Richard Mills

The Politics of Football in Yugoslavia Richard Mills, 2018-03-30 Winner of the Lord Aberdare Literary Prize for 2018 Even before Tito's Communist Party established control over the war-ravaged territories which became socialist Yugoslavia, his partisan forces were using football as a revolutionary tool. In 1944 a team representing the incipient state was dispatched to play matches around the liberated Mediterranean. This consummated a deep relationship between football and communism that endured until this complex multi-ethnic polity tore itself apart in the 1990s. Starting with an exploration of the game in the short-lived interwar Kingdom, this book traces that liaison for the first time. Based on extensive archival research and interviews, it ventures across the former Yugoslavia to illustrate the myriad ways football was harnessed by an array of political forces. Communists purposefully re-engineered Yugoslavia's most popular sport in the tumult of the 1940s, using it to integrate diverse territories and populations. Subsequently, the game advanced Tito's distinct brand of communism, with its Cold War-era policy of non-alignment and experimentation with self-management. Yet, even under tight control, football was racked by corruption, match-fixing and violence. Alternative political and national visions were expressed in the stadiums of both Yugoslavias, and clubs, players and supporters ultimately became perpetrators and victims in the countries' violent demise. In Richard Mills' hands, the former Yugoslavia's stadiums

become vehicles to explore the relationship between sport and the state, society, nationalism, state-building, inter-ethnic tensions and war. The book is the first in-depth study of the Yugoslav game and offers a revealing new way to approach the complex history of Yugoslavia.

Tales of the Cthulhu Mythos H. P. Lovecraft, Robert Bloch, Ramsey Campbell, Brian Lumley, 2011-10-12 The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown. -- H. P. LOVECRAFT, *Supernatural Horror in Literature* Howard Phillips Lovecraft forever changed the face of horror, fantasy, and science fiction with a remarkable series of stories as influential as the works of Poe, Tolkien, and Edgar Rice Burroughs. His chilling mythology established a gateway between the known universe and an ancient dimension of otherworldly terror, whose unspeakable denizens and monstrous landscapes--dread Cthulhu, Yog-Sothoth, the Plateau of Leng, the Mountains of Madness--have earned him a permanent place in the history of the macabre. In *Tales of the Cthulhu Mythos*, a pantheon of horror and fantasy's finest authors pay tribute to the master of the macabre with a collection of original stories set in the fearsome Lovecraft tradition: , *The Call of Cthulhu* by H. P. Lovecraft: The slumbering monster-gods return to the world of mortals. , *Notebook Found in a Deserted House* by Robert Bloch: A lone farmboy chronicles his last stand against a hungry backwoods evil. , *Cold Print* by Ramsey Campbell: An avid reader of forbidden books finds a treasure trove of deadly volumes--available for a

bloodcurdling price. , *The Freshman* by Philip José Farmer: A student of the black arts receives an education in horror at notorious Miskatonic University. PLUS EIGHTEEN MORE SPINE-TINGLING TALES!

Football in Southeastern Europe John Hughson, Fiona Skillen, 2015-10-14 This volume draws together scholarship across a number of disciplines – history, sociology, media and cultural studies, political science, Slavonic Studies – to examine the significance of the sport of football within Southeastern Europe, with an especial focus on countries of the former Yugoslavia. The volume is timely as there is growing recognition inside and beyond the academy that football is a key cultural site in which the tensions within the region have and continue to be reflected. Important issues such as resurgent nationalism, ethno/religious identity construction, and collective masculine identity are played out in relation to the sport of football. The papers within the volume explore these and other themes in detailed case studies that will be of interest to academics and policy makers concerned with wanting to know more about how football should be considered within agendas focused on reconciliation and a socially inclusive future. This book was published as a special issue of *Sport in Society*.

The Ultras Mark Doidge, Martin Lieser, 2020-12-17 Over the last 50 years, the ultras have become the most widespread, outspoken and spectacular form of football fandom across the globe. Whilst the ultras phenomenon began in Italy, then spread across Southern Europe into Northern Europe, it is now the

dominant style of fandom in North Africa, South East Asia and East Asia and is spreading into North America and Australia. This spectacular style of fandom has been spread through global media, social media and increased travel, where fans can view, engage and interact with a range of fans from across the globe and bring various local dimensions to their fandom. This volume brings together a range of articles about the ultras' style of football fandom. It is designed to be an introduction: a first account of ultras for the uninitiated. What follows are analyses and accounts of ultras in Italy, France, Germany, Poland, Turkey, Israel, North America, Australia, Indonesia and Croatia. Not only does this volume demonstrate the prevalence of the ultras' style of fandom across the globe, it shows how football becomes an important cultural arena to see the intersections of globalization and localism. This book was originally published as a special issue of *Sport in Society*.

Global Multiculturalism Grant Hermans Cornwell, Eve Walsh Stoddard, 2001
Global Multiculturalism offers a rich collection of case studies on ethnic, racial, and cultural diversity drawn from thirteen countries, each unique in the way it understands, negotiates, and represents its diversity. A multi-disciplinary group of authors shows how, in different nations, identity groups are included, or made invisible by forced assimilation, or reviled even to the point of genocide. Framed within a theoretical discussion of national identity, transnationalism, hybridity, and diaspora, each chapter

surveys the demographics and history of its country and then analyzes the dynamics of diversity. With cases ranging from Bosnia to Chiapas, Cuba to China, and Zimbabwe to France, this volume offers a truly global perspective and scope. Its genuinely comparative methodology and range of disciplinary perspectives make it a unique resource for all those seeking to understand ethnic conflict and diversity.

