Amazon's Best Romances of January Apple Books' Best Books of January Goodreads' Hottest Romances of January Buzzfeed's Most Anticipated Books of 2022 Popsugar, Parade.com, The Nerd Daily, and Fangirlish's Most Anticipated Books of 2022 A TV meteorologist and a sports reporter scheme to reunite their divorced bosses with unforecasted results in this electrifying romance from the author of *The Ex Talk*. Ari Abrams has always been fascinated by the weather, and she loves almost everything about her job as a TV meteorologist. Her boss, legendary Seattle weatherwoman Torrance Hale, is too distracted by her tempestuous relationship with her ex-husband, the station’s news director, to give Ari the mentorship she wants. Ari, who runs on sunshine and optimism, is at her wits’ end. The only person who seems to understand how she feels is sweet but reserved sports reporter Russell Barringer. In the aftermath of a disastrous holiday party, Ari and Russell decide to team up to solve their bosses’ relationship issues. Between secret gifts and double dates, they start nudging their bosses back together. But their well-meaning meddling backfires when the real chemistry builds between Ari and Russell. Working closely with Russell means allowing him to get to know parts of herself that Ari keeps hidden from everyone. Will he be able to embrace her dark clouds as well as her clear skies?

Weather Woman Cai Emmons,2018-10-09 A woman discovers a hidden power, and travels the world trying to learn how to use it, in “a deeply fascinating and extremely timely novel” (Margot Livesey, New York Times–bestselling author of *The Boy in the Field*). Thirty-year-old Bronwyn Artair feels out of place in her doctoral program in Atmospheric Sciences at MIT. So she drops out and takes a job as a TV meteorologist, much to the dismay of her mentor. After a year of living alone in New Hampshire, enduring the indignities of her job, dumped by her boyfriend, she discovers that her deep connection to the natural world has given her an ability to affect natural forces. When she finally accepts she really possesses this startling capability, she must then negotiate a new relationship to the world. Who will she tell? Who will believe her? Most importantly, how will she put this new skill of hers to use? As she seeks answers, she travels to Kansas to see the tornado maverick she worships; falls in love with the tabloid journalist who has come to investigate her; visits fires raging out of control in Los Angeles; and eventually voyages to the methane fields of Siberia. A woman experiencing power for the first time in her life, she must figure out what she can do for the world without hurting it further, in a novel about science, intuition, and what the earth needs from humans. “Full of amazing science, and even more amazing characters, it's the kind of book you want to press into the hands of everyone you meet because you need them to read it so you all can obsess and talk about it.” —Caroline Leavitt, New York Times–bestselling author of *With or Without You*

There's No Such Thing as Bad Weather Linda Åkeson McGurk,2017-10-03 Bringing Up Bébé meets Last Child in the Woods in this “fascinating exploration of the importance of the outdoors to childhood development” (Kirkus Reviews) from a Swedish-American mother who sets out to discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of “There’s no such thing as bad weather, only bad clothes” hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There’s No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

The Pacific Muse Patty O'Brien,2006 While examining colonial culture in its many manifestations, from art, literature, and film to the journals of explorers and missionaries, O'Brien rereads not only the canonical texts of Pacific imperialism, but also lesser-known remnants of this cultural heritage with an eye to what they reveal about gender, sexuality, race, and femininity. Over its long history - from the famous (and much romanticized) settlement of Tahitian women and mutineers from the *Bounty* on Pitcairn Island in 1789 to the South Seas romantic tradition, Gauguin, and beach culture - notions of female primitivism changed in response to the ideological watersheds of Christianity, Enlightenment science, and race theories, as well as the development of democratic nation-states, modernity, and colonialism.

Dragon Weather Lawrence Watt-Evans,2020-12-12 The dragons only emerged from their deep caverns when the weather was right, with thick clouds and sweltering heat. It was on such a day that Arlian's home village was destroyed, his family and friends slaughtered. He survived, though, and swore vengeance on the dragons, and on the looters and slavers who had captured him in the ruins. But no one had ever slain a dragon; how could a mere slave hope to do so?

The verses of The Law of the Jungle, for example, lay down rules for the safety of individuals, families and communities. The best-known of them are the three stories revolving around the adventures of an abandoned man cub Mowgli who is raised by wolves in the Indian jungle. The most famous of the other four stories are probably Rikki-Tikki-Tavi and Toomai of the Elephants. The Second Jungle Book is a sequel which features five stories about Mowgli and three unrelated stories, all but one set in India, most of which Kipling wrote while living in Vermont. The Man Who Would Be King is a novella about two British adventurers in British India who become kings of Kafiristan, a remote part of Afghanistan. The story was inspired by the exploits of James Brooke, an Englishman who became the first White Rajah of Sarawak in Borneo. Kim is and adventure novel about the orphaned son of an Irish soldier and a poor Irish mother who have both died in poverty. Living a vagabond existence in India under British rule in the late 19th century, Kim earns his living by begging and running small errands on the streets of Lahore. The Just So Stories are a highly fantasized origin stories, especially for differences among animals, they are among Kipling's best known works. The Light That Failed Captain Courageous Plain Tales from the Hills Rudyard Kipling (1865-1936) was an English short-story writer, poet, and novelist. He wrote tales and poems of British soldiers in India and stories for children. He is regarded as a major innovator in the art of the short story; his children's books are classics of children's literature.
