The Perfect Horoscope John Willner,2001-03-20 The majority of horoscopes in current use are terribly wrong. Why? Because spiritual birth times, which are essential to producing an accurate horoscope according to Edgar Cayce, occur up to four-and-a-half hours before physical birth. That difference leaves aspects between planets about the same, but shifts all house cusps backward by up to one or two signs. Compared with most of today's faulty horoscopes, these perfect horoscopes match personas with awesome precision and provide greatly enhanced forecasting capabilities. This revolutionary book on astrology shows you how to (1) arrive at spiritual birth times, (2) apply two other fundamentals of astrology currently omitted from most horoscopes, and (3) verify your now totally functional horoscope. Topics covered in this book include: Who in recorded history may have been responsible for the mistakes of astrology, and its subsequent fall from grace o How to calculate accurate, soul-chosen horoscopes; What steps can be taken to verify a soul chosen horoscope; Why progressions-not transits-mark the stepping-stones of life; When horoscopes can be used to confirm fundamentals and reject damaging false ideas (such as the first breath theory); Which concepts will change as we move from the Piscean Age of tolerant opinions to the Aquarian Age of benevolent intelligence.

The Progressed Horoscope Alan Leo,2024-02-11 The principal use to which astrology is applied by those who fail to realise its true purpose takes the form of searching for future happenings, so that predictions may be made and the future known, to a greater or lesser extent according to the skill of the practitioner. Now it is quite true,that the future may be foreseen more or less in every nativity, yet while some persons will respond to every vibration (whether good or evil) that affects them from without, others will not so respond, either from lack of sensitiveness, or else through the exercise of a strong will trained to control the sheaths or vehicles of response.
