**Dream Cars** Sarah Schleuning, Ken Gross, 2014-02-12

*Dream Cars* Sarah Schleuning, Ken Gross, 2014-05-27 A

sensuously designed showcase of covetable concept or limited-edition cars by the best American and European manufacturers. Dream Cars presents some of the world's most breathtaking concept cars built between 1934 and 2001, a series of visionary designs that influenced the automotive industry and challenged notions of what is possible both aesthetically and technologically. Stunning all-new photography of design pioneers such as the 1935 Bugatti Type 57 Aerolithe, the 1951 LeSabre concept car, and the 1954 Alfa Romeo B.A.T. 7 accompany lush images of dream sports cars, including the 1970 Ferrari Modulo and the 1955 Ghia Streamline X Gilda. Meticulously restored and brought to life by all-new photography, these images trace a lineage of innovation in automobile design. Comprehensive descriptions by celebrated automotive writer Ken Gross as well as drawings and scaled models further illustrate the imaginative force of individual designers and famed manufacturers. Surprising insights into familiar models like the minivan, based on the streamlined silhouette of the Stout Scarab concept car developed in 1936, are juxtaposed with startling new technologies such as the 2001 BMW GINA Light Visionary Model's ingenious use of fabric as a retractable skin. An extended essay by Sarah Schleuning explores the effects of aerodynamics and aeronautics on car design and considers how groundbreaking events-such as General Motors's Motorama-fueled the creativity of automobile styles.

**Norman Bel Geddes Designs America** Donald

Albrecht, 2012-11-01 This book explores the career of one of the twentieth century's foremost theatrical and industrial designers. This book outlines the career of this complex and influential man through approximately fifty projects, bringing together never before exhibited drawings, models, photographs and films. Norman Bel Geddes was an innovative stage designer, director,

producer, architect, industrial designer, futurist and urban planner. His professional credo was to simplify, to unify, to use form to communicate and, at times, shape function and to question the status quo. His research based approach to problem solving followed by his complete re imagining of a design problem, as if starting from scratch, resulted in the creation of a new, ideal product. hroughout his multi faceted career, Bel Geddes was a paradoxical figure made up of equal parts visionary and pragmatist, naturalist and industrialist, democrat and egoist. A number of products and practices now taken for granted can be traced directly back to Bel Geddes. His impact on the American landscape ranges from the U.S. federal highway system to all weather sports stadiums, revolving restaurants, modular domestic appliances and stylish home entertainment systems.

**The Dream Colony** Walter Hopps, Anne Doran, Edward Ruscha, 2017-06-06 Art Forum's Best of the Year List A panoramic look at art in America in the second half of the twentieth century, through the eyes of the visionary curator who helped shape it. An innovative, iconoclastic curator of contemporary art, Walter Hopps founded his first gallery in L.A. at the age of twenty-one. At twenty-four, he opened the Ferus Gallery with then-unknown artist Edward Kienholz, where he turned the spotlight on a new generation of West Coast artists. Ferus was also the first gallery ever to show Andy Warhol's Campbell's Soup Cans and was shut down by the L.A. vice squad for a show of Wallace Berman's edgy art. At the Pasadena Art Museum in the sixties, Hopps mounted the first museum retrospectives of Marcel Duchamp and Joseph Cornell and the first museum exhibition of Pop Art-before it was even known as Pop Art. In 1967, when Hopps became the director of Washington's Corcoran Gallery of Art at age thirty-four, the New York Times hailed him as the most gifted museum man on the West Coast (and, in the field of contemporary art, possibly in the nation). He was also arguably the most unpredictable, an eccentric genius who was chronically late. (His staff at the

Corcoran had a button made that said WALTER HOPPS WILL BE HERE IN TWENTY MINUTES.) Erratic in his work habits, he was never erratic in his commitment to art. Hopps died in 2005, after decades at the Menil Collection of art in Houston for which he was the founding director. A few years before that, he began work on this book. With an introduction by legendary Pop artist Ed Ruscha, *The Dream Colony* is a vivid, personal, surprising, irreverent, and enlightening account of his life and of some of the greatest artistic minds of the twentieth century.

