

Hiram The Young Farmer

Hiram M. Drache

Hiram the Young Farmer Burbank L. Todd,2009-03 Well, after all, the country isn't such a bad place as some city folk think. The young fellow who said this stood upon the highest point of the Ridge Road, where the land sloped abruptly to the valley in which lay the small municipality of Crawberry on the one hand, while on the other open fields and patches of woodland, in a huge green-and-brown checkerboard pattern, fell more easily to the bank of the distant river. Dotted here and there about the farming country lying before the youth as he looked westward were cottages, or the more important-looking homesteads on the larger farms; and in the distance a white church spire behind the trees marked the tiny settlement of Blaine's Smithy.

A Tale of New England Robert E. Shalhope,2003-06-11 Harwood's struggle to reach full manhood and assume his position as head of the family, his misgivings about challenging - much less displacing - his father, the changes American life brought to this traditional rite of passage, Hiram's relationships with wife and children, seasonal events, and all the day-to-day experiences of this finally tragic figure make for a fascinating story and provide a highly unusual window into antebellum American life..

Tomorrow's Harvest Hiram M. Drache,1978 Discover modern farming as experienced by the business-minded, progressive family-orientated farm couples that use advanced technology, capital, and management tools to enhance their business. It is futuristic agriculture as it has evolved because of cheap food policies of the government and relentless pressure from the consumer for lower prices.

Bridge to Love Darlene Franklin,2016-06 **HER FATHER IS DETERMINED SHE MARRY SOMEONE WORTHY** A man who has worked hard to gain his own wealth, banker Hiram Bailey is not

But Beatrice has always had eyes only for Calvin Tuttle, a young farmer full of innovative ideas. Calvin cannot believe the challenges he is facing. In the Year of No Summer, repeated plantings of crops are freezing before they bear fruit. His family and friends may run out of food. And Hiram Bailey is doing everything he can to keep his daughter away from Calvin. Both Calvin and Beatrice trust that God will have His way in their lives. But against these obstacles, how will they ever build a bridge to love?

Beyond the Furrow Hiram M. Drache, 1976 The family farm has long been hailed as the strength of rural America and the nation. Much has been written about the virtuous, but sometimes mythical, family enterprise. This book deals with the changes that have taken place on the land that makes the family farm of today different from its 1900s predecessor.

Letter to a Young Farmer Gene Logsdon, 2017-01-26 For more than four decades, the self-described “contrary farmer” and writer Gene Logsdon has commented on the state of American agriculture. In *Letter to a Young Farmer*, his final book of essays, Logsdon addresses the next generation—young people who are moving back to the land to enjoy a better way of life as small-scale “garden farmers.” It’s a lifestyle that isn’t defined by accumulating wealth or by the “get big or get out” agribusiness mindset. Instead, it’s one that recognizes the beauty of nature, cherishes the land, respects our fellow creatures, and values rural traditions. It’s one that also looks forward and embraces “right technologies,” including new and innovative ways of working smarter, not harder, and avoiding premature burnout. Completed only a few weeks before the author’s death, *Letter to a Young Farmer* is a remarkable testament to the life and wisdom of one of the greatest rural philosophers and

writers of our time. Gene’s earthy wit and sometimes irreverent humor combines with his valuable perspectives on many wide-ranging subjects—everything from how to show a ram who’s boss to enjoying the almost churchlike calmness of a well-built livestock barn. Reading this book is like sitting down on the porch with a neighbor who has learned the ways of farming through years of long observation and practice. Someone, in short, who has “seen it all” and has much to say, and much to teach us, if we only take the time to listen and learn. And Gene Logsdon was the best kind of teacher: equal parts storyteller, idealist, and rabble-rouser. His vision of a nation filled with garden farmers, based in cities, towns, and countrysides, will resonate with many people, both young and old, who long to create a more sustainable, meaningful life for themselves and a better world for all of us.

E.m. Young, Prairie Pioneer Hiram Drache,2005-06-30 E. M. Young, born in 1893, grew up on a farm in central North Dakota which had only mediocre horses. However, in 1911 his father wisely decided that to keep his sons interested in farming, he had to buy a tractor. Even though it did not work perfectly, the sons preferred the tractor and rarely used horses after that. He was the eldest son, was mechanically minded and was totally convinced that tractors were the wave of the future. By 1922 he called his business The New Era Grain and Stock Farm. No matter how difficult times were, he continued to charge ahead. This is the story of a farm boy who broke sod on three frontiers and never gave up.
