Routledge Handbook on Arab Media Nouredine Miladi,Noha Mellor,2020-11-29

This handbook provides the first comprehensive reference book in English about the development of mass and social media in all Arab countries. Capturing the historical as well as current developments in the media scene, this collection maps the role of media in social and political movements. Contributors include specialists in the field from North America, Europe, and the Middle East. Each chapter provides an overview of the history, regulatory frameworks and laws governing the press, and socio-political functions of the media. While the geopolitical complexities of the region have been reflected in the expert analyses collectively, the focus is always the local context of each member state. All 38 chapters consider the specific historical, political, and media trajectories in each country, to provide a contextual background and foundation for further study about single states or comparative analysis in two or more Arab states. Capturing significant technological developments and the widespread use of social media, this all-inclusive volume on Arab media is a key resource for students and scholars interested in journalism, media, and Middle East studies.

Homo Deus Yuval Noah Harari,2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward

humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Sisters of the War: Two Remarkable True Stories of Survival and Hope in Syria (Scholastic Focus) Rania Abouzeid, 2020-09-15 An extraordinary true account of the enormous tragedy of the Syrian civil conflict. Since the revolution-turned-civil war in Syria began in 2011, over 500,000 civilians have been killed and more than 12 million Syrians have been displaced. Rania Abouzeid, one of the foremost journalists on the topic, follows

two pairs of sisters from opposite sides of the conflict to give readers a firsthand glimpse of the turmoil and devastation this strife has wrought. Sunni Muslim Ruha and her younger sister Alaa withstand constant attacks by the Syrian government in rebel-held territory. Alawite sisters Hanin and Jawa try to carry on as normal in the police state of regime-held Syria. The girls grow up in a world where nightly bombings are routine and shrapnel counts as toys. They bear witness to arrests, killings, demolished homes, and further atrocities most adults could not imagine. Still, war does not dampen their sense of hope. Through the stories of Ruha and Alaa and Hanin and Jawa, Abouzeid presents a clear-eyed and page-turning account of the complex conditions in Syria leading to the onset of the harrowing conflict. With Abouzeid's careful attention and remarkable reporting, she crafts an incredibly empathetic and nuanced narrative of the Syrian civil war, and the promise of progress these young people still embody.

The Sun and Her Flowers Rupi Kaur, 2022-07-01 Rupi Kaur performs the first-ever recording of the sun and her flowers, her second #1 New York Times bestselling collection of poetry and prose. This production was recorded in 2021 along with the brand-new audio edition of *milk and honey* and the debut audio recording of *home body*. Divided into five chapters, this volume is a journey through the life cycle of wilting, falling, rooting, rising, and blooming. It is a celebration of love in all its forms.

Novel Plant Bioresources Ameenah Gurib-Fakim, 2014-04-03 *Novel Plant Bioresources: Applications in Food, Medicine and Cosmetics* serves as the definitive source of information on under-utilized plant species, and fills a key niche in our understanding of the relationship of human beings with under-utilized plants. By covering applications in food, medicine and

cosmetics, the book has a broad appeal. In a climate of growing awareness about the perils of biodiversity loss, the world is witnessing an unprecedented interest in novel plants, which are increasingly prized for their potential use in aromas, dyes, foods, medicines and cosmetics. This book highlights these plants and their uses. After an introductory section which sets the scene with an overview of the historical and legislative importance of under-utilized plants, the main four parts of the book are dedicated to the diverse potential application of novel plant bioresources in Food, Medicine, Ethnoveterinary Medicine and Cosmetics. Examples and contributors are drawn from Africa, Europe, the USA and Asia. The economic, social, and cultural aspects of under-utilized plant species are addressed, and the book provides a much needed boost to the on-going effort to focus attention on under-utilized plant species and conservation initiatives. By focusing on novel plants and the agenda for sustainable utilization, Novel Plant Bioresources highlights key issues relevant to under-utilized plant genetic resources, and brings together international scholars on this important topic.

Palestinian Cinema Nurith Gertz, 2008-01-15 Although in recent years, the entire world has been increasingly concerned with the Middle East and Israeli-Palestinian relationship, there are few truly reliable sources of information regarding Palestinian society and culture, either concerning its relationship with Israeli society, its position between east and west or its stances in times of war and peace. One of the best sources for understanding Palestinian culture is its cinema which has devoted itself to serving the national struggle. In this book, two scholars--an Israeli and a Palestinian--in a rare and

welcome collaboration, follow the development of Palestinian cinema, commenting on its response to political and social transformations. They discover that the more the social, political and economic conditions worsen and chaos and pain prevail, the more Palestinian cinema becomes involved with the national struggle. As expected, Palestinian cinema has unfolded its national narrative against the Israeli narrative, which tried to silence it.

