Molly W. Berger

*Hotel Dreams* Molly W. Berger, 2011-04-18 Winner, 2012 Sally Hacker Prize, Society for the History of Technology *Hotel Dreams* is a deeply researched and entertaining account of how the hotel's material world of machines and marble integrated into and shaped the society it served. Molly W. Berger offers a compelling history of the American hotel and how it captured the public's imagination as it came to represent the complex—and often contentious—relationship among luxury, economic development, and the ideals of a democratic society. Berger profiles the country's most prestigious hotels, including Boston's 1829 Tremont, San Francisco's world-famous Palace, and Chicago's enormous Stevens. The fascinating stories behind their design, construction, and marketing reveal in rich detail how these buildings became cultural symbols that shaped the urban landscape.

**Hotel Mariachi** Catherine L. Kurland, Enrique R. Lamadrid, 2013-10-30 In Boyle Heights, gateway to East Los Angeles, sits the 1889 landmark "Hotel Mariachi," where musicians have lived and gathered on the adjacent plaza for more than half a century. This book is a photographic and ethnographic study of the mariachis, Mariachi Plaza de Los Angeles, and the neighborhood. The newly restored brick hotel embodies a triumphant struggle of preservation against all odds, and its origins open a portal into the Mexican pueblo's centuries-old multiethnic past. Miguel Gandert's compelling black-and-white images document the hotel and the vibrant mariachi community of the "Garibaldi Plaza of Los Angeles." The history of Hotel Mariachi is personal to Catherine López Kurland, a descendant of the entrepreneur who built it, and whose family's Californio roots will fascinate anyone interested in early Los Angeles or Mexican American history. Enrique Lamadrid explores mariachi music, poetry, and fiestas, and the part Los Angeles played in their development, delving into the origins of the music and offering a deep account of mariachi poetics. Hotel Mariachi is a unique lens through which to view the history and culture of Mexicano California, and provides touching insights into the challenging lives of mariachi musicians.

Urban Terrorism N. C. Asthana, Anjali Nirmal, 2009 Outrageous myths have been created and perpetrated about terrorism in general and terrorism by Muslims in particular. There are two reasons for it. One is, of course, genuine ignorance about things Islamic. The other reason is more sinister. Myths are created and perpetuated because that keeps everyone in business. By spinning yarns about the most horrible things the terrorists are capable of doing, the media ensures that they have a never-ending supply of sensational material with which to keep the people hooked it also enables the intelligence agencies and security forces to appear more relevant and expand their turf in the process. The myths must be busted because they tend to settle deep in the collective subconscious and ultimately come to influence policy decisions. The media, for example, would have you believe that we have not been able to eradicate terrorism only because we do not have enough commandos everywhere! The fact is that terrorism would not be finished by killing a few terrorists. Bomb blasts continue to take place in spite of the arrests of the masterminds. As long as we do not address the root cause, there would be many more willing to kill and get killed. Victory against terrorism can be achieved only if you have completely understood the fundamental reasons of terrorism, the motivation of the terrorists, the intrinsic weaknesses of the targets, the innate strength of the way of the terrorist, and the follies of the approach that you have persisted with so far. If a nation has floundered in its war against terrorism, it is because it has never had a serious and honest-to-God analysis of terrorism. Hence this book. Exhaustive yet attractive, informative yet interesting and above all, extremely hard-hitting it is the ultimate encyclopedia of terrorism.

*A Hospitable World?* David Jordhus-Lier, Anders Underthun, 2014-10-30 The hospitality and tourism sector is a large and rapidly expanding industry worldwide, and can rightfully be described as a vehicle of globalisation. Hotels are among the cornerstones of the industry often drawing workers from the most vulnerable segments of multicultural labour markets, accommodating and entertaining tourists and business travelers from around the world. This book explores the organisation of work, worker identities and worker strategies in hotel workplaces, as they are located in heterogeneous labour markets being changed by processes of globalisation. It uses an explicitly geographical approach to understand how different groups of workers experience and respond to challenges in the hospitality industry, and is based on recent theoretical debates and empirical research on hotel workplaces in cities as different as Oslo, Goa, London, Las Vegas and Toronto. A multi-scalar analysis is taken where concrete worker bodies and their physical, emotional and embodied labour are seen in relation to, among other aspects: the regulation of national and regional labour markets, city governments with global city ambitions, and global corporate actors and labour migration patterns. The book sheds light on the hotel workplace as a hierarchical and fragmented social space as well as addressing questions on worker mobility, the fragmentation of work, scales of organisation and how workers can help shape the regulation of their industry. This timely volume brings together contributions from international academics and is valuable reading for all those interested in hospitality, tourism, human geography and globalisation.

