A Backpacker's Guide to Making Every Ounce Count Steven Lowe,2015-05-19 A Backpacker's Guide to Making Every Ounce Count was written by an avid outdoorsman, for those interested in knowing how a Gram Weenie thinks. If you are interested in lightening your pack a few ounces at a time, this book covers that very subject. Steven Lowe discusses how he used to pack for a trip and how he learned from the so-called “experts.” After following their advice, he ended up with a very heavy pack and soon realized that there had to be a lighter way to backpack. A Backpacker's Guide to Making Every Ounce Count offers tips that may allow you to approach your pack from a different point of view, like cutting the tags from your clothes and cutting your toothbrush in half--all in the name of shaving a few ounces of weight. When planning a trip, you need to look at your gear and ask questions like, “How many ounces can I shave from this item?” This book offers some ideas on how to lighten a few ounces from any pack, reduce the weight on your Big Three, and help you define just what type of backpacker you are--a lightweight or an ultra-lightweight backpacker. There are sixteen ounces in a pound. If you can shave four ounces from four areas in your pack, you just shaved one pound from your pack. Every ounce truly does count. Backpacking, however, is an ideal activity for the entire family. Tim Hauserman, who is both an experienced outdoors guide and the father of two daughters, now offers a handbook for parents who would like to introduce their children to backpacking and camping. Hauserman provides practical, humorous advice for families new to the outdoors and for trail-savvy parents planning to take their children along for the first time: how to prepare, what to bring, who carries what, how far to walk, what to do in camp, safety precautions, dealing with mishaps, and proper trail and campground etiquette. He includes guidance about appropriate distances and pack weights for every age level of child, as well as tips about backpacking with an infant and bringing the family dog along on the adventure. He even suggests appealing destinations in the Sierra Nevada appropriate for various age groups and recounts some of his (and his daughters') favorite hikes. Hauserman's down-to-earth encouragement is based on decades of backpacking and camping with his own children, their friends, and other groups of youngsters. He is candid about his experiences and the lessons he learned from his own mistakes and how he dealt with them. Ultimately, the reward of sharing a special adventure and the peace and beauty of the outdoors makes all the effort worthwhile.
