Artifacts from Ancient Egypt Barbara Mendoza,2017-10-05

Primary source documents and detailed entries reveal what ancient Egypt was like, using the objects and artifacts of daily life from the period covering the Predynastic era through the Græco-Roman period (5000 BCE to 300 CE). Historians have found that valuable knowledge about long-ago civilizations can be derived from examining the simple routines of daily life. This fascinating study presents a collection of everyday objects and artifacts from ancient Egypt, shedding light on the social life and culture of ancient Egyptians. The work starts with a popular notion of ancient Egyptian beauty and gradually moves on to address various aspects of life, including home, work, communication, and transition and afterlife. Organized by topics, the work contains the following sections: beauty, adornment, and clothing; household items, furniture, and games; food and drink; tools and weapons; literacy and writing; death and funerary equipment; and religion, ritual, and magic. Each object holds equal importance and dates from the Predynastic era to the Græco-Roman period of ancient Egypt (5000 BCE to 300 CE). A special section provides guidance on evaluating objects and artifacts by asking questions—Who created it? Who used it? What did it do/what was its purpose? When and where was it made? Why was it made?—to help assess the historical context of the object.

Decorated Surfaces on Ancient Egyptian Objects Julie

Dawson,2010 From monumental tomb paintings to delicate ivories, ancient Egyptian objects are some of the most complex and fragile encountered by archaeologists, curators and conservators. This volume of papers, by an international group of experts, focuses on decorated surfaces including polychrome wood, coloured basketry and painted

textile.

Egyptian Gods & Goddesses Britannica Educational

Publishing,2014-01-01 Gods and goddesses in human, animal, and other forms were central to the ancient Egyptian way of life. Identified with the natural world, daily living, and the afterlife, they maintained order and prevented chaos from permeating the human world. The figures documented in ancient hieroglyphics are given dimension in this absorbing volume, which examines the characteristics and significance of many of the Egyptian gods and goddesses and also looks at related topics such as ancient symbols and the influence of Egyptian mythology on other cultures and belief systems.

Hidden Treasures of Ancient Egypt Zahi A. Hawass,2004

The Egyptian Museum in Cairo is Home to some of the most exquisite artifacts in existence, yet many of these wonders have never been seen outside Egypt. Now, for the first time, world-famous Egyptologist Zahi Hawass takes readers on a tour of these long-lost antiquities and shares the adventures that led to their discoveries. Readers will marvel at the astonishing stories behind these dazzling treasures -- from the legendary unearthing of the tomb of boy king Tutankhamun, who ruled Egypt more than 3,000 years ago, to the modern-day photographer who discovered a royal burial shaft when he tripped over it while setting up his tripod. Many of the fabulous antiquities featured here were left to languish in storerooms all over the country and only recently were rediscovered. Hawass provides invaluable insights into what they meant to ancient Egyptians and what they now signify to us in the 21st century. Featuring exquisite photographs and enlightening commentary, Hidden Treasures of Ancient Egypt will delight Egyptophiles and history buffs and shed

new light on some of the great mysteries of this ancient civilization.

Unwrapping Ancient Egypt Christina Riggs, 2014-04-10 First runner-up for the British-Kuwait Friendship Society Book Prize in Middle Eastern Studies 2015. In ancient Egypt, wrapping sacred objects, including mummified bodies, in layers of cloth was a ritual that lay at the core of Egyptian society. Yet in the modern world, attention has focused instead on unwrapping all the careful arrangements of linen textiles the Egyptians had put in place. This book breaks new ground by looking at the significance of textile wrappings in ancient Egypt, and at how their unwrapping has shaped the way we think about the Egyptian past. Wrapping mummified bodies and divine statues in linen reflected the cultural values attached to this textile, with implications for understanding gender, materiality and hierarchy in Egyptian society. Unwrapping mummies and statues similarly reflects the values attached to Egyptian antiquities in the West, where the colonial legacies of archaeology, Egyptology and racial science still influence how Egypt appears in museums and the press. From the tomb of Tutankhamun to the Arab Spring, *Unwrapping Ancient Egypt* raises critical questions about the deep-seated fascination with this culture – and what that fascination says about our own.

Aegyptiaca J. D. S. Pendlebury, 2014-08-14 First published in 1930, this book collects ancient Egyptian objects dating from before the Twenty Seventh Dynasty found at Greek archaeological sites.

Objects for Eternity Carol A. R. Andrews, Jacobus van Dijk, 2006 This volume publishes more than 200 objects from the private collections of W Arnold Meijer, making them available for the first time to the general public. Accompanying texts by a team of

renowned scholars explain in an exemplary manner how ancient Egyptian artists worked stone, wood, glass, bronze, and other materials into unique pieces of art. Other texts tell about the function and use of these objects in everyday life and link their imagery to the mythology and the gods and goddesses of ancient Egypt.

