The Mediterranean House in America Lauren Weiss Bricker,2008-10-01 Inspired by the romance of Italian villas, Spanish farmhouses, and Moorish courtyards, the Mediterranean Revival style became an archetype for sophisticated suburban homes throughout America in the early 20th century. The characteristic white stucco house, roofed with terra-cotta and ornamented with ironwork, decorative tiles, and fountains, remains the dominant style for new residences in California, the Southwest, and Florida.The Mediterranean house s longevity is rooted in an overall simplicity and an emphasis on the outdoors. Its central courtyard, terraces, and loggias provide a fluidity between interiors and exteriors equally prized by the architects of ancient Pompeii and groundbreaking modernists.The Mediterranean House in America provides the first comprehensive survey of this popular style, beautifully illustrated in full-color photographs by Juergen Nogai, archival photos, and drawings.

Mediterranean Modern Dominic Bradbury,2011-04-26 “Sweeping concrete walls and huge glass walls, rectilinear blocks and infinity pools, steel rails and sliding doors . . . these are the stars of the striking, delightful, always airy, beautiful yet sometimes stark buildings in this fascinating book.”—Image Interiors Endless sun, sparkling sea, crystalline sky—these are the key elements of Mediterranean living. From southern Spain to northern Africa, from Greece to the Côte d’Azur, here are twenty-five contemporary houses from around the Mediterranean Sea. The book includes work by internationally established architects, such as Alberto Campo de Baeza and Carlos Ferrater, and houses created by a number of the region’s rising stars. The houses differ in their locations and styles but are united by clean lines, open floor plans, and seamless indoor-outdoor living. A fusion of interior style and architecture, of glorious natural landscapes and bold man-made forms, Mediterranean Modern will appeal to design aficionados as well as practicing architects and designers.

Luxury Home Plans Garlinghouse Company,1996

Mediterranean Inspiration HomePlanners,Home Planners, inc,2004 Few places stir the imagination and entice the senses like the sun-drenched lands of southern Europe. The timeless beauty of the coast slows life to a sensuous pace, where delights of jasmine and sea air, perfect white walls, and terra cotta roofs can be slowly savored. To follow the Mediterranean sun from the Aegean, past Sicily and along the Italian Riviera, beyond Cote d'Azur and the Spanish coast is to trace the home of ancient cultures -- Ottomans, Trojans, Romans, Carthaginians, Moors. We love the Mediterranean for the graceful way it cherishes its rich history. And when we bring the Mediterranean home -- in a row of slender columns or a softly arching window -- we share in its common, enduring beauty. Mediterranean Inspiration shows you how to capture the pleasures of southern European life by bringing the region's distinctive architecture and design to your new home. Once you've learned about the area's rich and varied legacy, you'll find inspiration in our gallery of stunning Mediterranean-influenced homes. Inside, you'll find a selection of truly inspired plans for homes ranging from under 1,500 square feet to over 7,000 square feet. The Roman Villa in the Mediterranean Basin Annalisa Marzano,Guy P. R. Métraux,2018-04-30 This volume offers a comprehensive survey of Roman villas in Italy and the Mediterranean provinces of the Roman Empire, from their origins to the collapse of the Empire. The architecture of villas could be humble or grand, and sometimes luxurious. Villas were most often farms where wine, olive oil, cereals, and manufactured goods, among other products, were produced. They were also venues for hospitality, conversation, and thinking on pagan, and ultimately Christian, themes. Villas spread as the Empire grew. Like towns and cities, they became the means of power and assimilation, just as infrastructure, such as aqueducts and bridges, was transforming the Mediterranean into a Roman sea. The distinctive Roman/Italian villa type was transferred to the provinces, resulting in Mediterranean-wide culture of rural dwelling and work that further unified the Empire.