Giallo Fantastique Ross E. Lockhart, 2015-05-15 An anthology of original strange stories at the intersection of crime, terror, and supernatural fiction. Inspired by and drawing from the highly stylized cinematic thrillers of Argento, Bava, and Fulci; American noir and crime fiction; and the grim fantasies of Edgar Allan Poe, Guy de Maupassant, and Jean Ray, *Giallo Fantastique* seeks to unnerve readers through virtuoso storytelling and startlingly colorful imagery. What's your favorite shade of Yellow?

Eichmann in Jerusalem Hannah Arendt, 2006-09-22 The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as

it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

Our Great Qing Johan Elverskog, 2008-07-31 In a sweeping overview of four centuries of Mongolian history that draws on previously untapped sources, Johan Elverskog opens up totally new perspectives on some of the most urgent questions historians have recently raised about the role of Buddhism in the constitution of the Qing empire. Theoretically informed and strongly comparative in approach, Elverskog's work tells a fascinating and important story that will interest all scholars working at the intersection of religion and politics. —Mark Elliott, Harvard University Johan Elverskog has rewritten the political and intellectual history of Mongolia from the bottom up, telling a convincing story that clarifies for the first time the revolutions which Mongolian concepts of community, rule, and religion underwent from 1500 to 1900. His account of Qing rule in Mongolia doesn't just tell us what images the Qing emperors wished to project, but also what images the Mongols accepted themselves, and how these changed over the centuries. In the scope of time it covers, the originality of the views advanced, and the accuracy of the scholarship upon which it is based, *Our Great Qing* seems destined to mark

a watershed in Mongolian studies. It will be essential reading for specialists in Mongolian studies and will make an important contribution and riposte to the 'new Qing history' now changing the face of late imperial Chinese history. Specialists in Tibetan Buddhism and Buddhism's interaction with the political realm will also find in this work challenging and thought-provoking. —Christopher Atwood, Indiana University Although it is generally believed that the Manchus controlled the Mongols through their patronage of Tibetan Buddhism, scant attention has been paid to the Mongol view of the Qing imperial project. In contrast to other accounts of Manchu rule, *Our Great Qing* focuses not only on what images the metropole wished to project into Mongolia, but also on what images the Mongols acknowledged themselves. Rather than accepting the Manchu's use of Buddhism, Johan Elverskog begins by questioning the static, unhistorical, and hegemonic view of political life implicit in the Buddhist explanation. By stressing instead the fluidity of identity and Buddhist practice as processes continually developing in relation to state formations, this work explores how Qing policies were understood by Mongols and how they came to see themselves as Qing subjects. In his investigation of Mongol society on the eve of the Manchu conquest, Elverskog reveals the distinctive political theory of decentralization that fostered the civil war among the Mongols. He explains how it was that the Manchu Great Enterprise was not to win over Mongolia but was instead to create a unified Mongol community of which the disparate preexisting

communities would merely be component parts. A key element fostering this change was the Qing court's promotion of Gelukpa orthodoxy, which not only transformed Mongol historical narratives and rituals but also displaced the earlier vernacular Mongolian Buddhism. Finally, Elverskog demonstrates how this eighteenth-century conception of a Mongol community, ruled by an aristocracy and nourished by a Buddhist emperor, gave way to a pan-Qing solidarity of all Buddhist peoples against Muslims and Christians and to local identities that united for the first time aristocrats with commoners in a new Mongol Buddhist identity on the eve of the twentieth century.

Eurasian Slavery, Ransom and Abolition in World History, 1200-1860

Christoph Witzernath,2016-03-09 Recent research has demonstrated that early modern slavery was much more widespread than the traditional concentration on plantation slavery in the context of European colonial expansion would suggest. Slavery and slave trading, though little researched, were common across wide stretches of Eurasia, and a slave economy played a vital part in

the political and cultural contacts between Russia and its Eurasian neighbours. This volume concentrates on captivity, slavery, ransom and abolition in the vicinity of the Eurasian steppe from the early modern period to recent developments and explores their legacy and relevance down to the modern times. The contributions centre on the Russian Empire, while bringing together scholars from various historical traditions of the leading states in this region, including Poland-Lithuania and the Ottoman Empire, and their various successor states. At the centre of attention are transfers, transnational fertilizations and the institutions, rituals and representations facilitating enslavement, exchanges and ransoming. The essays in this collection define and quantify slavery, covering various regions in the steppe and its vicinity and looking at trans-cultural issues and the implications of slavery and ransom for social, economic and political connections across the steppe. In so doing the volume provides both a broad overview of the subject, and a snapshot of the latest research from leading scholars working in this area.

Food of Bodhisattvas Shabkar, 2004-08-10 Based on the teachings of the Buddha, this book offers the most compelling and impassioned indictment of meat-eating to be found in Tibetan literature and is pertinent to anyone interested in vegetarianism as a moral or spiritual issue. The Buddha's teachings show how destructive habits can be examined and transformed gradually from within. The aim is not to repress one's desire for meat and

animal products by force of will, but to develop heartfelt compassion and sensitivity to the suffering of animals, so that the desire to exploit and feed on them naturally dissolves. There are two texts presented here. One is an excerpt from Shabkar's Book of Marvels, consisting of quotations from the Buddhist scriptures and the teachings of masters of Tibetan Buddhism that argue against the consumption of meat, with Shabkar's commentary. The second, the Nectar of Immortality, is Shabkar's discourse on the importance of developing compassion for animals.
