*Too Far Gone* Allison Brennan,2018-10-30 When a man who appears mentally unstable holds a group of people hostage and dies in a shootout with the FBI, Special Agent Lucy Kincaid is assigned to investigate what happened. Up until two months ago, McMahon was a respected scientist—then his wife left him, he lost his job, and was arrested for assaulting a former colleague. The one person who might have answers — his research assistant — has disappeared. While Lucy is investigating this bizarre case, her husband Sean is on top of the world: his son Jesse is visiting for the summer. They are having a blast, until someone follows them. Sean is positive that the surveillance is connected to Jesse's step-father—a man who had once laundered money for a violent drug cartel. But when Lucy and Jesse are run off the road, they begin to wonder if the attack is connected to Jesse ... or Lucy's current case. Nothing is what it seems—not the McMahon investigation or the car accident. As Sean and Lucy dig deep into the lives of everyone involved, one thing becomes clear: If they don't find the truth fast, everyone they care about is in danger.

*Abandoned* Andrea Francis,2023-06-30 Featuring children's voices describing the trauma and suffering they feel when their parents leave, Abandoned explores psychological theories of mothers' and fathers' roles in children's lives and offers practical advice to those who care for children traumatized by parental abandonment. Parents leave their children for many reasons, including divorce, work, imprisonment, mental health, and domestic violence. While children may appear to understand these reasons, their hearts are often broken; they are traumatized and grieve their parent's absence. Their pain shows itself in a variety of maladaptive behaviors and emotions, such as anxiety, panic attacks, self-injury, low self-efficacy, anger, and excessive or inappropriate online use. In Abandoned, counseling psychologist Andrea Francis draws on classic and current research to describe the critical roles of mothers and fathers in their child's development. Stories told by children and family members are woven throughout the book to demonstrate the social, emotional, and psychological impact of parental abandonment. The children represent different ethnicities and socioeconomic and cultural backgrounds, highlighting that the pain of parental abandonment is felt keenly by all children regardless of race, ethnicity, gender, or culture. Francis's theory of twonesshelps explain how children often cope. Along with its study of children's

trauma, this book offers interventions derived from the author's experience, including multicultural activities that offer hope, resilience, and healing for abandoned children.
