High-Impact Content Marketing Purna Virji, 2023-07-03 Create meaningful engagement, drive conversion rates and boost customer retention with this crucial resource to unlocking the true potential of your content marketing strategy. In an era of user-generated, human-generated and machine-generated content, mistakes are increasingly costlier to make. And more difficult to recover from. To succeed in the highly competitive creator economy of today and the future, content marketers need to rethink their approach or go the way of the dinosaurs. *High-Impact Content Marketing* shows how to succeed by taking a simplified yet strategic approach to standing out and driving revenue impact. It covers time-proven strategies to create video, audio, social media and longer-form content that audiences will actually want to consume and how to do so in a genuinely inclusive way. It also shows how to master content distribution across channels such as websites, blogs, email and social media networks to maximize reach, engagement and impact. What makes *High-Impact Content Marketing* unique is how it weaves in behavioral science and adult learning principles to maximize and measure impact. It features easy-to-implement frameworks and actionable guides throughout as well as examples of best-in-class content marketing from the likes of Patagonia, Microsoft, Spotify and Google plus interviews with top industry experts from across the globe. Guidance is also included on how to align content with various stages of the customer journey. This is an essential

blueprint for ensuring the long-term success of your content marketing strategy to increase brand awareness, build relationships and boost conversions.

Outcomes-Based Program Review Marilee J. Bresciani Ludvik,2023-07-03 Second Edition This book introduces the reader to the principles of assessment of student learning outcomes in the context of program review, and illustrates how to implement a sustainable outcomes-based assessment program review process based on over 30 case studies of exemplary practice across a range of institutional types. Since publication of the first edition just over a decade ago, the landscape of higher education has been transformed. With the emergence of competency-based education, the questioning of the value of a post-secondary degree, the explosion of neuroscientific research, the emphasis on metacognition, as well as demographic changes in who is going to college and why, new questions are being asked and new methods of collecting data have multiplied. This new edition retains the goals of the first--which is to inform institutional self-reflection of how well the organization is achieving its intended purpose--in a manner that is reflective, adaptive, and collaborative, but which recognizes today's changed environment. Among the new

topics Marilee J. Bresciani Ludvik introduces in this edition is how to appropriately connect outcomes-based program review (OBPR) to performance indicators and predictive analytics and develop meaningful new performance metrics to inform our understanding of the student experience. She also addresses the intersection of OBPR with competency-based assessment, introduces the reader to new concepts and terminology, and demonstrates the implications of neuroscientific research for learning and development and how that influences OBPR design. All the cases, a signature feature of the first edition to illustrate best practice, have been replaced for this edition. Bresciani Ludvik postulates the importance of developing institutions as learning organizations where OBPR is designed collaboratively between student services, academic services, business services professionals, and faculty. Each chapter concludes with key learning points as well as questions for organizational leadership to promote ongoing professional development as institutions implement OBPR practices that are appropriate for their specific contexts.