Object Worlds in Ancient Egypt Lynn Meskell, 2004-07-02 From the Valley of the Kings to Las Vegas, Egypt looms large in the Western imagination. So why are we intrigued by pyramids and practices of mummification? Is it because the ancient Egyptians fetishized material objects? And what do Egyptian remains tell us about biography, embodiment, memory, materiality, the self, and, indeed, ourselves? This book considers how excavated objects reveal ancient Egyptians' experiences of their material world. It also explores existential questions that not only preoccupied ancient Egyptians, but continue to fascinate people today. What is the essence of persons and things? How might we understand the situated experiences of material life? How might objects successfully mediate between worlds? Meskell ultimately moves forward through time and examines the consumption of Egyptian material objects in the contemporary world, including Las Vegas. Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture and insights into its mysteries, including our own ongoing fascination.

Scattered Finds Alice Stevenson, 2019-01-22 Between the 1880s and 1980s, British excavations at locations across Egypt resulted in the discovery of hundreds of thousands of ancient objects that were subsequently sent to some 350 institutions worldwide. These finds included unique discoveries at iconic sites such as the tombs of ancient Egypt's first rulers at Abydos, Akhenaten and Nefertiti's city of Tell el-Amarna and rich Roman Era burials in the Fayum. Scattered Finds

explores the politics, personalities and social histories that linked fieldwork in Egypt with the varied organizations around the world that received finds. Case studies range from Victorian municipal museums and women's suffrage campaigns in the UK, to the development of some of the USA's largest institutions, and from university museums in Japan to new institutions in post-independence Ghana. By juxtaposing a diversity of sites for the reception of Egyptian cultural heritage over the period of a century, Alice Stevenson presents new ideas about the development of archaeology, museums and the construction of Egyptian heritage. She also addresses the legacy of these practices, raises questions about the nature of the authority over such heritage today, and argues for a stronger ethical commitment to its stewardship. Praise for *Scattered Finds* 'Scattered Finds is a remarkable achievement. In charting how British excavations in Egypt dispersed artefacts around the globe, at an unprecedented scale, Alice Stevenson shows us how ancient objects created knowledge about the past while firmly anchored in the present. No one who reads this timely book will be able to look at an Egyptian antiquity in the same way again.' Professor Christina Riggs, UEA

Hidden Treasures of the Egyptian Museum Zahi Hawass, 2002

The Egyptian Museum in Cairo, the greatest repository of ancient Egyptian artifacts in the world, receives hundreds of thousands of visitors every year. But many of its treasures, long kept in basement storerooms or in magazines at archaeological sites around the country, or recently discovered at ongoing excavations, have never been seen by the general public. To celebrate the centenary of the Museum, many of these unknown pieces of exquisite beauty or great historical importance--and often both--have been brought out of the darkness to

form a unique exhibition in a very appropriate setting: a converted section of the great basement storerooms of the Museum. With some 250 artifacts from the earliest beginnings of pharaonic culture to its latest flowerings, the exhibition spans the whole of ancient Egyptian history, and the one hundred masterpieces beautifully photographed for this volume represent the whole range of the exhibition: the Predynastic Period, the Old Kingdom, the First Intermediate Period, the Middle Kingdom, the Second Intermediate Period, the New Kingdom, the Third Intermediate Period, and the Late Period. This handsome book will serve as a prized memento for visitors to the exhibition and as a window onto it for Egyptophiles everywhere.

The Arts of Making in Ancient Egypt Gianluca Miniaci, Juan Carlos Moreno Garcia, Stephen Quirke, Andréas Stauder, 2018 This book provides an innovative analysis of the conditions of ancient Egyptian craftsmanship in the light of the archaeology of production, linguistic analysis, visual representation and ethnographic research. During the past decades, the imaginative figure of ancient Egyptian material producers has moved from workers to artisans and, most recently, to artists. In a search for a fuller understanding of the pragmatics of material production in past societies, and moving away from a series of modern preconceptions, this volume aims to analyse the mechanisms of material production in Egypt during the Middle Bronze Age (2000-1550 BC), to approach the profile of ancient Egyptian craftsmen through their own words, images and artefacts, and to trace possible modes of circulation of ideas among craftsmen in material production. The studies in the volume address the mechanisms of ancient production in Middle Bronze Age Egypt, the circulation of ideas among craftsmen, and the profiles of the people involved, based on the material traces, including depictions and writings, the ancient

craftsmen themselves left and produced.
