Working with Excluded Populations in HIV Carmen Logie,2021-07-05 This book, written decades into the HIV epidemic, reflects critically on the idea that the socially excluded populations often focused on in HIV research are in fact difficult to access and reach. The author broadly applies the concept ‘hard to reach’ to characterize populations that researchers find difficult to engage with. Social factors that produce marginalization and ultimately result in people choosing not to engage in research are not captured by the concept of ‘hard to reach’. Limited attention has focused on how researchers can address the social factors that result in decisions to not engage in research. Disrupting the ways in which people are conceptualized as ‘hard to reach’ so as to refocus on transforming social systems and personal values, beliefs and approaches is understudied. This book uses case examples based on HIV research with Indigenous youth, internally displaced women, LGBTQ communities in the Global North and Global South, and persons at the intersection of these identities, to identify successful approaches to working with marginalized and often vulnerable communities and groups. The chapters signal the need for attention to five key social factors when developing successful approaches: context and storytelling; cultural humility; critical hope; imagination and possibility; and love, intimate inquiry, and the beloved community, if nations, individuals and communities are to address the epidemic in a sustainable and impactful way.

*LBGTQ+ Crime and Victimization* Frances P. Bernat,2023-05-08 This book provides research and analysis on an understudied topic: the LBGTQ+ community as victims and offenders. Most publications focus on LBGTQ+ history and the community's movement towards equality and acceptance in society and in law. A focus on how the criminal justice system victimizes and marginalizes LBGTQ+ persons is needed. Consequently, this work includes chapters on members of the LBGTQ+ community who work in the criminal justice system, forced sexual orientation efforts, transgender legal concerns, LBGTQ+ persons who are arrested and imprisoned, and online dating hate crimes. International scholars provide their individual stories about being gay, bisexual or lesbian and working as a police or correctional officer. Other international contributors explain their research on crime and how the law and criminal justice community does not provide LBGTQ+ persons with protection or support as offenders or victims. This book will of interest to researchers and advanced students of Criminology, Sociology, Law, and Gender Studies. It was originally published as a special issue of the journal *Women & Criminal Justice*.

*Immigrants on Grindr* Andrew DJ Shield,2019-11-07 This book examines the role of hook-up apps in the lives of gay, bi, trans, and queer immigrants and refugees, and how the online culture of these platforms promotes belonging or exclusion. Within the context of the so-called European refugee crisis, this research focuses on the experiences of immigrants from especially Muslim-majority countries to the greater Copenhagen area, a region known for both its progressive ideologies and its anti-immigrant practices. Grindr and similar platforms connect newcomers with not only dates and sex, but also friends, roommates and other logistical contacts. But these socio-sexual platforms also become spaces of racialization and othering. Weaving together analyses of real Grindr profile texts, immigrant narratives, political rhetoric, and popular media, *Immigrants on Grindr* provides an in-depth look at the complex interplay between online and offline cultures, and between technology and society.

Click and Kin May Friedman,Silvia Schulterlandl,2016-01-01 The essays in *Click and Kin* span the globe, examining transnational connections that touch in the United States, Canada, Mexico, India, Pakistan, and elsewhere.

Queer Intercultural Communication Shinsuke Eguchi,Bernadette Calafell,2019-10-01 *Queer Intercultural Communication* helps to expand the field of queer studies to consider cultural difference and how it affects everyday communication across the globe. These authoritative essays from established and emerging scholars bring us cases of LGTBQ people in and across race, ethnicity, gender, culture, nation, and bodies.

The New Laws of Love Marie Bergström,2021-12-21 Online dating has become a widespread feature of modern social life. In less than two decades, seeking partners through commercial intermediaries went from being a marginal and stigmatized practice to being a common activity. How can we explain this rapid change and what does it tell us about the changing nature of love and sexuality? In contrast to those who praise online dating as a democratization of love and those who condemn it as a commodification of intimacy, this book tells a different story about how and why online dating became big. The key to understanding the growing prevalence of digital dating lies in what Marie Bergström calls “the privatization of intimacy.” Online dating takes courtship from the public to the private sphere and makes it a domestic and individual practice. Unlike courtship in traditional settings such as school, work, and gatherings of family and friends, online dating makes a clear distinction between social and sexual sociability and renders dating much more discrete. Apparently banal, this privatizing feature is fundamental for understanding both the success and the nature of digital matchmaking. Bergström also sheds light on the persisting inequalities of intimate life, showing that online dating is neither free nor fair: it has its winners and losers and it differs significantly according to gender, age and social class. Drawing on a wide range of empirical material, this book challenges what we think we know about online dating and gives us a new understanding of who, why, and how people go online to seek sex and love.

