Routledge Handbook of Chinese Media Gary D. Rawnsley, Ming-yeh T. Rawnsley, 2015-04-24 The study of Chinese media is a field that is growing and evolving at an exponential rate. Not only are the Chinese media a fascinating subject for analysis in their own right, but they also offer scholars and students a window to observe multi-directional flows of information, culture and communications within the contexts of globalization and regionalization. Moreover, the study of Chinese media provides an

invaluable opportunity to test and refine the variety of communications theories that researchers have used to describe, analyse, compare and contrast systems of communications. The Routledge Handbook of Chinese Media is a prestigious reference work providing an overview of the study of Chinese media. Gary and Ming-Yeh Rawnsley bring together an interdisciplinary perspective with contributions by an international team of renowned scholars on subjects such as television, journalism and the internet and social media. Locating Chinese media within a regional setting by focusing on 'Greater China', the People's Republic of China, Taiwan, Hong Kong, Macau and overseas Chinese communities; the chapters highlight the convergence of media and platforms in the region; and emphasise the multi-directional and trans-national character of media/information flows in East Asia. Chinese Adolescents in Britain and Hong Kong Gajendra Verma, Yu-Man Chan, Christopher Bagley, Sylvia Sham, Douglas Darby, Derek Woodrow, George Skinner, 2018-08-16 First published

in 1999, this book is based on several years work in Hong Kong and Britain, both before and after the absorption of the Special Administrative Region of Hong Kong into the People's Republic of China in 1997. The initial chapters review the history of Chinese people in Britain; specific aspects of Chinese culture and personality; Chinese educational systems; and the recent history of migration from Hong Kong to Britain. The central part of the book compares three samples of adolescents (about 350 in each of the three cultures): Chinese adolescents in Hong Kong; Chinese adolescents in Britain, with sub-divisions of those who have grown up in Britain and those recently arrived; and Chinese adolescents in Hong Kong. All of the 1,050 respondents completed measures of self-concept, identity, educational aspirations and views about the family, society and the future. The final part of the book contains extended qualitative accounts from personal interview with a sub-sample of Chinese adolescents in Britain and concludes with proposals for educational and policy changes which can accommodate the aspirations of Chinese adolescents in the British educational system.

Bruce Lee Matthew Polly, 2019-06-04 "The first noteworthy treatment of its subject—and a definitive one at that...Fascinating narrative threads proliferate" (The New York Times Book Review). The most authoritative biography—featuring dozens of rarely seen photographs—of film legend Bruce Lee, who made martial arts a global phenomenon, bridged the divide between Eastern and Western cultures, and smashed long-held stereotypes of Asians and Asian-Americans. Forty-five years after Bruce Lee's sudden death at age thirty-two, journalist and bestselling author Matthew Polly has written the definitive account of Lee's life. It's also one of the only accounts; incredibly, there has never been an authoritative biography of Lee. Following a decade of research that included conducting more than one hundred interviews with Lee's family, friends, business associates, and even the actress in whose bed Lee died, Polly has constructed a complex, humane portrait of the icon. Polly explores Lee's early years as a child star in Hong Kong cinema; his actor father's struggles with opium addiction and how that turned Bruce into a troublemaking teenager who was kicked out of high school and eventually sent to America to shape up; his beginnings as a martial arts teacher, eventually becoming personal instructor to movie stars like James Coburn and Steve McQueen; his struggles as an Asian-American actor in Hollywood and frustration seeing role after role he auditioned for go to a

white actors in eye makeup; his eventual triumph as a leading man; his challenges juggling a sky-rocketing career with his duties as a father and husband; and his shocking end that to this day is still shrouded in mystery. Polly breaks down the myths surrounding Bruce Lee and argues that, contrary to popular belief, he was an ambitious actor who was obsessed with the martial arts—not a kung-fu guru who just so happened to make a couple of movies. This is an honest, revealing look at an impressive yet imperfect man whose personal story was even more entertaining and inspiring than any fictional role he played onscreen.

