Authorship and Text-making in Early China Hanmo Zhang, 2018-10-08 This book is a timely response to a rather urgent call to seek an updated methodology in rereading and reappraising early Chinese texts in light of newly discovered early writings. For a long time, the concept of authorship in the formation and transmission of early Chinese texts has been misunderstood. The nominal author who should mainly function as a guide to text formation and interpretation is considered retrospectively as the originator and writer of the text. This book illustrates that although some notions about the text as the author's property began to appear in some Eastern Han texts, a strict correlation between the author and the text results from later conceptions of literary history. Before the modern era, there existed a conceptual gap between an author and a writer. A pre-modern Chinese text could have had both an author and a writer, or even multiple authors and multiple writers. This work is the first study addressing these issues by more systematically emphasizing the connection of the text, the author, and the religious and sociopolitical settings in which these issues were embedded. It is expected to constitute a palpable contribution to Chinese studies and the discipline of philology in general

**Gods, Heroes, and Ancestors** Anh Q. Tran, 2018 This is the first translation in English of the anonymously authored 1752 manuscript Tam Gi?o Chu Vong (The Errors of the Three Religions). **Global Chinese Cinema** Gary D. Rawnsley, Ming-Yeh T. Rawnsley, 2011-09 The film Hero, directed by Zhang Yimou and released in 2002, is widely regarded as the first globally successful indigenous Chinese blockbuster. A big expensive film with multiple stars, spectacular scenery, and astonishing action sequences, it touched on key questions of Chinese culture, nation and politics,

and was both a domestic sensation and an international hit. This book explores the reasons for the film's popularity with its audiences, discussing the factors which so resonated with those who watched the film. It examines questions such as Chinese national unity, the search for cultural identity and role models from China's illustrious pre-communist past, and the portrayal of political and aesthetic values, and attitudes to gender, sex, love, and violence which are relatively new to China. The book demonstrates how the film, and China's growing film industry more generally, have in fact very strong international connections, with Western as well as Chinese financing, stars recruited from the East Asian region more widely, and extensive interactions between Hollywood and Asian artists and technicians. Overall, the book provides fascinating insights into recent developments in Chinese society, popular culture and cultural production.

*Negotiating Masculinities in Late Imperial China* Martin W. Huang, 2006-01-01 Why did traditional Chinese literati so often identify themselves with women in their writing? What can this tell us about how they viewed themselves as men and how they understood masculinity? How did

their attitudes in turn shape the martial heroes and other masculine models they constructed? Martin Huang attempts to answer these questions in this valuable work on manhood in late imperial China. He focuses on the ambivalent and often paradoxical role played by women and the feminine in the intricate negotiating process of male gender identity in late imperial cultural discourses. Two common strategies for constructing and negotiating masculinity were adopted in many of the works examined here. The first, what Huang calls the strategy of analogy, constructs masculinity in close association with the feminine; the second, the strategy of differentiation, defines it in sharp contrast to the feminine. In both cases women bear the burden as the defining other. In this study, feminine is a rather broad concept denoting a wide range of gender phenomena associated with women, from the politically and socially destabilizing to the exemplary wives and daughters celebrated in Confucian chastity discourse.

Antony, 2023 *Rats, Cats, Rogues, and Heroes* reveals China's history and culture through the eyes of ordinary men and women using an interdisciplinary perspective that incorporates history, anthropology, folk studies, and literature to examine the sociocultural and symbolic worlds of gangsters, sorcerers, and prostitutes in late imperial and modern China.

A Study of Chinese Characters Wang Guiyuan, 2023-12-22 As the first volume of a two-volume set

on Chinese ancient characters and newly unearthed literature, this book brings together the author's research articles that discuss the development of Chinese characters and the tradition of Chinese palaeography. The 23 chapters in this book focus on two aspects of Chinese characters. The first 13 chapters centre on the evolution of Chinese characters, analysing the composition system and its transformation, the motivation, and mechanisms behind its evolution, as well as the methodology of the study of ancient characters. The subsequent 10 chapters mainly revolve around Shuowen Jiezi, one of the oldest character dictionaries in China. The author offers a novel understanding of the core issues related to this most important philological work, such as the version of the dictionary, misunderstandings in previous scholarship, and its relations with other palaeographical materials. The title will appeal to students and scholars of Sinology, Chinese philology, and palaeography, as well as Chinese characters.

**The King of the Warring States Era** Long Zhu, 2019-10-17 The seven great states of the Warring States Era stood at attention. In troubled times, evils would arise, and when heroes emerged, the protagonist of this book would rise to prominence in the Warring States Era!

**Knowing Words** Lisa Raphals, 2018-09-05 For the Greeks, the craft of Odysseus and the wisdom of Athena were examples of metis, an elusive cast of mind that ranged from wisdom and forethought to craft and cunning. Although it informed many aspects of Greek society, metis was all but absent from the language of Greek philosophy. Invoking Indigenous Chinese debates, Lisa Raphals here examines the role and significance of metis intelligence in classical Chinese philosophy, literature, history, and military strategy. Raphals first examines the range of meanings of the Chinese word zhi. As with the Greek metis, the uses of zhi include wisdom, knowledge, intelligence, skill, cleverness,

and cunning. Drawing on parallels between the two traditions, she argues that, in China as in Greece, metic intelligence tacitly informed many aspects of cultural and social life. In China, these included views of the nature of knowledge and language, standards of personal and social morality, and theories of military strategy and statecraft. After surveying representative texts from the Warring States period, Raphals considers the function of metic intelligence as the dominant quality of central characters in two novels from the Ming dynasty, the *Romance of Three Kingdoms* and *Journey to the West*. Finally, she compares the treatment of themes of heroism and recognition in the Chinese and Greek narrative traditions. *Knowing Words* will be welcomed by sinologists, classicists, and scholars of comparative philosophy and literature.

*Unlikely Heroes* Derek Leebaert, 2023-02-28 Masterful." —The Guardian Propulsive. —The Wall Street Journal Leebaert has done the near impossible—crafted a fresh and challenging portrait of the man and his inner circle."— Richard Norton Smith, author of *An Uncommon Man*, former director of the Hoover, Eisenhower, Reagan, and Ford presidential libraries. "A fascinating and absorbing analysis of FDR's brilliantly chosen team of four courageous and creative men and women."—Susan Dunn, author of *1940: FDR, Willkie, Lindbergh, Hitler—the Election Amid the Storm*, Massachusetts Professor of Humanities, Williams College. Drawing on new materials, *Unlikely Heroes* constructs an entirely fresh understanding of FDR and his presidency by spotlighting the powerful, equally wounded figures whom he raised up to confront the Depression, then to beat the Axis. Only four people served at the top echelon of President Franklin Roosevelt's Administration from the frightening early months of spring 1933 until he died in April 1945, on the cusp of wartime victory. These lieutenants composed the tough, constrictive, long-term core of government. They built the great institutions being raised against the Depression, implemented the

New Deal, and they were pivotal to winning World War II. Yet, in their different ways, each was as wounded as the polio-stricken titan. Harry Hopkins, Harold Ickes, Frances Perkins, and Henry Wallace were also strange outsiders. Up to 1933, none would ever have been considered for high office. Still, each became a world figure, and it would have been exceedingly difficult for Roosevelt to transform the nation without them. By examining the lives of these four, a very different picture emerges of how Americans saved their democracy and rescued civilization overseas. Many of the dangers that they all overcame are troublingly like those America faces today.
