Home Fitness Regimen Training Guide Shawn Burke,2021-01-17 Do you want an easy and affordable option for your daily fitness schedule? If you think maintaining fitness starts and stops at the gym, you need to think again. While going to those establishments is all well and good, they're not the be-all and end-all when it comes to keeping physically (at times, even mentally) fit. Sure, they have the fancy equipment, the trainers who can keep you on track, and other amenities to make working out a luxurious experience. But at the end of the day, what's most important is you and how you feel. And you can keep fit just as well at home as you do in any gym. From assembling a few pieces of basic training equipment, to setting up a complete gym in a room in your house, at-home workouts could be the key to your fitness. Finding Time For Fitness Is Never Easy, But Home Training Could Provide The Answer! From assembling a few pieces of basic training equipment, to setting up a complete gym in a room in your house, at-home workouts could be the key to your fitness. Home fitness entails exactly what it implies: executing your personal fitness routine while at home using a variety of different techniques. Home fitness has been in our lives for decades - and it's taken on a new role since the Covid-19 pandemic closed gyms around the world. Whether it's a yoga class on Zoom or panic-buying a Peloton, many of us are trying to find ways to exercise effectively within four walls. Whether you are looking to improve your cardiovascular system, lose weight, gain lean muscle mass, or just stay active, in-home training has a place in your life. And the benefits of staying fit are no secret: Improvements in cardiovascular and respiratory health, better regulation of blood sugar, the potential to reduce or eliminate prescription medications (such as for diabetes or blood pressure), weight loss, reduction in cancer risk, and improved musculoskeletal strength are some of the better-known. But when you're working out at home, you're responsible for the whole plan: What exercises should you do? How many reps of each? How often should you rest? Are you feeling a cardio workout? An upper-body workout? Or do you want to fit in a total body workout instead? For many of us, answering all these questions is an added stress we'd rather avoid right now. And the good news is that's something you can avoid—without skipping your workout. We are about to show you an immaculate at-home workout program that take the guesswork out for you and will give you the whole exercise plan.
