Astrology Aspects For Beginners Wilma Reyes,2015-02-03 Astrology is a study related to the influence of celestial objects on human lives and affairs. The positions and movements of sun, moon, stars and planets had a certain kind of effect on the personalities of individuals, their relationships and their overall routine matters. Predicting these effects through the symbols is what astrology is all about.

Esoteric Astrology Alan Leo,1978-03 For the first time in the history of astrology, an entirely new method of reading horoscopes is given. The individual and personal stars of all individuals are explained by a series of star maps, showing how the age of the soul may be astrologically discovered. Complete instructions are provided for creating a star map from a horoscope.

VEDIC ASTROLOGY FOR BEGINNERS A. M.Latha,2016

Medical Astrology for Beginners Arun Bansal, The diseases are the result of our past karmas and indicated by weak and afflicted planets. This can be easily understood by an astrologer. Therefore every book on astrology has discussed the diseases and yogas for these diseases are scattered throughout the astrological literature. Some of these Yogas have been compiled in this book for the intelligent readers with the observations and experiences of author. Author has used the astrology for the purpose of diagnosis as other laboratory tests, MRI and CAT SCAN etc. It gave good results to understand whether the chronic diseases are curable or not. Moreover it has helped to understand the time period of onset of the disease

which no other science can explain. Therefore astrology is science of sciences. One must be careful while predicting diseases because so many factors are involved in prediction. Only the yoga for disease is not sufficient. If the yoga is aspected by benefic planets, the results will be nullification of malefic influence. The disease depends on the strength of the disease producing planets. Even if a disease may be indicated from a house from lagna but from Moon and navamsha lagna the same house is strong and lord is fortified, the malefic influence may get cancelled. Therefore while judging one must consider the house, lord of house and karaka of the house, rashish where the lord of house is posited i.e. dispositor, and navamshesh, the lord of house in navamsha chart where the lord of the house is posited, and relationship in navamsha chart between lagna lord and lord of the house into consideration from lagna, Moon, navamsha lagna and nakshatra of the planet in which he is posited. One must take into consideration the nature and qualities of the planets causing the disease; functional benefic or malefic to the lagna house in which they are posited. The benefic planet will certainly cause less harm than the malefic planet. The relationship between the two planets also affects the disease producing capacity. The relationship is also natural and functional. The aspect and conjunction of the planets should also be taken into consideration. The retrograde malefic planet is more powerful in causing diseases than the normal malefic planet. The retrograde benefic planet does not protect the native. When a benefic planet is lord of maraka house and posited in that house, it becomes strong maraka planet. Keeping the above factors into consideration we can predict the timing of onset of diseases with the help of dasha system and Gochar. The most common dasha system employed is Vimshottari dasha system. Still we can divided the timing of diseases into: 1. Yogas present in the horoscope 2. Dasha/bhukti/Paratyantar dasha 3. Transit (Gochar) 4. Horary All these factors have been discussed in this book in detail.

Fundamentals of Astrology M. Ramakrishna Bhat, 1988 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell, but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit therefrom as well as its departure to other worlds according to its karma. In this book an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make man a fatalist, a helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends, but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God. Contents Preface to the First Edition, Preface to the Third Edition, 1. General Principles, 2. Planets' Characteristics, 3. Lagna and other Houses, 4. Planetary Strength, 5. The Astrology of Accidents Charles E.O. Carter, 2010-04 People often ask if there is proof for astrology. Astrologers are not so much worried about proving astrology, as they are in using it to reveal nuance and detail. In 1929, after writing four previous books, Charles Carter (1887-1968) set

his sights on discovering the astrological reasons why accidents happen, and which people are most prone to them. In part he wanted to test if astrological fundamentals were true or not. Carter knew that astrology works, but does it work the way it has long claimed, or, if it does not, can the real rules be discovered by analysis? This book is divided into two broad sections. In the first, Carter compiles raw sign and house placements of Sun, Moon and planets, along with the angular separation of pairs of planets, to determine which planets, in which signs, in which houses, and which specific angles, produce the most accidents overall. The results are surprising. In the second section, Carter analyzes specific accidents for common traits. Sixteen different classes of accidents are analyzed, among them drowning, gunshots, burns, falls, and railway accidents. While the number of individual cases were limited, Carter was able to determine critical degree areas. New in this edition, a list of local influences derived from Carter's work, and a useful index. This book was first published in 1932.