**Mediated Intercultural Communication in a Digital Age** Ahmet Atay,Margaret U. D'Silva,2019-03-13 This book focuses on mediated intercultural communication in the context of globalization. Analyzing social and traditional media using qualitative, interpretive, and critical and cultural perspectives, contributors engage with diverse topics - ranging from hybrid identities in different communities, to journalistic collaborations in the global media landscape. In addition, the authors also examine the placeless and borderless communities of diaspora members, their transnational identities, and the social media stories that shape and are shaped by them.

Digital Dilemmas Diana C. Parry, Corey W. Johnson, Simone Fullagar, 2018-12-05 The proliferation of digital technologies, virtual spaces, and new forms of engagement raise key questions about the changing nature of gender relations and identities within democratic societies. This book offers a unique collection of chapters that brings together scholars from diverse backgrounds to explore how gender experiences and identities are being transformed by digital technologies in ways that affirm or deny social justice.

*The Gay Cookbook* Chef Lou Rand Hogan, 2020-04-27 In the sensuous sixties, Chef Hogan wrote his Wild and Wacky book. A reprint of the original edition, when the author was decades ahead of his time. The Gay Cookbook is filled with the jokes and innuendo of the time. Even on the frontispiece, in the book's first pages, a line reads All rights reserved, Mary. An essential part of mid-century campy dialogue, was the use of female nicknames among gay men: Hogan addresses the reader by many, including Myrtle, Mabel, and Mame. The recipes are lengthy and chatty. But while written humorously, the recipes often are complex and cosmopolitan. While his repertoire includes French and American classics, it also features Mexican, Southeast Asian, and Hawaiian recipes. For a guacamole recipe, Hogan gives the basics as avocado, tomatoes, fresh lime, and salt. Those wanting to mix it up can add onion and spices, he writes, but he forbids more variation. This is an 'original' Mexican recipe, he writes, before it's been crapped up by some Hollywood or Brooklyn chef. Hogan also explains how to prepare an elaborate rijsttafel buffet, a many-coursed Indonesian banquet with roots in Dutch colonialism. A chili recipe spans several pages and requires hours of cooking.

**In the Great Green Room** Amy Gary, 2017-01-10 Captures the exceptional life, imagination, and passion of the author of Goodnight Moon, drawing on unpublished manuscripts, songs, personal letters, and diaries that the author discovered in the attic of Margaret Wise Brown's sister.

The Journey to Purpose Jerry M. Carter, Jr., 2019-10-26

*Harley Quinn (2021-)* #10 Stephanie Nicole Phillips, 2021-12-28 You know those real cheesy rom-coms where two unlikely lovebirds lean in for the same book and knock heads in the poetry section of the school library and fall madly in love? Well, this story is nothing like that. For starters, Kevin met his new muse in the middle of Scarecrow attacking Gotham (how's that for a meet-cute?). And second, despite his planning the most perfect and romantic date night with Ivy, it seems like she might have something else on her mind. Love is in the air-errr, wait...that might be toxic gas...this is Gotham!

**A Networked Self and Love** Zizi Papacharissi, 2018-06-12 We fall in love every day, with others, with ideas, with ourselves. Stories of love excite us and baffle us. This volume is about love and the networked self. It focuses on how love forms, grows, or dissolves. Chapters address how relationships of love develop, are sustained or broken up through technologies of expression and connection. Authors explore how technologies reproduce, reorganize, or reimagine our dominant rituals of love. Contributors also address what our experiences with love teach us about ourselves, others, and the art of living. Every love story has a beginning and an end. Technology does not give love the kiss of eternity; but it can afford love new meaning.