The Routledge Companion to Automobile Heritage, Culture, and Preservation Barry L. Stiefel, Jennifer Clark, 2019-12-06 The Routledge Companion to Automobile Heritage, Culture, and Preservation explores automotive heritage, its place in society, and the ways we might preserve and conserve it. Drawing on contributions from academics and practitioners around the world and comprising six sections, this volume carries the heritage discourse forward by exploring the complex and sometimes intricate place of automobiles within society. Taken as a whole, this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural, intellectual, emotional, and material elements well outside of the automobile body itself. Most importantly, perhaps, it questions how we might better acknowledge the importance of automotive heritage now and in the future. The Routledge Companion to Automobile Heritage, Culture, and Preservation is unique in that it juxtaposes theory with practice, academic approaches with practical experience, and recognizes that issues of preservation and conservation belong in a broad context. As such, this volume should be essential reading for both academics and practitioners with an interest in automobiles, cultural heritage, and preservation.

**Walks to the Paradise Garden** Phillip March Jones, 2019-04-15 *Walks to the Paradise Garden* is the last unpublished manuscript of the late American poet, photographer,

publisher and bon viveur Jonathan Williams (1929-2008). This book chronicles Williams' road trips across the Southern United States with photographers Guy Mendes and Roger Manley in search of the most authentic and outlandish artists the South had to offer. Williams describes the project thus: 'The people and places in Walks to the Paradise Garden exist along the blue highways of America.... We have traveled many thousands of miles, together and separately, to document what tickled us, what moved us, and what (sometimes) appalled us.' The majority of these road trips took place in the 1980s, a pivotal decade in the development of Southern 'yard shows' and many of the artists are now featured in major institutions. This book, however, chronicles them at the outset of their careers and provides essential context for their inclusion in the art historical canon--Back cover.

Billy F Gibbons Billy F Gibbons, Tom Vickers, 2020-06-02

Expanded for the occasion of ZZ Top's 50th anniversary, Billy F Gibbons: Rock + Roll Gearhead throws wide Gibbons' garage and studio doors for an exclusive look at his exquisite collection of cars and guitars. Love cars, guitars, and ZZ Top? This visually stunning tour through this Grade-A Texas gearhead's weird, wild life, vintage and way-out custom guitars, and influential hot rods and custom cars is mandatory education. From the near-mythical '59 Les Paul sunburst known as "Pearly Gates" and the "Furry One" of MTV renown to cars like the Eliminator, CadZZilla, and Kopperhed, they're all here—more than 60 guitars and 15 astounding vehicles, all expounded upon by BFG himself and shown in commissioned color and artistic black-and-white photography. Cars and guitars that have made their way to light since the book's first publication in 2005 are included: Cars: Mexican Blackbird 1958 Thunderbird Quintana '50 Ford Custom El Camino Grocery-Getter custom Whiskey Runner '34 Ford Coupe '51 Willys Wagon Guitars: Party Peelers John Bolin Customs Neiman Marcus BFG SG Nacho Telecaster John Bolin Think Buck T-style Mexican Blackbird solidbody Mojo Maker Tone

Bender Zemaitis custom Marconi Lab Guitar 1929 Dixie Ukelele 1939 Rickenbacker Frying Pan ...and more! While BFG's cars 'n' guitars are the stuff of legend, no less intriguing are the tales behind his incredible music career. From teenage Houston garage rocker to the Rock and Roll Hall of Fame, the whole story is between these covers, told in the Good Reverend Willie G's own words and illustrated with photos and memorabilia from his personal archive. As with many rockers, Billy F Gibbons' jones for hot rods and customs is the stuff of legend. But beyond this bona fide bluesman's mastery of the six-string and unrepentant love for internal combustion is a noted collector whose own designs have manifested themselves in hundreds of mind-bending cars and guitars. This is the definitive and official record of that genius.

