Roller Hockey Greg Siller,1995

Hockey Night in Dixie Jon C. Stott,2011-04-15 During the 1980s, the geography of minor-league professional hockey changed radically, moving from its roots in the Canadian Maritime provinces, New England and the Midwestern states into the American south. In addition to cities like Dallas, Charlotte, Norfolk and Oklahoma City, which had long traditions of minor-league hockey, unlikely places such as Biloxi, Baton Rouge, Little Rock and Augusta hosted teams. Over an 18-year period, minor-league hockey was played in 72 different southern cities, and at one point there were more minor-league teams in Texas than in all of Canada, making Texas the place where many players learned their hockey skills. Hockey Night in Dixie examines this phenomenon with a historical overview of the period, including interviews with people involved in the founding and early years of each of the 13 leagues. There are also in-depth portraits of four teams, one from each of the four lower minor leagues that played during the 2005–06 season. These portraits feature interviews with owners, coaches, players, officials, fans and reporters. Amply illustrated with photographs, Hockey Night in Dixie paints a vivid picture of this extraordinary development in minor-league sports.

THE HOCKEY METHOD BOB DE LA SALLE,2014-02 Expectations are too high for beginners in hockey. Beginners are simply not ready for team play and systems. What is missing is a transition phase from the first time a player puts on a pair of skates to that first hockey game. The Hockey Method is a methodology to fill in this missing link or gap in hockey development. It identifies skill levels that can be grading to track player proficiency. The Hockey Method consists of two parts; Book 1 - Beginner Skating and Book 2 - Beginner Puck Control. These two parts present 31 skill concepts that are so simple and easy to learn that you don't need to be a coach to teach them. What is really needed, for first timers, is one-on-one direction and instruction. Coaches or parents can do it but parents are a better choice to instruct beginners because they have the time and vested interest to dedicate the 1 on 1 instruction needed by beginners at this early age. The basic idea is to build confidence by learning to walk before you run, run before you glide, and to be able to turn the toes in and out before you are able to use edges.

Hockey Plays and Strategies, 2E Johnston, Mike,Walter, Ryan,2018 Hockey Plays and Strategies features a variety of plays, systems, and strategies for game play in the offensive, neutral, and defensive zones. Special situations such as the power play, penalty kill, and face-offs are also featured.

Save Our Game Josh Levine,2013-10 Do you feel the pressure in today's hockey culture to train all year, play in numerous out-of-town tournaments, and pay thousands of extra dollars so that your hockey player can compete with the best? If so, you're not alone. Today's prevailing wisdom states that year-round intense hockey training, starting at the youngest ages, is necessary to develop elite hockey players. It argues that families must choose between hockey and school events, family dinners, study time, and other sports. The good news is that families need not feel pressured to choose because this prevalent hockey training philosophy is not only in many ways unethical, it is also detrimental. Year-round intense hockey schedules are damaging youth hockey player's futures. Too much hockey is hurting athletes academically, socially, and ironically, athletically as well. We don't have to accept this state of affairs. Although time is running out, we can still restore sanity and integrity to the game of hockey. This won't be easy. It'll require families to start resisting the arguably enormous pressure to always do more. Community associations, coaches, professional hockey players, and many others will need to step up in order to change the tide. It's time to save our game.