**Drama High** Michael Sokolove, 2014-10-07 The inspiration for the NBC TV series Rise, starring Josh Radnor, Auli'i Cravalho, and Rosie Perez — the incredible and true story of an extraordinary drama teacher who has changed the lives of thousands of students and inspired a town. By the author of The Last Temptation of Rick Pitino. Why would the multimillionaire producer of Cats, The Phantom of the Opera, and Miss Saigon take his limo from Manhattan to the struggling former steel town of Levittown, Pennsylvania, to see a high school production of Les Misérables? To see the show performed by the astoundingly successful theater company at Harry S Truman High School, run by its legendary director, Lou Volpe. Broadway turns to Truman High when trying out controversial shows such as Rent and Spring Awakening before they move on to high school theater programs across the nation. Volpe's students from this blue-collar town go on to become Emmy-winning producers, entertainment executives, newscasters, and community-theater founders. Michael Sokolove, a Levittown native and former student of Volpe's, chronicles the drama director's last school years and follows a group of student actors as they work through riveting dramas both on and off the stage. This is a story of an economically depressed but proud town finding hope in a gifted teacher and the magic of theater.

Why Gender Matters Leonard Sax, M.D., Ph.D., 2007-12-18 Are boys and girls really that different? Twenty years ago, doctors and researchers didn't think so. Back then, most experts believed that differences in how girls and boys behave are mainly due to differences in how they were treated by their parents, teachers, and friends. It's hard to cling to that belief today. An avalanche of research over the past twenty years has shown that sex differences are more significant and profound than anybody guessed. Sex differences are real, biologically programmed, and important to how children are raised, disciplined, and educated. In Why Gender Matters, psychologist and family physician Dr. Leonard Sax leads parents through the mystifying world of gender differences by explaining the biologically different ways in which children think, feel, and act. He addresses a host of issues, including discipline, learning, risk taking, aggression, sex, and drugs, and shows how boys and girls react in predictable ways to different situations. For example, girls are born with more sensitive hearing than boys, and those differences increase as kids grow up. So when a grown man speaks to a girl in what he thinks is a normal voice, she may hear it as yelling. Conversely, boys who appear to be inattentive in class may just be sitting too far away to hear the teacher—especially if the teacher is

female. Likewise, negative emotions are seated in an ancient structure of the brain called the amygdala. Girls develop an early connection between this area and the cerebral cortex, enabling them to talk about their feelings. In boys these links develop later. So if you ask a troubled adolescent boy to tell you what his feelings are, he often literally cannot say. Dr. Sax offers fresh approaches to disciplining children, as well as gender-specific ways to help girls and boys avoid drugs and early sexual activity. He wants parents to understand and work with hardwired differences in children, but he also encourages them to push beyond gender-based stereotypes. A leading proponent of single-sex education, Dr. Sax points out specific instances where keeping boys and girls separate in the classroom has yielded striking educational, social, and interpersonal benefits. Despite the view of many educators and experts on child-rearing that sex differences should be ignored or overcome, parents and teachers would do better to recognize, understand, and make use of the biological differences that make a girl a girl, and a boy a boy.

Rebel Love Dr. Chris Donaghue,2019-01-08 In Rebel Love, Dr. Chris Donaghue, PhD (The Amber Rose Show with Dr. Chris ), reveals how traditional dating rules are toxic, why everything you've learned about dating and relationships is wrong, and how to have the best sex of your life. Dr. Chris is the sex expert you've been waiting for. He refuses to pathologize those whose sexuality doesn't fit in a neat little box and he doesn't just pay lip service to the pro-sex, feminist, and body-positive mores of the day -- he demands them. Rebel Love welcomes all sexualities and identities no matter where you fall on the spectrum and empowers people to be authentically who they are both in and out of the bedroom. Dr. Chris's prescription for hotter, healthier sex -- the two go hand in hand -- encourages you to stop participating in patriarchal stereotypes, broaden your sexual horizons, and have amazing sex. Best of all, he shows you how with real-world examples and inspirational case studies.
