**Reading Sounds** Sean Zdenek, 2015-12-23 The work of writing closed captions for television and DVD is not simply transcribing dialogue, as one might assume at first, but consists largely of making rhetorical choices. For Sean Zdenek, when captioners describe a sound they are interpreting and creating contexts, they are assigning significance, they are creating meaning that doesn't necessarily exist in the soundtrack or the script. And in nine chapters he analyzes the numerous complex rhetorical choices captioners make, from abbreviating dialogue so it will fit on the screen and keep pace with the editing, to whether and how to describe background sounds, accents, or slurred speech, to nonlinguistic forms of sound communication such as sighing, screaming, or laughing, to describing music, captioned silences (as when a continuous noise suddenly stops), and sarcasm, surprise, and other forms of meaning associated with vocal tone. Throughout, he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing-impaired viewers. Threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning, thereby better serve the needs of hearing-impaired viewers. The author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the Internet, where captioning can take on additional functions such as enhancing searchability. While scholarly work has been done on captioning from a legal perspective, from a historical perspective, and from a technical perspective, no one has ever done what Zdenek does here, and the original analytical models he offers are richly interdisciplinary, drawing on work from the fields of technical communication, rhetoric, media studies, and disability studies.

**What About My Security** Ronald M. Herhuth, 2003 With so much talk about National Security, millions of people are feeling the impact on a personal level. So many individuals want to do more to protect themselves, but don't know what to do or where to turn. What About MY Security? reaches out to anyone of any lifestyle or income bracket that has an interest in security for life and property - whether it's for themselves, family or friends. Author Ronald M. Herhuth reaches out to homeowners, renters, apartment dwellers, condominium owners, seniors living alone and small business owners. He shares with them the decision making and purchasing process of a security system - whether a security system is right for them, what to watch out for, even methods of securing a premises if a complete security system is not what is desired. Find out how to bolster a security system with additional protection aside from the system itself. The book shares the author's knowledge in home and personal safety. You will, for example, find informative sections on carbon monoxide, living in a fire zone, fire extinguishers, fire safety, and designing an escape plan with the family. The author also covers miscellaneous home and personal safety topics, including an in depth look at the rapidly growing crime of Identity Theft - considered to be one of the most violating crimes in history. What About MY Security? makes a great gift that will keep on giving.

**Men and Gods** Rex Warner, 2008-01-08 This outstanding collection brings together the novelist and scholar Rex Warner's knack for spellbinding storytelling with Edward Gorey's inimitable talent as an illustrator in a memorable modern recounting of the most beloved myths of ancient Greece. Writing in a relaxed and winning colloquial style, Warner vividly recreates the classic stories of Jason and the Argonauts and Theseus and the Minotaur, among many others, while Gorey's quirky pen-and-ink sketches offer a visual interpretation of these great myths in the understated but brilliantly suggestive style that has gained him admirers throughout the world. These tales cover the range of Greek mythology, including the creation story of Deucalion and Pyrrha, the heroic adventures of Perseus, the fall of Icarus, Cupid and Psyche's tale of love, and the tragic history of Oedipus and Thebes. Men and Gods is an essential and delightful book with which to discover some of the key stories of world literature.

**Wake, Siren** Nina MacLaughlin, 2019-11-19 In fierce, textured voices, the women of Ovid's Metamorphoses claim their stories and challenge the power of myth I am the home of this story. After thousands of years of other people's tellings, of all these different bridges, of words gotten wrong, I'll tell it myself. Seductresses and she-monsters, nymphs and demi-goddesses, populate the famous myths of Ovid's Metamorphoses. But what happens when the story of the chase comes in the voice of the woman fleeing her rape? When the beloved coolly returns the seducer's gaze? When tales of monstrous transfiguration are sung by those transformed? In voices both mythic and modern, Wake, Siren revisits each account of love, loss, rape, revenge, and change. It lays bare the violence that undergirds and lurks in the heart of Ovid's narratives, stories that helped build and perpetuate the distorted portrayal of women across centuries of art and literature. Drawing on the rhythms of epic poetry and alt rock, of everyday speech and folk song, of fireside whisperings and therapy sessions, Nina MacLaughlin, the acclaimed

author of Hammer Head, recovers what is lost when the stories of women are told and translated by men. She breathes new life into these fraught and well-loved myths.
