Treasure Islands Alec Crawford,2020-11-11 "Crawford's absorbing account of his first adventures in the salvage trade . . . an unusually likeable, as well as interesting, memoir." –The Scotsman In 1971 Alec Crawford is determined to make his fortune from ship salvage. Early attempts lead nowhere until he teams up with a new partner, Simon Martin. Diving in Hebridean waters, they explore remains of the Spanish Armada, and the wreck of the SS Politician, the vessel made famous in the film Whisky Galore! But money is scarce and irregular, and the work is fraught with danger and disappointment. Until they hear of one of the most incredible wrecks of all time–the White Star liner RMS Oceanic, which, when built in 1899, was the biggest and most luxurious ship in the world. Widely regarded as an "undiveable" wreck, lying somewhere off the remote island of Foula, they decide to take the challenge. They face unbelievably dangerous waters and appalling weather conditions, and when a large salvage company takes action against them, they also have a huge legal fight on their hands. But if they succeed, the rewards will be enormous . . . "Crawford pioneered many of the methods now used in deep sea recovery, but this book is more about the excitement than the technicalities. It is also a love song to Scotland and a vanishing way of life." –Sorted Magazine "Crawford is a born story-teller, and his tales unfold as easily and naturally as he were an old friend." –The Shetland Times "A story of genuine adventure." –Desperate Reader

Salvage Alexandra Duncan, 2014-04-01 Ava, a teenage girl living aboard the male-dominated deep space merchant ship Parastrata, faces betrayal, banishment, and death. Taking her fate into her own hands, she flees to the Gyre, a floating continent of garbage and scrap in the Pacific Ocean, in this thrilling, surprising, and thought-provoking debut novel that will appeal to fans of *Across the Universe*, by Beth Revis, and *The Handmaid's Tale*, by Margaret Atwood. Internationally bestselling author Stephanie Perkins called it brilliant, feminist science fiction. Ava is the captain's daughter. This allows her limited freedom and a certain status in the Parastrata's rigid society—but it doesn't mean she can read or write or even withstand the forces of gravity. When Ava learns she is to be traded in marriage to another merchant ship, she hopes for the best. After all, she is the captain's daughter. But instead, betrayal, banishment, and a brush with love and death are her destiny, and Ava stows away on a mail sloop bound for Earth in order to escape both her past and her future. The gravity almost kills her. Gradually recuperating in a stranger's floating cabin on the Gyre, a huge mass of scrap and garbage in the Pacific Ocean, Ava begins to learn the true meaning of family and home and trust—and she begins to nourish her own strength and soul. This sweeping and harrowing novel explores themes of choice, agency, rebellion, and family, and after a tidal wave destroys the Gyre and all those who live there, ultimately sends its main character on a thrilling journey to Mumbai, the beating heart of Alexandra Duncan's post-climate change Earth. An Andre Norton Award nominee.