*Bella Mangusta* Dick Ruzzin, 2016-07-30 When we reflect upon the history of Italian coachbuilding and design, it is impossible to ignore the De Tomaso / Giugiaro Mangusta. It was stunning from every angle; in both art and engineering, it

challenged and defined every aspect of motor car design in the mid-1960s while solving the problems associated with midengined design with beauty, grace, and authority. By the dictates of its creator, the Mangusta would be a race car for the street, its chassis based on a contemporary competition car. By the hand of one of the greatest automotive designers in Italy, it would be wide, low, sleek, and of perfect line. Ex-GM Designer Dick Ruzzin knows this well, as did others whose lives were devoted to automotive architecture. The Detroit doyens of design, William L. Mitchell at GM and Gene Bordinat at Ford, realized immediately that the Mangusta was one of the most advanced and beautiful cars in the world. Both ordered a specially tailored Mangusta for their personal use, and Mitchell had his equipped with a Chevy V8. Ruzzin has owned the ex-Mitchell Mangusta for the last forty-seven years. He spent years in Turin and interviewed many of those who still remembered how the Mangusta came to be created. Writing with passion, experience, and knowledge, Ruzzin has expertly authored the only book specifically about the design of the Mangusta. —Pete Vack, Editor and Publisher, VeloceToday.com, LLC ----- Reading about Dick Ruzzin's Mangusta reminds me of two of the most unforgettable characters I ever met. They are, of course, Alejandro de Tomaso and William L. Mitchell. Once known as Europe's most profligate creator of exotic sports and racing prototypes, Argentinean emigre de Tomaso had a phase of fondness for backbone-framed cars that gave birth to the Mangusta, magnificently styled by the young Giorgetto Giugiaro. The mercurial Alejandro finally made good as a car manufacturer—with a little help from the Italian government. A car enthusiast from his bald dome to his Bond Street shoes, Bill Mitchell arranged for GM Styling to buy the latest sports cars to help him persuade GM's often hidebound management that more exciting cars might be good for business. His Chevy-engined Mangusta was a perfect example. Ironically its successor in de Tomaso oeuvre was the Pantera, launched by

Ford like an arrow at the heart of GM. Now Dick Ruzzin brings his own enthusiasm for great automobiles to this presentation of an esoteric example from the golden age of Italian sports cars, deeply informed on all aspects of the Mangusta as only a passionate owner can be. —Karl Ludvigsen

**Glamour Road** Tom Dolle, Jeff Stork, 2022-03-28 This highly visual book explores the seldom-told story of how glamour, fashion, design, and styling became the main focus of automotive marketing from the postwar 1940s through the 1970s. With the expansion of the American suburbs after WWII, women suddenly needed cars of their own. By adopting the fashion industry's yearly model changes, as well as hiring many designers and stylists from the fashion industry, the automobile industry made a direct appeal to the rising sophistication and influence of women. By perfecting the fashion-centric concept of planned obsolescence, it became the dominant economic engine of American postwar prosperity. The dramatic photography, elegant fashion, and use of color and materials in midcentury automotive marketing created a groundswell of demand for new cars. Much of the marketing imagery of the period hasn't been published since it first came out, and this book features some of the best.

**Dream Cars of the 21st Century** Ron Kimball, Massimo Mambretti, Yolanda Eugenia Rillorta, 2013 There never passes a year, nor even a month, without new award-winning super car coming out. It could be the interpretation of concepts destined to exalt its performance. The images and texts in this volume recount the stories of the most important super cars of the last decade.

**The Museum of Intangible Things** Wendy Wunder, 2014-04-10 Loyalty. Envy. Obligation. Dreams. Disappointment. Fear. Negligence. Coping. Elation. Lust. Nature. Freedom. Heartbreak. Insouciance. Audacity. Gluttony. Belief. God. Karma. Knowing what you want (there is probably a French word for it). Saying Yes. Destiny. Truth. Devotion. Forgiveness.

Life. Happiness (ever after). Hannah and Zoe haven't had much in their lives, but they've always had each other. So when Zoe tells Hannah she needs to get out of their down-and-out New Jersey town, they pile into Hannah's beat-up old Le Mans and head west, putting everything—their deadbeat parents, their disappointing love lives, their inevitable enrollment at community college—behind them. As they chase storms and make new friends, Zoe tells Hannah she wants more for her. She wants her to live bigger, dream grander, aim higher. And so Zoe begins teaching Hannah all about life's intangible things, concepts sadly missing from her existence—things like audacity, insouciance, karma, and even happiness. An unforgettable read from the acclaimed author of *The Probability of Miracles*, *The Museum of Intangible Things* sparkles with the humor and heartbreak of true friendship and first love.

