Houses Floating Home Einar Turkowski,2016 Mysterious, a bit dark, and completely riveting, this book, imbued with the world of classic fairytales, fascinates and invites.

Finding Home: The Houses of Pursley Dixon Ken Pursley,Jacqueline Terrebonne,2021-09-14 In their first book, acclaimed architects Ken Pursley and Craig Dixon explore how to create gracious homes with welcoming entryways, soulful interiors, inviting porches, and ebullient gardens. Founded on the simple principle "Build beautiful things," the architectural team of Pursley Dixon, like populist architects Bobby McAlpine and Jeff Dungan, is known for blending elements of tradition with a modern lifestyle. In Finding Home, they share 15 stunning houses in three distinct styles: rustic mountain escapes, dreamy retreats by the water, and elegant houses in town. Each house has its own thoughtful visual narrative, but all are connected on an innate and authentic level by their sense of proportion, attention to detail, and a marvelous affinity with nature, displayed in their soothing neutral palettes, oversize windows that bring the outdoors in, and natural materials such as rough-hewn stone and unfinished wood. Little touches of humanity await discovery, such as a sleeping nook perched right out into the highest branches of a tree. These eccentricities and secrets add to the distinctly Southern sense of warmth and refuge these homes provide, homes whose open interiors and majestic porches easily accommodate family and gatherings. Featuring their own interior design work as well as that of acclaimed decorators such as Suzanne Kasler, Phoebe Howard, and Circa Interiors, Finding Home is about creating houses of inherent beauty that will spark an emotional connection to last a lifetime.

Welcoming Home Michaela Mahady,2010 As a principal architect at the Minnesota-based firm SALA Architects Inc., Mahady considers the aspects of home design that are pleasing to the senses and make people feel comfortable. Her mission is to explore the physical spaces that create this welcoming feeling. Most chapters cover Minnesota homes designed by SALA and include discussions and images of specific areas and rooms. Mahady contrasts the historical use of home spaces with how space is used today, as illustrated by beautiful photographs of architectural details. She also includes floor plans for nearly every home. In a conversational style, she shares a lot of insights into home design. VERDICT This book will serve as a design reference source for those building, remodeling, or redesigning their homes and looking for inspiration. The text is easy to read and offers a thoughtful analysis of traditional home spaces. -- Valerie Nye, Santa Fe Univ. of Art and Design Lib., NM.

Stories of House and Home Christine Varga-Harris,2016-02-19 Stories of House and Home is a social and cultural history of the massive construction campaign that Khrushchev instituted in 1957 to resolve the housing crisis in the Soviet Union and to provide each family its own apartment. Decent housing was deemed the key to a healthy, productive home life, which was essential to the realization of socialist collectivism. Drawing on archival materials, as well as memoirs, fiction, and the Soviet press, Christine Varga-Harris shows how the many aspects of this enormous state initiative—from neighborhood planning to interior design—sought to alleviate

crowded, undignified living conditions and sculpt residents into ideal Soviet citizens. She also details how individual interests intersected with official objectives for Soviet society during the Thaw, a period characterized by both liberalization and vigilance in everyday life. Set against the backdrop of the widespread transition from communal to one-family living, *Stories of House and Home* explores the daily experiences and aspirations of Soviet citizens who were granted new apartments and those who continued to inhabit the old housing stock due to the chronic problems that beset the housing program. Varga-Harris analyzes the contradictions apparent in heroic advances and seemingly inexplicable delays in construction, model apartments boasting modern conveniences and decrepit dwellings, happy housewarmings and disappointing moves, and new residents and individuals requesting to exchange old apartments. She also reveals how Soviet citizens identified with the state and with the broader project of building socialism.

Co-author Bruce Bawer is a leading cultural critic and the author of *A Place at the Table: The Gay Individual in American Society*, which was a New York Times Notable Book of the Year in 1993.

House and Home in Modern Japan Jordan Sand, 2020-05-11 A house is a site, the bounds and focus of a community. It is also an artifact, a material extension of its occupants' lives. This book takes the Japanese house in both senses, as site and as artifact, and explores the spaces, commodities, and conceptions of community associated with it in the modern era. As Japan modernized, the principles that had traditionally related house and family began to break down. Even where the traditional class markers surrounding the house persisted, they became vessels for new meanings, as housing was resituated in a new nexus of relations. The house as artifact and the artifacts it housed were affected in turn. The construction and ornament of houses ceased to be stable indications of their occupants' social status, the home became a means of personal expression, and the act of dwelling was reconceived in terms of consumption. Amid the breakdown of inherited meanings and the fluidity of modern society, not only did the increased diversity of commodities lead to material elaboration of dwellings, but home itself became an object of special attention, its importance emphasized in writing, invoked in politics, and articulated in architectural design. The aim of this book is to show the features of this culture of the home as it took shape in Japan.

House, Home, and Community John R. Miron, 1993-04-29 The contributors identify important considerations for evaluating the current and future housing situation, clarify housing research issues and priorities, and indicate emergent policy issues. The essays are divided into six sections: economic, demographic, and institutional factors underlying the postwar demand for housing; principal aspects of the supply side of housing, including housing finance, technology, and regulation; housing-stock growth and changes in housing quality; the balance of supply and demand in terms of adequacy, suitability, and affordability; the changing settlement environment; and lessons, challenges, and issues for the future. The book also contains valuable summaries of housing policy initiatives undertaken between 1945 and 1986. An essential reference document on urban housing and city development in the postwar period in Canada, *House, Home, and Community* will be valuable to academics, planners, professionals, and students with interests related to housing.

How to Build a Fire House Home Ben Franklin, 2013-07-30 The purpose of this writing is to help personnel managers solve problem. It is meant to help those who need and seek help in the field of Personnel Management. Anyone who supervises or manages people in any environment should find something here that will aid them in doing their job better, more efficiently, and with greater success. The original Benjamin Franklin started the Fire Service as a simple organization of volunteers with the goal of saving lives and property. What is written here is designed to build on that foundation and aid you in managing the complexities of the modern Fire Service. In 1733 Ben Franklin was asking that his city fight fires the way the bigger cities like Philadelphia do: Soon after it [a fire] is seen and cry'd out, the Place is crowded by active Men of different Ages, Professions and Titles who, as of one Mind and Rank, apply themselves with all Vigilance and Resolution, according to their Abilities, to the hard Work of conquering the increasing fire. Under Franklin's goading, a group of thirty men came together to form the Union Fire Company on December 7, 1736.

Dream Home Jonathan Scott, Drew Scott, 2016 The long-awaited first book from HGTV's biggest stars and Emmy nominees, the Property Brothers, on buying, selling, and renovating a home

Homes Moheb Soliman, 2021-06-08 Huron, Ontario, Michigan, Erie, Superior: HOMES. Moheb Soliman traces the coasts of the Great Lakes region with poems, exploring the nature of belonging in relation to land and the formation of identity along borders. Moheb Soliman's HOMES maps the shoreline of the Great Lakes from the rocky cliffs of Duluth, Minnesota, to the spray of Niagara Falls and back again. This poetic travelogue offers an intimate perspective on an immigrant experience as Soliman drives his Corolla past exquisite vistas and abandoned mines, through tourist towns and midwestern suburbs, searching for a place to claim as home. Against the backdrop of environmental destruction and a history of colonial oppression, the vitality of Soliman's language brings a bold ecopoetic lens to bear on the relationship between transience and belonging in the world's largest, most porous borderland.