Hanna-Barbera Jared Bahir Browsh, 2021-12-28 With careers spanning eight decades, William Hanna and Joseph Barbera were two of the most prolific animation producers in American history. In 1940, the two met at MGM and created Tom and Jerry, who would earn 14 Academy Award nominations and seven wins. The

growth of television led to the founding of Hanna-Barbera's legendary studio that produced countless hours of cartoons, with beloved characters from Fred Flintstone, George Jetson and Scooby-Doo to the Super Friends and the Smurfs. Prime-time animated sitcoms, Saturday morning cartoons, and Cartoon Network's cable animation are some of the many areas of television revolutionized by the team. Their productions are critical to our cultural history, reflecting ideologies and trends in both media and society. This book offers a complete company history and examines its productions' influences, changing technologies, and enduring cultural legacy, with careful attention to Hanna-Barbera's problematic record of racial and gender representation.

East Asian Pop Culture Beng Huat Chua, Koichi Iwabuchi, 2008-02-01 The contributors analyse the subject of Asian pop culture arranged under three headings: 'Television Industry in East Asia', 'Transnational-Crosscultural Receptions of TV Dramas' and 'Nationalistic reactions'.

World Television Joseph D. Straubhaar, 2007-05-18 World Television: From Global to Local, a new assessment of the interdependence of television across cultures and nations brings together the most current research and theories on the subject. By examining recent developments in the world system of television as well as several theories of culture, industry, genre, and audience, author Joseph D. Straubhaar offers new insights into the topic. He argues that television is being simultaneously globalized, regionalized, nationalized, and even localized, with audiences engaging it at multiple levels of identity and interest; therefore the book looks at all these levels of operation. Key Features Draws upon both international communication and cultural studies perspectives: Presents a new model is presented that attempts to move beyond the current controversies about imperialism and globalization. Looks at historical patterns: Historical patterns across cultures and countries help compare where television has been and where it is going. Takes a contemporary focus: Uses of

technology, flows and patterns of program development, genres of television, the interaction of producers and audiences, and patterns of audience choice among emerging alternatives are examined. Explores how the audience for these evolving forms of television is structured: The effects of these forces or patterns of television have on both cultural formations and individual identities are identified. Intended Audience This is an excellent text for advanced undergraduate and graduate courses in Globalization and Culture, Global Media, Television Studies, Television Criticism, and International Media.

An Analytical Guide to Television's Battlestar Galactica

John Kenneth Muir, 2015-09-15 When the space drama Battlestar Galactica debuted on ABC in 1978, it was expected to be the most popular new program of the year. Instead, it was attacked as a Star Wars rip-off and canceled after a mere 17 stories. The author acknowledges the show was full of dramatic clichés and scientific inaccuracies, but despite these shortcomings, Battlestar Galactica was a dramatically resonant series full of unique and individual characters, such as Commander Adama (Lorne Greene) and ace warrior Captain Apollo (Richard Hatch). The author contends that Battlestar Galactica was a memorable attempt to make science fiction accessible to mainstream television audiences. The brilliant work of artist John Dykstra brought a new world of special effects to network television. Battlestar Galactica also skillfully exploited legends and names from both the Bible and ancient mythology, which added a layer of depth and maturity to the weekly drama.

Japanese Animation in Asia Marco Pellitteri, Wong Heung-wah, 2021-09-28 Anime is a quintessentially Japanese form of animation consisting of both hand drawn and computer-generated imagery, and is often characterised by colourful graphics, vibrant characters, and fantastical themes. As an increasingly globalising expression of popular art and entertainment, and distributed through cinema, television, and over the internet, anime series and films have an enormous following, not only in Japan but also in

Asia. This book provides a comprehensive survey of the historical development, industrial structure, and technical features of Japanese animation and of the overall dynamics of its globalisation in key contexts of the Asian region. Specific chapters cover anime’s production logics, its features as an ‘emotion industry’, and the involvement of a range of Asian countries in the production, consumption, and cultural impact of Japanese animation.
