Stories of American Explorers Wilbur F. Gordy, 2018-02 Excerpt from *Stories of American Explorers: A Historical Reader* It need hardly be suggested that in using a book like this the problem is to help the pupil to get at the soul of history, or, to put it in another way, to enable him to understand how the man whose life-story is under consideration thought and felt when he was performing the deeds told of him in the text. And in thus helping the pupil we are furnishing him what he desires. For it is more life that he craves, and the teacher is to him an interpreter of that larger life which is to

become a part of his own. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Picture History of Great Explorers ,2009-08-25 This is a fun, informative, chronological guide to the history of world explorers. The book begins with the ancient explorers, such as Alexander the Great and Julius Caesar, through to Magellan and Drake, and comes right up to the present day with Ranulph Fiennes. Each page puts an explorer in the context of his or her own time, with details of other important contemporary events and figures, the new inventions which were the springboards for their adventures, and the world regions which were capturing people's imagination at that time. Gillian Clements includes the reasons behind exploration, and how technology and exploration have gone hand-in-hand throughout history. She combines entertaining fact and historical information with eye-catching illustration.

Renaissance explorers? How did they change the world? Find out in *The Renaissance Explorers with History Projects for Kids* for readers ages 10 to 15. America Discovers Columbus Claudia L. Bushman, 1992 A lively look at how each generation of Americans has reinvented Columbus in its own image and for its own purposes. Was Christopher Columbus a hero or a villain, discoverer or destroyer? ... By focusing on popular representation of the explorer and his story through the years, rather than the actual man or deeds, Bushman chronicles the invention of Columbian tradition. In doing so, she provides a historical and cultural context for the quincentennial debate over Columbus's legacy, demonstrating that the current questioning is only the latest in a long tradition of revising the explorer's reputation.--From publisher.

Enlightenment and Exploration in the North Pacific, 1741-1805 Cook Inlet Historical Society, Anchorage Museum of History and Art, 1997 Saluting an era of adventure and knowledge seeking, fifteen original essays consider the motivations of European explorers of the Pacific, the science and technology of 18th-century exploration, and the significance of Spanish, French, and British voyages. Among the topics discussed are the quest by enlightenment scientists for new species of plant and animal life, and their fascination with Native cultures; advances in shipbuilding, navigation, medicine, and diet that made extended voyages possible; and the lasting significance of the

explorers' collections, artworks, and journals.

The Great Journeys in History Robin Hanbury-Tenison, 2021-05-04 A lively collection of the adventurous stories of the greatest explorers in history. Ferdinand Magellan, Genghis Khan, Thor Heyerdahl, Amelia Earhart, and Neil Armstrong: these are some of the greatest travelers of all time. This book chronicles their stories and many more, describing epic voyages—from early trips through the great port city of Alexandria to the latest journeys into space. In antiquity, we follow Alexander the Great to the Indus and Hannibal across the Alps; in medieval times, we trek beside Genghis Khan and Ibn Battuta. The Renaissance eventually led to Columbus visiting the Americas and to the circumnavigation of the world. In the following centuries, global maps are filled in by Abel Tasman, Vitus Bering, and James Cook. Journeys specifically made for scientific discoveries, most famously by Alexander von Humboldt and Charles Darwin, begin. In modern times, the ends of the earth were reached—including both poles and the world's highest mountain. Editor Robin Hanbury-Tenison leads an incredible team of fifty-two contributors, including Robert Ballard and Ranulph Fiennes, who relate firsthand experiences with the journeys and places they describe. The Great Journeys in History chronicles the stories of bold, early travelers who explored the unexplored and who set out into the unknown, bringing alive the romance and thrill of adventure.

The Adventurer's Handbook Mike Confrey, 2007-11 The Adventurer's Handbook is a light-hearted romp through the history of exploration, using the style of a how-to manual with tips, techniques and instructions on all kinds of adventures and expeditions. This book is packed full of useful information -- such as what to do if you are attacked by an anaconda (you wait until it has swallowed you up to your knees and then you reach up and cut its head off *), how to always have a fresher pair of underpants, how to deal with a charging lion, and how to find water in the desert. At its heart are the tales of derring-do, survival, and endurance such as Wilfred Thesiger's crossing of the Empty Quarter, an enormous, little-explored stretch of desert in Southern Arabia, the Kon-Tiki expedition, the search for the source of the Nile, Freya Stark's travels with the Bedouin in the 1940s, or Shackleton's antarctic expedition. Tales of mutiny, solitude, leadership, crisis management, and the spirit of competition make this a fascinating and entertaining read. Contents include: Getting Started: What makes an explorer? Raising funds, equipment, and preparation Getting Going: Leaving home, enduring heat, cold, altitude, wet and the sea, clothing, animals that can kill you, animals you can eat Getting Along: Leadership, teamwork, living together, crisis management, mutiny, solitude, meeting natives, tips for travellers Getting There: What

makes an expedition succeed? Getting Back: Telling your story, proving what you've done, what next? And the million dollar question -- why? * Note: have knife handy.
