The Evocative Object World Christopher Bollas, 2008-10-27 In *The Evocative Object World* Christopher Bollas builds on Freud's account of dream formation, combining it with perceptive clinical, theoretical and cultural insights to show how the psychoanalytical method can provide a rich understanding of what has traditionally been regarded as 'the outside world'. Moving from the fundamentals of the free associative technique, through an examination of how architecture and the built environment interact with individual and societal dream life, Bollas extends the work of psychoanalysis beyond relations with literature and culture to the actual objects which surround us. As with the evocative external structures of our environment, Bollas describes how the family, with its inherited genetic structures, likewise constitutes a pre-

existent unconscious formation into which we are placed, and demonstrates that there is more to this multifaceted unit than the traditional psychoanalytical notion of the Oedipal triangle. In the process, Bollas also provides a fascinating and comprehensive review of how his own theories have evolved over the past three decades: a period during which, in his view, Western society has increasingly neglected – or even become actively hostile towards – unconscious life. Throughout this engaging and accessible text, Bollas rejects the simplistic notion that mental life is unconsciously determined. Instead he provides a compelling study of how unconscious life is shaped by a diverse array of both internal and external factors, and how the work of the Freudian pair provides the best means to gain insight into our dreams, our surroundings, our families – and our mental life as a whole.

Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, ATLAS OBSCURA revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer.
