Our Preschool math activity workbook for kids ages 3-5 is a great way for your little one to learn basic mathematical skills such as number recognition, number tracing and counting. We've put together a variety of different activities that are both fun and educational! Children love to learn with Lucas &

Friends, especially when the learning takes place using fun coloring, drawing, and game-based exercises! The math lessons in this book are easy to understand and fun to complete, making it the perfect exercise for kids of all ages, both as part of homeschooling curriculum or preparation for classes.

Bedtime Math: A Fun Excuse to Stay Up Late Laura Overdeck, 2013-06-25 Our mission: to make math a fun part of kids' everyday lives. We all know it's wonderful to read bedtime stories to kids, but what about doing math? Many generations of Americans are uncomfortable with math and numbers, and too often we hear the phrase, I'm just not good at math! For decades, this attitude has trickled down from parents to their kids, and we now have a culture that finds math dry, intimidating, and just not cool. Bedtime Math wants to change all that. Inside this book, families will find fun, mischief-making math problems to tackle—math that isn't just kid-friendly, but actually kid-appealing. With over 100 math riddles on topics from jalapeños and submarines to roller coasters and flamingos, this book bursts with math that looks nothing like school. And with three different levels of challenge (wee ones, little kids, and big kids), there's something for everyone. We can make numbers fun, and change the world, one Bedtime Math puzzle at a time.

Kindergarten Math Activity Book Lucas and Friends by RV AppStudios, 2023-05 Introducing the ultimate kindergarten math workbook for parents and curious kids! This fun and engaging book is filled with 108 pages of activities, exercises, games, and more, all ready to educate and entertain your children! Want to help your kindergartener get ahead on addition and subtraction activities? Want to make sure they have fun while doing it?! This comprehensive workbook features fun and engaging

activities based on counting, addition, subtraction, handwriting practice, number tracing, and more, making it a valuable addition to your child's preschool or homeschool curriculum. It's best suited for kids aged 5 to 7, but children of all ages will enjoy it. Created by the RV AppStudios team, this math practice book is beautifully illustrated and features the popular characters Lucas and Friends from their educational games and learning videos. Your child will love having Lucas & Friends around as they hone their math skills!

I Spy Everything Happy kids Happy kids

200 Math Puzzles for Kids Aged 12-14 - Math Games for Kids 12 to 14 Brain Trainer,2020-06-13         These 200 math logic puzzles will engage and stimulate your child's problem solving ability through addition, subtraction and multiplication of healthy foods.             In early childhood education it has been demonstrated that a correlation exists between the level of a child's mathematical ability and their future academic success. The reverse of this relationship has also been observed, where children who are behind the mathematical skills of their peers, continue to fall behind in future studies (Pelkowski, et al. 2019). Furthermore, it is well established in literature that the more maths learning opportunities a child is exposed to, the more growth they will experience in math knowledge (Piasta, et al. 2015). This book is designed to provide a math learning opportunity to foster the curiosity and confidence of children aged 12-14 and set them well on the path to academic success.     □ Scroll up and buy now to keep your child stimulated for hours! □    

Fun Plants & Seeds Math Games - Multiplication and Division for Kids Baby Professor,2017-02-15 How about incorporating Mathematics to plants? Well, this book will teach your kids how to multiply and divide with the help of our ever trusted plants and seeds. This book was designed to remove the intimidating perception about Math by creating games out of it. Your kids should love playing these games as they unconsciously answer Math problems on their own. Get it here.
