New Media Spectacles and Multimodal Creativity in a Globalised Asia Sunny Sui-kwong Lam, 2020-11-20 This edited volume aims to unpack the digitisation of art and media within the dynamics of participatory culture, and how these changes affect the power relations between the production and consumption of these new forms in a globalised Asia. This follows the rise of new art forms and social media platforms in wake of rapid and ongoing digitisation, which has, in turn, produced far-reaching implications for changing media ownership and its role in social, cultural, economic, as well as political activities. New challenges arise every day in relation to digital art and design practices and social media communications, and their respective impact on identity politics. This book showcases a diverse range of interdisciplinary research on these concomitant changes and challenges associated with digital media and technologies within the context of a globalised Asia. The case studies included present perspectives on Asia's evolving digital humanities landscape from Hong Kong, China, India, Korea and from across Southeast Asia, with topics that tackle organisational digital marketing, brand advertising and design, mobile gaming, interactive art, and the cultural activities of ethnic and sexual minority communities in the

region. This book will of interest to scholars in digital humanities focused on new media and cultural studies.

The New Asia David L. James,Rajeev Merchant,2013-06-25 The world's economic center is increasingly shifting from North America and Europe to Asia. This timely guide will provide businesspeople with the knowledge and understanding necessary to remain competitive—and proactive—in that brave new world. To help readers better grasp the causes and effects of the ongoing tectonic shift in economic power, this book examines the 16 nations driving the explosive economic growth of Asia. It shows readers how to apply a Five Factors analysis to predict which Asian countries and industries will experience the most vibrant economic growth in coming years—and which will present the greatest risks for international businesses. It then goes a step further, offering insights and strategies that will help businesses assess opportunities in Asia and achieve success there in the years ahead. To help readers make those judgments, this comprehensive, practical resource includes insightful descriptions of the value systems, business practices, customs, and social characteristics of Asia and of individual Asian nations. It also exposes the intra-regional relationships of Asian countries that contribute to, or undermine, their individual economic potential and that of the region as a whole.
