The Future of Competition C. K. Prahalad, Venkat Ramaswamy, 2004-02-18 In this visionary book, C. K. Prahalad and Venkat Ramaswamy explore why, despite unbounded opportunities for innovation, companies still can't satisfy customers and sustain profitable growth. The explanation for this apparent paradox lies in recognizing the structural changes brought about by the convergence of industries and technologies; ubiquitous connectivity and globalization; and, as a consequence, the evolving role of the consumer from passive recipient to active co-creator of value. Managers need a new framework for value creation. Increasingly, individual customers interact with a network of firms and consumer communities to co-create value. No longer can firms autonomously create value. Neither is value embedded in products and services per se. Products are but an artifact around which

compelling individual experiences are created. As a result, the focus of innovation will shift from products and services to experience environments that individuals can interact with to co-construct their own experiences. These personalized co-creation experiences are the source of unique value for consumers and companies alike. In this emerging opportunity space, companies must build new strategic capital—a new theory on how to compete. This book presents a detailed view of the new functional, organizational, infrastructure, and governance capabilities that will be required for competing on experiences and co-creating unique value.

The Power of Co-Creation Venkat Ramaswamy, Francis J. Guillardart, 2010-10-05
Apple embraced co-creation to enhance the speed and scope of its innovation, generating over \$1 billion for its App-Store partner-developers in two years, even as it overtook Microsoft in market value. Starbucks launched its online platform MyStarbucksIdea.com to tap into ideas from customers and turbocharged a turnaround. Unilever turned to co-creation for redesigning product lines such as Sunsilk shampoo and revitalized growth. Nike achieved remarkable success with its Nike+ co-creation initiative, which enables a community of over a million runners to interact with one another and the company, increasing its market share by 10 percent in the first year. Co-creation involves redefining the way organizations engage individuals—customers, employees, suppliers, partners, and other stakeholders—bringing them into the process of value creation and engaging them in

enriched experiences, in order to –formulate new breakthrough strategies –design compelling new products and services –transform management processes –lower risks and costs –increase market share, loyalty, and returns In this pathbreaking book, Venkat Ramaswamy (who coined the term co-creation with C. K. Prahalad) and Francis Gouillart, pioneers in working with companies to develop co-creation practices, show how every organization—from large corporation to small firm, and government agency to not-for-profit—can achieve “win more—win more” results with these methods. Based on extraordinary research and the authors’ hands-on experiences with successful projects in co-creation at dozens of the world’s most exciting organizations, *The Power of Co-Creation* illustrates with detailed examples from leading firms such as those above, as well as from Cisco, GlaxoSmithKline, Amazon, Jabil, Predica, Wacoal, Caja Navarra, and many others, how enterprises have used a wide range of “engagement platforms”—and how they have even restructured internal management processes—in order to harness the power of co-creation. As the authors’ wealth of examples make vividly clear, enterprises can no longer afford to view customers and other stakeholders as passive recipients of their products and services but must learn to engage them in defining and delivering enhanced value. Co-creation goes beyond the conventional “process view” of quality, re-engineering, and lean thinking, and is the essential new mind-set and practice for boosting sustainable growth, productivity, and profits in the future.

Open Leadership Charlene Li, 2010-04-27 An essential guide for leaders who want to use social media to be open while maintaining control Be Open, Be Transparent, Be Authentic are the current leadership mantras-but companies often push back. Business is premised on the concept of control and yet the new world order demands openness-leaders do not know how to be open and be in control. This must-have resource will help the modern leader understand how to lead in the new open world-where blogging, twittering, facebooking, and digging are becoming the norm. the author lays out the steps that leaders must take to transform their organizations and themselves into being open - and exactly what that will mean. Shows how to use social media to become an open organization Offers basic advice for leaders who are adapting to the new era of openness in the marketplace The author Charlene Li is one of the foremost experts on social media and technologies In easy-to-understand language, this book will help leaders orient themselves to social networking and other technological advances.

Centered Leadership Joanna Barsh, Johanne Lavoie, 2014-03-18 What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership.

They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields – including business, government and the arts – and from many countries. With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership's five capabilities and the research that underpins it. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In *Centered Leadership*, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that have helped the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and women leaders who demonstrate the power of these skills in action. Those early in their careers will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will be able to use them to reconcile manage work and life to get the most out of

both. And those who have already achieved success will be able use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work and outside it.

The Co-Creation Paradigm Venkat Ramaswamy, Kerimcan Ozcan, 2014-04-09 A fundamental shift is underway that will change how we conceive of value. In an era of increasing interconnectedness, individuals, as opposed to institutions, stand at the center of value creation. To adapt to this tectonic shift, organizations can no longer unilaterally devise products and services. They must engage stakeholders—from customers and employees to suppliers, partners, and citizens at large—as co-creators. Co-creation guru Venkat Ramaswamy and Kerimcan Ozcan call for enterprises to be mindful of lived experiences, to build engagement platforms and management systems that are designed for creative collaboration, and to develop win more-win more strategies that enhance our wealth, welfare, and, well-being. Richly illustrated with examples of co-creation in action, *The Co-Creation Paradigm* provides a blueprint for the co-creative enterprise, economy, and society, while presenting a conceptual framework that will guide organizations across sectors in adopting this transformational approach. Challenging some of our most deeply held ideas about business and value, this book outlines the future of business as usual.

The Business Romantic Tim Leberecht, 2015-01-06 In this smart, playful, and provocative book, one of today's most original business thinkers argues that we underestimate the importance of romance in our lives and that we can find it in and through business—by designing products, services, and experiences that connect us with something greater than ourselves. Against the backdrop of eroding trust in capitalism, pervasive technology, big data, and the desire to quantify all of our behaviors, *The Business Romantic* makes a compelling case that we must meld the pursuit of success and achievement with romance if we want to create an economy that serves our entire selves. A rising star in data analytics who is in love with the intrinsic beauty of spreadsheets; the mastermind behind a brand built on absence; an Argentinian couple who revolutionize shoelaces; the founder of a foodie-oriented start-up that creates intimate conversation spaces; a performance artist who offers fake corporate seminars for real professionals—these are some of the innovators readers will meet in this witty, deeply personal, and rousing ramble through the world of Business Romanticism. *The Business Romantic* not only provides surprising insights into the emotional and social aspects of business but also presents “Rules of Enchantment” that will help both individuals and organizations construct more meaningful experiences for themselves and others. *The Business Romantic* offers a radically different view of the good life and outlines how to better meet one's own desires as well as those of customers, employees, and society. It encourages readers to

expect more from companies, to give more of themselves, and to fall back in love with their work and their lives.

Proactive Companies L. Araújo,R. Gava,2012-02-14 Why do some companies succeed better than others? It is well known that there are many variables such which may impact a company's performance. The authors present their new model for Market Proactiveness which shows organizations how to anticipate change and respond to it before they are forced to do so, and improve their overall performance.
