Joseph Murphy

Atomic Habits James Clear,2018-10-16 The #1 New York Times bestseller. Over 10 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Small Acts of Leadership G. Shawn Hunter,2016-10-04 In business today, there is no offline and there is no downtime. Professionals are both exhausted and depleted. Being constantly tethered to our work through technology makes us overwhelmed and shortsighted, and deprives us of time for meaningful reflection or thoughtful connection to our professional communities, and often even to our own families. For us to thrive-not simply survive-in this accelerating economy, we need to adopt small, intentional behaviors and practice them each day. From simply taking care of our rest and exercise to building our self-confidence and embracing challenges, author Shawn Hunter's latest book Small Acts of Leadership will guide you through a series of incremental steps you can take to build a stronger version of yourself and make a broader impact in the world. Weaving in personal life stories and meaningful interviews with business leaders around the world, Hunter presents the reader with twelve critical competencies that are consistently present in the daily behaviors of today's most successful leaders.

Believe in Yourself! The Better Way to Think - How to Change Your Mindset, Change Your Life, and Retrain Your Brain Jhenny N Gosha,2020-11-04 Learning how to believe in yourself will open up endless possibilities in your life. At times you may find this difficult to do. The truth is that we've been conditioned throughout our lives to doubt ourselves. We must retrain ourselves to get rid of our fears and self-doubt in order to build self-esteem and self-confidence. Everything you have in your life is a result of your belief in yourself and the belief that it's possible. Here are the four most important steps to learning how to believe in yourself. Most people start off with little or low self-confidence, but as a result of their own efforts, they become bold and brave and outgoing. And we've discovered that if you do the same things that other self-confident men and women do, you, too, will experience the same feelings and get the same results. The key is to be true to yourself, to be true to the very best that is in you, and to live your life consistent with your highest values and aspirations. This is the only way to truly learn how to believe in yourself. Take some time to think about who you are and what you believe in and what is important to you. If you want to change your life by becoming an author, believe that you can do it. The hardest step in that journey is finding the confidence to learn how to write a book. Once you get a hold of a proven system to plan, produce, and publish your work, the larger goal becomes easier to attain. By believing in yourself, you will find the courage to take immediate action on your goals. And this, as you may know, is the key to success!
