-term inter-Mayan civil war.

Heaven's Harsh Tableland Paul H. Carlson, 2023-12-14 The Llano Estacado—dubbed by author Paul H. Carlson as “heaven’s harsh tableland”—covers some 48,000 square miles of western Texas and eastern New Mexico. In this new survey of the region, the story begins during prehistoric times and with descendants of the Comanche, Apache, and other Native American tribal groups. Other groups have also left their marks on the area: Spanish explorers, Comancheros and other traders, European settlers, farmers and ranchers, artists, and even athletes. Carlson, a veteran historian, aims to review “the Llano’s historic contours from its earliest foundations to its energetic present,” and in doing so, he skillfully narrates the story of the region up to the present time of modern agribusiness and urbanization. Throughout the ten chronologically arranged chapters, concise sidebars support the narrative, highlighting important and interesting topics such as the enigmatic origins of the region’s name, fascinating geological and paleontological facts, the arrival of humans, the natural history of bison, colorful “characters” in the history of the region, and many others. The resulting broad synthesis captures the entirety of the Llano Estacado, summarizing and interpreting its natural and human history in a single, carefully researched and clearly written volume. *Heaven’s Harsh Tableland: A New History of the Llano Estacado* will provide a helpful, enjoyable, and authoritative guide to the history and development of this important region.

Ming China and Vietnam Kathlene Baldanza, 2016-03-29 Studies of Sino-Viet relations have traditionally focused on Chinese aggression and Vietnamese resistance, or have assumed out-of-date ideas about Sinicization and the tributary system. They have limited themselves to national historical traditions, doing little to reach beyond the border. *Ming China and Vietnam*, by contrast, relies on sources and viewpoints from both sides of the border, for a truly transnational history of Sino-Viet relations. Kathlene Baldanza offers a detailed examination of geopolitical and cultural relations between Ming China (1368–1644) and Dai Viet, the state that would go on to become Vietnam. She highlights the internal debates and external alliances that characterized their diplomatic and military relations in the pre-modern period, showing especially that Vietnamese patronage of East Asian classical culture posed an ideological threat to Chinese states. Baldanza presents an analysis of seven linked biographies of Chinese and Vietnamese border-crossers whose lives illustrate the entangled histories of those countries.

Symposium of the Whole Jerome Rothenberg, Diane Rothenberg, 2016-04-19 Symposium of the Whole traces a discourse on poetry and culture that has profoundly influenced the art of our time, with precedents going back two centuries and more. Beginning with a reassertion of the complexity of poetry among peoples long labeled “primitive” and “savage,” many recent poets have sought to base a new poetics over the fullest range of human cultures. The attempt to define an ethnopoetics has been significantly connected with the most experimental and future-directed side of Romantic and modern poetry, both in the Western world and, increasingly, outside it. As a visionary poetics and as a politics, this complex redefinition of cultural and intellectual values has involved a rarely acknowledged collaboration between poets and scholars, who together have challenged the narrow view of literature that has excluded so many traditions. In this gathering, the Rothenbergs follow the idea of an ethnopoetics from predecessors such as Vico, Blake, Thoreau, and Tzara to more recent essays and manifestos by poets and social thinkers such as Olson, Eliade, Snyder, Turner, and Baraka. The themes range widely, from the divergence of oral and written cultures to the shaman as proto-poet and the reemergence of suppressed and rejected forms and images: the goddess, the trickster, and the “human universe.” The book’s three ethnographic sections demonstrate how various poetics are structured and composed, how they reflect meaning and worldview, and how they are performed in cultures where all art may be thought of as art-in-motion. Among the poetics discussed are the language of magic; West African drum language and poetry; the Huichol Indian language of reversals; chance operations in African divination poetry; picture-writings and action-writings from Australia and Africa; and American Indian sacred-clown dramas and traditional trickster narratives. The cumulative effect is a new reading of the poetic past and present—in the editors’ words, “a changed paradigm of what poetry was or now could come to be.”
