The expanded coverage focuses on successes by U.S. and British and Dutch submarines in the Pacific and Indian oceans, Soviet submarines, and losses caused by mines laid by submarines. The book also includes details from top-secret "Ultra" messages decoded during the war and recently translated documents that provide correct Japanese ship names, ship type and tonnage, convoy names, human loss numbers and other attack details, as well as a military evaluation of each attack.

The Millers and the Saints Rex D. Hamann,2014-10-21 Chronicling the 1902-1960 rivalry between the Minneapolis Millers and St. Paul Saints, this book focuses on the 18 seasons during which one or the other of the Twin City rivals captured the American Association championship. Each chapter includes an introduction explaining the general status of the pennant-winning team--including biographical information on key players--followed by detailed game accounts and a season summary with critical statistics. Written in the present tense, the game accounts are the meat of the book, immersing the reader in the action of baseball as it was played decades ago. Woven into the game accounts are items of interest--player inquiries, team standings in the pennant race--which help the reader develop a range of viewpoints.
