Clement and Scriptural Exegesis H. Clifton Ward,Visiting Assistant Professor of Theological Studies H Clifton Ward,2022-06-30 How might one describe early Christian exegesis? This question has given rise to a significant reassessment of patristic exegetical practice in recent decades, and H. Clifton Ward makes a new contribution to this reappraisal of patristic exegesis against the background of ancient Greco-Roman education. In tracing the practices of literary analysis and rhetorical memory in the ancient sources, Clement and Scriptural Exegesis argues that there were two modes of archival thinking at the heart of the ancient exegetical enterprise: the grammatical archive, a repository of the textual practices learned from the grammarian, and the memorial archive, the constellations of textual memories from which meaning is constructed. In a new treatment of the theological exegesis of Clement of Alexandria-the first study of its kind in English scholarship-this study suggests that an assessment of the reading practices that Clement employs from these two ancient archives reveals his deep commitment to scriptural interpretation as the foundation of a theological imagination. Clement employs various textual practices from the grammatical archive to navigate the spectrum between the clarity and obscurity of Scripture, resulting in the striking conclusion that the figurative referent of Scripture is one twofold mystery, bound up in the incarnation of Christ and the higher knowledge of the divine life. This twofold scriptural mystery is discovered in an act of rhetorical invention as Clement reads Scripture to uncover the constellations of texts-about God, Christ, and humanity-that frame its entire narrative.

Henry James: Travel Writings Vol. 2 (LOA #65) Henry James,1993-09-01 Henry James's travel writings are at once literary masterpieces, unsurpassed guidebooks and penetrating reflections on the international themes familiar from his fiction. This volume, the second of two, begins with the classic *A Little Tour in France* (1900), illustrated with Joseph Pennell's exquisite drawings from the original edition. James begins his tour of the French countryside one rainy morning in mid-September of 1882, when he sets off for the city of Tours as a means of exploring the proposition that "though France might be Paris, Paris was by no means France." From Tours, Balzac's birthplace, James travels to the great chateaux of the Loire Valley, visiting Chambord, Amboise, Chenonceaux, and Blois, where, as you cross the threshold, "you step straight into the sunshine and storm of the French Renaissance." Dense with literary associations and historical echoes, James's prose brings castles and cathedrals and old walled towns to life. In his glancingly precise visual evocations of terrain and cityscape, he realizes his ambition "to sketch without a palette or brushes." Henry James loved Italy, "a beautiful disheveled nymph" to England's "good married matron." The incisive and witty essays in *Italian Hours* (1909) describe memorably happy sojourns in Venice, Rome, and Florence, and excursions to Siena, Assisi, Perugia, Capri, Ravenna, and other Italian cities. "Nowheredo art and life seem so interfused" as in Venice, wrote James in celebration of

the splendor of Venetian light and color, air, and history. He records his radiant impressions of Roman churches and aqueducts, museums and fountains, and rambles through the gardens of the Villa Borghese in spring, when Rome seems lighted "with an irresistible smile." All these essays are filled with James's intense pleasure in Italian places and people. This volume concludes with sixteen essays on such varied places as Switzerland, Holland, Rheims, and the Pyrénées, including a memorable account of the American volunteer ambulance corps in Europe during World War One. Uncovering Hidden Treasures Samuel C. Tseng,2011-04-13 Uncovering Hidden Treasures gives you examples of how you can enjoy your Bible Study, instead of reading the Bible just as a dull daily Christian duty. There are truths in the Bible that have long been ignored or misinterpreted by skeptics, seekers, bona fide Christians and even some commentators. Uncovering Hidden Treasures gives you examples and how to avoid them. When you have discovered a new insight during your Bible study, how will you know your new insight and interpretation is a truth intended by God? Uncovering Hidden Treasures suggests criteria that help you know. Uncovering Hidden Treasures gives you examples that people cannot know Gods will unless He reveals it to them and He reveals only as much as they can absorb. As civilization progresses, the Holy Spirit will give additional insight and clarity from the same passages of the Scripture. Uncovering Hidden Treasures gives you examples of how science and technology support the Scripture. For example, have you ever thought that the Bible clearly told us that light has finite speed and the universe is finite and expanding, the facts that have been discovered only in recent centuries? Find it out in verse by verse interpretation of the first two days of the Creation. Is your faith shaken by recent statement of the renowned physicist Stephen Hawking? He stated that God is not needed in the creation of the universe. Uncovering Hidden Treasures gives opposing views and advises you not to worship science or scientists and keep hold of your faith in God. It gives you examples that you need as much faith to believe in science as you believe in the Bible.
