Enhancing Qualitative and Mixed Methods Research with Technology Hai-Jew, Shalin,2014-09-30 In light of the expensive nature of quantitative research, such as experiments, researchers must seek other methods of understanding the world around them. As such, new qualitative methods are gaining ground in the modern research community. Enhancing Qualitative and Mixed Methods Research with Technology explores the integration of new digital tools into the research process. Including current information on data visualization, research design, information capture, as well as social media analysis, this publication serves as an ideal reference source for academicians, scientists, information specialists, business managers, and upper-level students involved in interdisciplinary research.

Research Methods: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2015-01-31 Across a variety of disciplines, data and statistics form the backbone of knowledge. To ensure the reliability and validity of data, appropriate measures must be taken in conducting studies and reporting findings. Research Methods: Concepts, Methodologies, Tools, and Applications compiles chapters on key considerations in the management, development, and distribution of data. With its focus on both fundamental concepts and advanced topics, this multi-volume reference work will be a valuable addition to researchers, scholars, and students of science, mathematics, and engineering.

Music in Shakespeare Christopher R. Wilson,Michela Calore,2014-02-27 With an A-Z of over 300 entries, Music in Shakespeare is the most comprehensive study of all the musical terms found in Shakespeare's complete works. It includes a definition of each musical term in its historical and theoretical context, and explores the diverse extent of musical imagery across the full range of Shakespeare's dramatic and poetic work, as well as analysing the usage of instruments and sound effects on the Shakespearean stage. This is a comprehensive reference guide for scholars and students with interests in the thematic and allegorical relevance of music in Shakespeare, and the history of performance. Identifying all musical terms found in the Shakespeare canon, it will also be of use to the growing number of directors and actors concerned with recovering the staging conditions of the early modern theatre.