**Joris Laarman Lab** Joris Laarman,2017 Furniture generated by smart algorithms, the first fully functional 3-D printed steel bridge, and a 3-D printable chair that can be downloaded from the Internetthese are but a few examples of the ingenious oeuvre of Dutch designer and inventor Joris Laarman (b. 1979), who works at the intersection of design, art and engineering. Part of the recent high-profile Dutch design movement, Laarman quickly set himself apart from his peers with the Heat Wave Radiator, which erases the lines between the functional and the decorative. Quickly embracing digital technologies and applying them to the traditional field of design, Laarman has produced instant icons such as the Bone Chair designs, which harnesses a computer algorithm to mimic bone growth for the form of the designs. He has also bridged the distance between digital technology and craftsmanship with his Makerchair, downloadable as an open-source design. Abolishing the distinctions between natural and manmade, Laarmans work opens a new avenue for the future of design. In parallel with the touring exhibition, this handsome

hardcover catalog with over 300 color illustrations goes far beyond the exhibition, revealing Laarmans process, his studio and numerous designs in office, home and workshop settings. Flowing throughout the book are informative project descriptions, a statement from the LAB and assorted essays. The American museum tour includes the Cooper Hewitt, NY (2017), the High Museum, Atlanta, and MFA, Houston (2017/18).

*Corvette Concept Cars* Scott Kolecki, 2022-05-15 For more than a half century, the Corvette has been celebrated as “America’s sports car” by owners and enthusiasts. Since the first model rolled off the assembly line on June 29, 1953, it has been transformed time and again from a well-intentioned-but-underpowered boulevard cruiser into one of the most iconic sports cars of all time! How did Harley Earl’s original vision for a two-seat sports car progress through eight distinct generations to become the car that we know and love today? Who were the visionaries responsible for advancing its form and function over the last 70 years? Also, why has the Corvette continued to find commercial success in an ever-changing marketplace when so many other automobiles have come and gone since its creation? *Corvette Concept Cars: Developing America's Favorite Sports Car* answers these questions by delving into the origins of the Chevrolet Corvette and of the countless designers, engineers, drivers, and dreamers responsible for its creation. It explores the personal histories of Corvette’s greatest visionaries (Harley Earl, Zora Arkus-Duntov, and Bill Mitchell) and tells how each of their fates were indelibly intertwined with the rich (and sometimes volatile) history of Chevrolet’s flagship sports car. This book is an exploration of the Corvette concept cars from the earliest turnstile dream cars and purpose-built racers to the many unique mid-engined concept and research vehicles that preceded the creation of the current production model: the eighth-generation mid-engine Stingray. Painstakingly researched and written by Corvette historian Scott Kolecki and packed with more than 400

incredible photographs, *Corvette Concept Cars: Developing America's Favorite Sports Car* is the quintessential history of the evolution of the Chevrolet Corvette!

**Dreamlands** Chrissie Iles,2016-01-01 A fascinating survey of pioneering work in experimental cinema and art from 1905 to the present day, revealing the high stakes and transformative potential of these forms This generously illustrated publication surveys the work of filmmakers and artists who have pushed the material and conceptual boundaries of cinema. Over the past century, the material, optical, abstract, spatial, and tactile properties of film have been tested at a level of experimentation and utopian ambition that is generally unrecognized. Whether creating synesthetic or 3-D environments, projective or non-projective installations, generations of leading-edge artists have explored how technology transforms experience. The essays published here offer an intensive look at the themes of cinematic space, formats of the screen, animation and CGI, the body and the cyborg, and the materiality of film. Contributors place particular emphasis on the idea of the cinema as a sensorium and on the ways in which it defines the human body, both through representation and in relation to the projected image. An immersive plate section brings together rarely seen and previously unpublished stills, in addition to concept drawings from historic and contemporary films.

**Richard H. Arbib 1917-1995** Frederic Alan Sharf,2006  
Richard Henry Arbib was considered one of the leading industrial designers in the United States in the years following World War II. By the 1950s, he had established himself as one of the true visionaries in his field, producing groundbreaking design concepts not only for automobiles, but for a range of products that included wristwatches, pens, boats and even personal helicopters--designs so innovative than many of them would still

be considered advanced today. This book is an attempt to rediscover both the man and his extraordinary work. Combining a biographical essay and commentary by historian and collector Frederic A. Sharf with 35 never-before-seen drawings by Arbib, this is a revelatory look at one of the great artists of America's industrial history, and the first biographic study of his work.
