Dreams of Hidden Forest Ronald Strahl,2017-10-20 Dreams of Hidden Forest is an engaging, light hearted story about a year in the lives of two partners who share a love of the outdoors. They purchase what they believe to be prime hunting land, only to discover that their property contains much more than hunting opportunities. The excitement of stalking wild game quickly pales in favor of immersion in the many mysteries that surround them. From clues about a buried treasure to heartwarming encounters with other species, they find themselves becoming a part of the forest and the harmony it represents. Just when they think they are beginning to understand their function in the harmony of the wild, they are approached by a wise spirit that inhabits the forest. The spirit offers them answers for their nagging questions and teaches them what it takes to possess wisdom. When they agree to accept wisdom, their lives are changed forever. The spirit finally teaches them that humankind's greatest treasure is to have a satisfied mind, and it sets about teaching them how to claim ultimate satisfaction. The partners pursue an understanding of the uncomplicated nature of the wild, and in the process reconnect with their own higher nature. A bear and her cubs befriend the partners and through a series of innocent misadventures they learn how important it is for humans and animals to respectfully coexist.

**The Book of Hidden Things** Francesco Dimitri, 2018-07-03 From one of the most significant figures of the last generation of fantasy, comes Francesco Dimitri's debut novel in English, an enthralling and seductive fantasy following four old friends and the secrets they keep. Four old school friends have a pact: to meet up every year in the small town in Puglia they grew up in. Art, the charismatic leader of the group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry; Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumours about Art; bizarre and unbelievable rumours that he miraculously cured the local mafia boss's daughter of terminal leukaemia. And among the chaos of his house, they find a document written by Art, *The Book of Hidden Things*, that promises to reveal dark secrets and wonders beyond anything previously known. Francesco Dimitri's first novel written in English, following his career as one of the most significant fantasy writers in Italy, will entrance fans of Elena Ferrante, Neil Gaiman and Donna Tartt. Set in the beguiling and seductive landscape of Southern Italy, this story is about friendship and landscape, love and betrayal; above all it is about the nature of mystery itself.

**The Girl from the Hidden Forest** Hannah Linder, 2024-05-01 The nightmares may free her...but destroy the man she loves. Enjoy another Gothic Style Regency from Hannah Linder. Eliza Ellis has stayed hidden in Balfour Forest for as long as she can remember. Perhaps her only friends are the trees, or her little dog, or her story-telling father called Captain. But at least she is safe from the cruel world outside, a world Captain has warned her against and protected her from. That is, until a handsome stranger named Felton Northwood invades her quiet forest and steals her away. Why does he tell such lies? Why does he insist that her name is Miss Eliza Gillingham, daughter of a viscount, who disappeared fourteen years ago after the murder of her own mother? A murder Eliza is said to have witnessed. When Felton returns Eliza to Monbury Manor and reunites her with a man who is told to be her father, all she remembers are the strange nightmares that have plagued her since childhood. Why have they suddenly grown worse? Are the answers hidden inside her own mind? As danger mounts and lethal attempts are made on her life, Eliza and Felton must work together to uncover the identity of a killer who has stayed silent for fourteen years. When she finally uncovers the horrendous memories trapped in her mind, will divulging the truth cost her the man she loves—and both of their lives?

*The Missing Link in Cognition* Herbert S. Terrace, Janet Metcalfe, 2005-01-20 Are humans unique in having self-reflective consciousness? Or can precursors to this central form of human consciousness be found in non-human species? *The Missing Link in Cognition* brings together a diverse group of researchers who have been investigating this question from a variety of perspectives, including the extent to which non-human primates, and,

indeed, young children, have consciousness, a sense of self, thought process, metacognitions, and representations. Some of the participants--Kitcher, Higgins, Nelson, and Tulving--argue that these types of cognitive abilities are uniquely human, whereas others--Call, Hampton, Kinsbourne, Menzel, Metcalfe, Schwartz, Smith, and Terrace--are convinced that at least the precursors to self-reflective consciousness exist in non-human primates. Their debate focuses primarily on the underpinnings of consciousness. Some of the participants believe that consciousness depends on representational thought and on the mental manipulation of such representations. Is representational thought enough to ensure consciousness, or does one need more? If one needs more, exactly what is needed? Is reflection upon the representations, that is, metacognition, the link? Does a realization of the contingencies, that is, knowing that, in Gilbert Ryle's terminology, ensure that a person or an animal is conscious? Is true episodic memory needed for consciousness, and if so, do any animals have it? Is it possible to have episodic memory or, indeed, any self-reflective processing, without language? Other participants believe that consciousness is inextricably intertwined with a sense of self or self-awareness. From where does this sense of self or self-awareness arise? Some of the participants believe that it develops only through the use of language and the narrative form. If it does develop in this way, what about claims of a sense of self or self-awareness in non-human animals? Others believe that the autobiographical record implied by episodic memory is fundamental. To what extent must non-human animals have the linguistic, metacognitive, and/or representational abilities to develop a sense of self or self-awareness? These and other related concerns are crucial in this volume's lively debate over the nature of the missing cognitive link, and whether gorillas, chimps, or other species might be more like humans than many have supposed.

*The Secret* Byron Preiss, 2016-10-05 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels, are buried. The key to finding each can be found within the twelve full color paintings and verses of *The Secret*. Yet *The Secret* is much more than that. At long last, you can learn not only the whereabouts of the Fair People's treasure, but also the modern forms and hiding places of their descendants: the Toll Trolls, Maitre D'eamons, Elf Alphas, Tupperwerewolves, Freudian Sylphs, Culture Vultures, West Ghosts and other delightful creatures in the world around us. *The Secret* is a field guide to them all. Many armchair treasure hunt books have been published over the years, most notably *Masquerade* (1979) by British artist Kit Williams. *Masquerade* promised a jewel-encrusted golden hare to the first person to unravel the riddle that Williams cleverly hid in his art. In 1982, while everyone in Britain was still madly digging up hedgerows and pastures in search of the golden hare, *The Secret: A Treasure Hunt* was published in America. The previous year, author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. Preiss was killed in an auto accident in the summer of 2005, but the hunt for his casques continues.