Sekvenser mot Omega Göran Sonnevi, 2017-04-28 Göran Sonnevi har med sina diktsamlingar *Oceanen* och *Bok utan namn*, skänkt oss flödande livsberättelser som i sin visionära mångtydighet kunnat ge intryck av att vara hans avslutande verk, hans poetiska testamente. Men skrivandet fortsätter, allt djupare in i det ovetbara och oförutsägbara, allt längre ut i det oändliga; tiden och kärleken fortsätter, och samtalet med de döda, ständigt närvarande.

The Kashf al-mahjúb: The oldest Persian treatise on Súfiism 'Ali ibn 'Usman Hujwiri, 2023-11-20 *Kashf al-Mahjub* (Revelation of the Hidden) is one of the most ancient and revered Persian treatise on Sufism which contains a complete system of Sufism with its doctrines and practices. Hujwiri clarifies and illustrates many of his mystical controversies and current opinions with his experiences. The book, with its Persian flavor of philosophical speculation and fiction, is itself a piece of Ali Hujwiri's identity.

Dark Prisms Robert Lima, 2021-10-21 The mythological, folkloric, and religious beliefs of Western culture have resulted in a long and ongoing history of esoteric themes in theatre from the Middle Ages to the present in Spain and the America. Now Robert Lima, a noted comparatist, brings to bear on this material his wide knowledge of the world of the occult. Lima defines the terms occult and occultism broadly to embrace the many ways in which

humans have sought to fathom a secret knowledge held to be accessible only through such supernatural agencies as alchemy, angelology, asceticism, astrology, demonolatry, divination, ecstasy, magic, necromancy, possession, Santeria, séances, voodoo, and witchcraft. The dramatic works covered range from medieval materializations of Hell to the Golden Age plays of Lope de Vega, Tirso de Molina, and Calderón de la Barca, to modern stage works by Valle-Inclán, García Lorca, Casona, Miras, and a number of significant Afro-Brazilian and Caribbean dramatists. The concluding comprehensive bibliography of the drama of the occult is invaluable.

History of Freedom Movement in India VOL 1 TARA CHAND, 2017-01-13 The book deals with the social, political, cultural and economic conditions of India in the eighteenth century against the backdrop of the historical processes that had in earlier times shaped the life and history of Indian people.

Comparative Semitic Linguistics Patrick R. Bennett, 1998-01-01 As the title indicates, this unique resource is a manual on comparative linguistics, with the examples taken exclusively from Semitic languages. It is an innovative volume that recalls the earlier tradition of textbooks of comparative philology, which, however, exclusively treated Indo-European languages. It is suited for students with at least a year of a Semitic language. By far the largest component of the book are the nine wordlists that provide the data to be manipulated by the student. Says reviewer Peter Daniels, the wordlists constitute a unique resource for all of comparative linguistics--a considerable quantity of uniform data from a host of related languages. They would be useful for any class in comparative linguistics, not just for those interested specifically in Semitic. Scattered throughout the text are 25 exercises based on the wordlists that provide a good introduction to the methods of comparativists. Also included are paradigms of the phonological systems of ten Semitic languages as well as Coptic and a form of Berber. A bibliography that guides the student into further reading in Semitic linguistics completes the volume.

Inside the Tablighi Jamaat Ziya Us Salam, 2020-07-20 Not much is known about what

is arguably the world's, and certainly India's, largest Islamic organization -- the Tablighi Jamaat. From poverty-stricken peasants of Bihar to dairy farmers of Mewat, its members attend three-day retreats in local mosques, and at times, the Markaz in Delhi. They come of their own free will, at their own expense. The Tabligh tells its members to look within, that life is about internal cleansing with regular prayer that paves the path to spiritual uplift. Unlike other Islamic organizations that balance the here and the hereafter, the Tabligh is concerned only about 'matters beyond the sky and under the earth'. Its steadfast refusal to take a political stand has stood it in good stead. It is the 'ideal Muslim organization' for some -- focused solely on introspection in isolation. Now, for the first time, author Ziya Us Salam provides an inside view of the organization that unwittingly became a 'hotspot' during the novel coronavirus pandemic in 2020.
