Hidden Wonders of the Human Heart Susan Holliday,2021-09-21 Hidden Wonders of the Human Heart is a moving testament to ways of seeing which reveal the tender wisdom that stirs in our hearts in times of change and sorrow. Drawing on eight true stories of revelation and renewal from her psychotherapy practice, Susan Holliday invites us to see the ecology of our hearts as a vital realm alive with the possibility of new beginnings. The cultivation of insight has never been more urgent. We live in a world awash with glances, swipes and clicks. The intimate truth of our hearts is increasingly veiled behind categories and labels that merely codify how we feel. If we are to appreciate the wonders at play in the depths of our human nature, we need to learn how to see ourselves through a more creative vision. Weaving compelling storytelling with insight from poets, artists and musicians, Hidden Wonders of the Human Heart takes its place alongside popular nonfiction titles that explore how we can enrich everyday experience, by listening, feeling and seeing more deeply.

The Hidden Wonders of the Everyday Sergio Rijo,2023-12-06 In the hustle of our fast-paced lives, The Hidden Wonders of the Everyday invites readers to pause, breathe, and explore the enchanting tapestry woven into the fabric of ordinary moments. Through a harmonious blend of personal anecdotes, scientific insights, and engaging exercises, this book serves as a roadmap to unlocking the extraordinary in the seemingly mundane. Championing the art of slowing down, the author shares a personal journey towards mindfulness, providing practical tips for readers to integrate this transformative practice into their daily lives. The exploration extends to the profound influence of our senses, encouraging readers to tune into the symphony of sights, sounds, touch, taste, and smell that surrounds us. Each chapter unfolds a new dimension of appreciation, from delving into the marvel of sight, celebrating the symphony of sounds in a bustling world, to discovering the tactile richness of daily life. Nature's hidden wonders and the unique marvels of urban life are unraveled, emphasizing the interconnectedness of all things. Hidden Wonders extends an invitation to savor taste experiences, explore the often-overlooked world of scents, and find joy in the simplicity of daily pleasures. The intricacies of human connections are explored, and the delicate balance of ecosystems is metaphorically depicted through the spider's web, reinforcing the interconnectedness of life. The book culminates with a call to action, urging readers to continue their journey of discovery. It suggests ways to share newfound appreciation with others and inspires the formation of a community that sees the extraordinary in the ordinary. With an eloquent and evocative writing style, The Hidden Wonders of the Everyday is not just a book; it's an immersive experience. The author's storytelling prowess brings to life the ordinary objects and experiences we often overlook, offering a fresh and engaging perspective on mindfulness and gratitude. Enhanced with stunning visuals, interactive elements, and thoughtful organization, this book is poised to resonate with individuals seeking connection, meaning, and joy in a world dominated by technology and stress. As readers turn the pages, they'll discover that the ordinary is a canvas waiting to be painted with the hues of wonder, and the journey of unlocking hidden wonders is an enriching expedition into the heart of life's extraordinary tapestry.

The Deep Alex Rogers,2019-04-18 There's so much we don't know about what lies deep beneath the ocean's surface - and the time to find out is growing increasingly precious . . . Professor Alex Rogers is one of the world's leading experts in marine biology and oceanology, and has spent his life studying the deep ocean - and in particular the impact of human activity on the ecosystems of the oceans. In this timely, galvanising and fascinating book - replete with stunning photography of strange and beautiful creatures - Professor Rogers offers a fundamentally optimistic view of humanity's relationship with the oceans - and also a very personal account of his own interaction with the seas.
