Justina Blakeney

366 Days of World War II Richard Binder, 2015-02-21 World War II lasted six years. That's 2,194 days. What happened in those six years? In this new diary, author Richard Binder takes a radical new approach to telling the story of the worst conflict humanity has ever experienced. Instead of trying to cover everything, he relates the happenings of just 366 days, the length of a single year. Choosing events great and small from the beginning of the war to its bitter end, he gives you a fascinating and sometimes shocking look at things you know from your high-school history and things you may never have heard of.

Jungalow: Decorate Wild Justina Blakeney, 2021-04-06 From Justina Blakeney, the ultimate guide to designing wildly creative interiors that are free-spirited, layered, and deeply personal Justina Blakeney's new book is her biggest, boldest, and most beautiful volume yet, filled with irresistible style, original patterns, and artwork—lushly photographed by Dabito. In each chapter, Justina shares her distinctive point of view on everything design fans want to know—how to make bold choices with color and pattern, how to take cues from nature, how to authentically glean inspiration from their heritage and travels, how to break rules, and all the other paths to truly begin to decorate wild. Along the way, Justina also shares personal narratives, practical advice, and nuanced insight into how she lives in her own space—how she reconnects with nature, how she plays and stays inspired, how she gives herself permission to feel free and wild, and how readers can do the same. Jungalow is the term coined by Justina for the brand that embodies her wild, but cozy and homey, style. Copycats abound, but there is no other book like this one—offering Justina's authentic, encouraging voice and approachable, signature style.

Over twenty-five experts investigate the design, land use, and road and foot traffic in rigorously researched essays, case studies, and interviews. Start Small, Stay Small Rob Walling, 2010 Start Small, Stay Small is a step-by-step guide

to launching a self-funded startup. If you're a desktop, mobile or web developer, this book is your blueprint to getting your startup off the ground with no outside investment. This book intentionally avoids topics restricted to venture-backed startups such as: honing your investment pitch, securing funding, and figuring out how to use the piles of cash investors keep placing in your lap. This book assumes: You don't have \$6M of investor funds sitting in your bank account You're not going to relocate to the handful of startup hubs in the world You're not going to work 70 hour weeks for low pay with the hope of someday making millions from stock options There's nothing wrong with pursuing venture funding and attempting to grow fast like Amazon, Google, Twitter, and Facebook. It just so happened that most people are not in a place to do this. Start Small, Stay Small also focuses on the single most important element of a startup that most developers avoid: marketing. There are many great resources for learning how to write code, organize source control, or connect to a database. This book does not cover the technical aspects developers already know or can learn elsewhere. It focuses on finding your idea, testing it before you build, and getting it into the hands of your customers.