**Living Downtown** Paul Groth, 1999-01-01 From the palace hotels of the elite to cheap lodging houses, residential hotels have been an element of American urban life for nearly two hundred years. Since 1870, however, they have been the target of an official war led by people whose concept of home does not include the hotel. Do these residences constitute an essential housing resource, or are they, as charged, a public nuisance? *Living Downtown*, the first comprehensive social and cultural history of life in American residential hotels, adds a much-needed historical perspective to this ongoing debate. Creatively combining evidence from biographies, buildings and urban neighborhoods, workplace records, and housing policies, Paul Groth provides a definitive analysis of life in four price-differentiated types of downtown residence. He demonstrates that these hotels have played a valuable socioeconomic role as home to both long-term residents and temporary laborers. Also, the convenience of hotels has made them the residence of choice for a surprising number of Americans, from hobo author Boxcar Bertha to Calvin Coolidge. Groth examines the social and cultural objections to hotel households and the increasing efforts to eliminate them, which have led to the seemingly irrational destruction of millions of such housing units since 1960. He argues convincingly that these efforts have been a leading contributor to urban homelessness. This highly original and timely work aims to expand the concept of the American home and to recast accepted notions about the relationships among urban life, architecture, and the public management of residential environments.

Urban Architectures in Interwar Yugoslavia Tanja D. Conley, 2020-02-25 Resulting from a twenty-year period of research, this book seeks to challenge contradictions between the concepts of national and modern architectures promoted among the most pronounced national groups of Yugoslavia: Serbs, Croats and Slovenes. It spans from the beginning of their nation-building programs in the mid-nineteenth century until the

collapse of unified South Slavic ideology and the outbreak of the Second World War. Organized into two parts, it sheds new light onto the question of how two conflicting political agendas – on one side the quest for integral Yugoslavism and, on the other, the fight for strictly separate national identities – were acknowledged through the architecture and urbanism of Belgrade, Zagreb and Ljubljana. Drawing wider conclusions, author Tanja D. Conley investigates boundaries between two opposing yet interrelated tendencies characterizing the architectural professional in the age of modernity: the search for authenticity versus the strive towards globalization. *Urban Architectures in Interwar Yugoslavia* will appeal to researchers, academics and students interested in Central and Eastern European architectural history.

**Irish Urban Fictions** Maria Beville, Deirdre Flynn, 2018-11-01 This collection is the first to examine how the city is written in modern Irish fiction. Focusing on the multi-faceted, layered, and ever-changing topography of the city in Irish writing, it brings together studies of Irish and Northern Irish fictions which contribute to a more complete picture of modern Irish literature and Irish urban cultural identities. It offers a critical introduction to the Irish city as it represented in fiction as a plural space to mirror the plurality of contemporary Irish identities north and south of the border. The chapters combine to provide a platform for new research in the field of Irish urban literary studies, including analyses of the fiction of authors including James Joyce, Roddy Doyle, Kate O'Brien, Hugo Hamilton, Kevin Barry, and Rosemary Jenkinson. An exciting and diverse range of fictions is introduced and examined with the aim of generating a cohesive perspective on Irish urban fictions and to stimulate further discussion in this emerging area.

**Racial Politics And Urban Planning** Robert A. Catlin, 2014-10-17 When Richard G. Hatcher became the first black mayor of Gary, Indiana in 1967, the response of Gary's white businessmen was to move the entire downtown to the suburbs, thereby weakening the city core. Meanwhile, white business and institutional leaders in Atlanta, Detroit, and Newark worked with black mayors heading those majority-black cities to rebuild their downtowns and neighborhoods. Why not Gary? Robert A. Catlin, who served as Mayor Hatcher's planning advisor from 1982 to 1987, here analyzes the racial conflicts that tore Gary apart. He asserts that two types of majority-black cities exist. Type I -- including Atlanta, Baltimore, Detroit, and Newark -- have Fortune 500 corporate headquarters, major universities, and large medical centers -- institutions that are placebound -- and their leaders must work with black mayors. Type II cities like Gary lack these resources; thus, their white leaders feel less compelled to cooperate with black mayors. Unfortunately in Gary's case, black politicians and white executives fell victim to pettiness and mistrust, and, as a result, Gary and the entire northwest Indiana region suffered. *Racial Politics and Urban Planning* is required reading for citizens interested in urban affairs. Leaders in cities such as Albany and Macon, Georgia; Monroe, Louisiana; Mount Vernon, New York; and Pine Bluff, Arkansas, should also take note. Those cities have just become majority black and are in the Type II category. Will they learn from Gary, or are they doomed to repeat its mistakes?

**POP-UP HOTEL REVOLUTION, the architectural innovation about to come in the hotel industry** Joseph Di Pasquale, Chiara Butta, Paola Zatti, 2015 WHICH IS MOVING: PEOPLE OR ARCHITECTURE? In an era where nomadism is the keyword that relates people to the rest of the world, architecture is seeking for a concrete response to the recent needs, result of the rise of mobility and worldwide travels. The proposal of new modular structures for the hospitality market defines the tendency to think movable, modular, flexible.
