**Corporation tax in Northern Ireland** Great Britain:

Parliament: House of Commons: Northern Ireland Affairs

Committee,2011-06-09 The committee supports the principle of devolving to the Northern Ireland Executive the decision over whether or not to amend the rate of corporation tax, and believes this would assist the indigenous private sector to expand, innovate and employ more staff. The report uses 12.5% as a benchmark for the lower rate of corporation tax, but suggests that on the basis that the decision is devolved to the Northern Ireland executive it may, in due course, choose a lower rate. To maximise the benefits of a lower rate, though, continued progress needs to be made on other economic development policy mechanisms, including planning, education, and incentives for research and development and exporting. Low corporation tax is not a panacea for all Northern Ireland's economic ills, warns the committee, and there are considerable implementation issues: direct comparisons with the Republic of Ireland and its experience with 12.5% are difficult because the UK and Irish tax systems are different; and the UK Government would have to satisfy the criteria laid down in the Azores judgment for the tax reduction to satisfy EU rules on state aids. The committee was surprised to discover HM Treasury do not know how much corporation tax is raised in Northern Ireland. It is important that

the Northern Ireland Executive has as much information as possible before deciding if, and how, it wishes to lower the rate, and at least a better idea of the amount of financial risk they are taking on. Furthermore, the benefits of lowering corporation tax must not be outweighed by the costs to businesses and HMRC.
