

How To Tell Stories To Children

Sara Cone Bryant

How to Tell Stories to Children Sara Cone Bryant, 1905 The stories which are given in the following pages are for the most part those which I have found to be best liked by the children to whom I have told these and others. I have tried to reproduce the form in which I actually tell them--although that invariably varies with every repetition--feeling that it would be of greater value to another story-teller than a more closely literary form. My hope is that this book may be of use to those who have much to do with children. -- Preface.

Children Tell Stories Martha Hamilton, Mitch Weiss, 2005 Presents concrete methods of incorporating storytelling by students of all ages into classroom practice to help teachers meet U.S. education standards of reading, writing, speaking, listening, viewing, and visually representing--Provided by publisher.

The Stories Children Tell Susan Engel, 1995-01-15 Whether presenting their versions of real events or making up tales of adventure and discovery, children enchant us with their stories. But the value of those stories goes beyond their charm. Storytelling is an essential form through which children interpret their own experiences and communicate their view of the world. Each narrative presented by a child is a brushstroke on an evolving self-portrait - a self-portrait the child can reflect on, refer to, and revise. In *The Stories Children Tell*, developmental psychologist Susan Engel examines the methods and meanings of children's narratives. She offers a fascinating look at one of the most exciting areas in modern psychology and education. What is really going on when a child tells or writes a story? Engel's insights into this provocative question are drawn from the latest research findings and dozens of actual children's tales - compelling, funny, sometimes disturbing stories often of unexpected richness and beauty. In *The Stories Children Tell*, Susan Engel examines: - the different functions of storytelling - the way the storytelling process changes as children develop - the contributions of parents and peers to storytelling - the different types of stories children tell - the development of a child's narrative voice - the best way of nurturing a child's storytelling skills Throughout these discussions, Engel presents compelling evidence for what is perhaps her most intriguing idea: that in constructing stories, children are constructing themselves.

How to Tell Stories to Children Sara Bryant, 2016-05-17 It enters on a mission of cheerfulness that has our best wishes...The art of storytelling is one of the most delightful accomplishments. Miss Bryant's book shall increase the interest in cultivating it. -The Unitarian Register She is an expert on

the likes and dislikes of small boys and girls. -The Christian Advocate An attractive, handy-sized book which will be very interesting to all teachers and mothers. Miss Bryant is uncommonly well qualified to explain this art to others by virtue of her long experience as a teller of stories to audiences of young people and as a lecturer upon methods to their elders. How Miss Bryant appeals to her hearers is evidenced by one rather unusual experience. Her first professional engagement was with a large club in the suburbs of Boston, by whom she was very happily received. The next season she was engaged again - and also the following. Finally, the club made a practice of voting, at the annual meeting, 'to have Miss Bryant next year.' Other engagements of a similar sort have been in many places in Massachusetts, Rhode Island, Connecticut, New York and Maryland. In most of these states, too, Miss Bryant has spoken before state institutes and teachers clubs. -The Interior A very clever presentation of the psychology of the art of telling a story. The book contains many suitable stories which will serve the purpose both of entertainment and education, and shows how to adapt to different grades of children's intelligence the stories which are too long or too difficult. -Publishers Weekly Suggestive to mothers and teachers. Many sample stories are included. -The Outlook Will guide the inexperienced into the art of storytelling. -The PTA Magazine Every teacher who can tell a story has in her possession a magic wand by which inattention may be overcome, quiet restored or won, lessons sent home to hearts and minds, conscience stimulated and character built. Every teacher may learn to tell a story....How to Tell Stories to Children will give a basis for study. Then practice and more practice, with the frank criticism of other teachers, will develop the art. To gain the ability to tell a story well is worth real sacrifice on the part of any teacher. Can you make little faces glow with pleasure, eyes open wide with interest and grow serious over the victory or defeat of the story children? To be able to do it is worth the price you may have to pay. -The Church School Journal CONTENTS INTRODUCTION CHAPTER I THE PURPOSE OF STORYTELLING IN SCHOOL CHAPTER II SELECTION OF STORIES TO TELL CHAPTER III ADAPTATION OF STORIES FOR TELLING CHAPTER IV HOW TO TELL THE STORY CHAPTER V SOME SPECIFIC SCHOOLROOM USES STORIES SELECTED AND ADAPTED FOR TELLING ESPECIALLY FOR KINDERGARTEN AND CLASS I. ESPECIALLY FOR CLASSES II. AND III. THE CHILD-MIND; AND HOW TO SATISFY IT
