**Veni, Vidi, Video** Frederick Wasser,2009-06-23 A funny thing happened on the way to the movies. Instead of heading downtown to a first-run movie palace, or even to a suburban multiplex with the latest high-tech projection capabilities, many people's first stop is now the neighborhood video store. Indeed, video rentals and sales today generate more income than either theatrical releases or television reruns of movies. This pathfinding book chronicles the rise of home video as a mass medium and the sweeping changes it has caused throughout the film industry since the mid-1970s. Frederick Wasser discusses Hollywood's initial hostility to home video, which studio heads feared would lead to piracy and declining revenues, and shows how, paradoxically, video revitalized the film industry with huge infusions of cash that financed blockbuster movies and massive marketing campaigns to promote them. He also tracks the fallout from the video revolution in everything from changes in film production values to accommodate the small screen to the rise of media conglomerates and the loss of the diversity once provided by smaller studios and independent distributors.

**Transmedial Worlds in Everyday Life** Susana Tosca,Lisbeth Klasturp,2019-09-17 In this pioneering new book, authors Klasturp and Tosca explore the many ways that transmedial worlds are present in people’s everyday life, proposing a new theory of (trans)media use for the digital age. People are not only reading, watching and playing in fictional worlds like never before, but also using them to reflect about their lives through Facebook, Twitter, Youtube and other channels, commenting on their marriages or their life at the office, analyzing current news, or reminiscing on the role these worlds played in their childhood. The book’s unique methodological approach combines an aesthetic and literary perspective that looks closely at the different fictional universes, with an empirical user perspective that builds upon 15 years of sustained work on transmediality. The result is a theory that covers both the personal, experiential dimension of fictional worlds and the social dimension of sharing with each other. A fascinating and contemporary examination of media worlds and their communities, this book offers students and scholars of fandom, media, cultural and reception studies a new theoretical and methodological framework, through which to understand the phenomenon of transmedial worlds, and people's engagement with them.

**Adventure, Mystery, and Romance** John G. Cawelti,2014-02-07 In this first general theory for the analysis of popular literary formulas, John G. Cawelti reveals the artistry that underlies the best in formulaic literature. Cawelti discusses such seemingly diverse works as Mario Puzo's The Godfather, Dorothy Sayers's The Nine Tailors, and Owen Wister's The Virginian in the light of his hypotheses about the cultural function of formula literature. He describes the most important artistic characteristics of popular formula stories and the differences between this literature and that commonly labeled high or serious literature. He also defines the archetypal patterns of adventure, mystery, romance, melodrama, and fantasy, and offers a tentative account of their basis in human psychology.
