A History of Rome to the Death of Caesar W. W. How,H. D. Leigh,2006-01-01 The legends told by Roman chroniclers about the founding and the early history of the city cannot be regarded as sober narratives of real events. They rest on the insecure basis of oral tradition alone, for the written records perished at the sack of Rome by the Gauls in 390 B.C. Nor are the traditions in themselves so probable as to inspire belief. They give us, indeed, admirable pictures of old Roman ideals and institutions, but the personages and events portrayed in them are shadowy and unreal.-from Chapter IV: The Regal PeriodOriginally intended as a university-level textbook, this history of the Roman civilization, written by two fellows and tutors at Oxford, is a crisp and refreshingly readable overview of the rise of Rome through the legendary reign of Julius Caesar, including his spectacular conquest of the Gauls.First published in 1896 and featuring numerous enlightening maps and illustrations, this essential primer focuses primarily on military and civic arenas, covering at the length the important and eventful wars of the Romans-including the Punic and Macedonian conflicts-and offering an excellent chronicle of the Roman army. The authors also describe, briefly but clearly, the development of the Roman constitution, the institutions of the Roman government, and the religious, political, social, and economic issues that predominated through the centuries.Here, in one concise, elegant volume, is the story of the civilization that is the root of our own.

Freedom and History H. D. Lewis,2021-10-29 First published in 1962, Freedom and History expresses a deep concern about freedom and the way it is imperilled by misunderstandings. The cause of freedom has not always been well served by its friends; by presenting one -sided ideas of freedom they have often paved the way for extreme forms of collectivism and despotism. Professor Lewis examines works of T.H. Green and compares Green with Locke and Rousseau, to show how much the attitude of Green and other idealists to questions of education, the family, punishment, slavery, and war was affected by the individualism that underlay their thought and the failure to pay due heed to the facts of moral perplexity. This in turn is seen to owe much to the optimism of late nineteenth century thinkers and the belief in inevitable progress. The volume also discusses the nature of history, objectivity in history, religion and history, and law and morality. Author subjects the works of writers like Reinhold Niebuhr, Barbara Wootton, Ian Ramsey, Leonard Hodgson to close critical examination and presents his own ideas about the relation of theology to historical fact. This book will be an essential read for scholars and researchers of political philosophy, religion, theology, ethics, moral philosophy, and philosophy in general.
