Exploring Color Photography Robert Hirsch,2014-12-17 Robert Hirsch's Exploring Color Photography is the thinking photographer's guide to color imagemaking. Now in its sixth edition, this pioneering text clearly and concisely instructs students and intermediate photographers in the fundamental aesthetic and technical building blocks needed to create thought-provoking digital and analog color photographs. Taking both a conceptual and pragmatic approach, the book avoids getting bogged down in complex, ever-changing technological matters, allowing it to stay fresh and engaging. Known as the Bible of Color Photography, its stimulating assignments encourage students to be adventurous and to take responsibility for learning and

working independently. The emphasis on design and postmodern theoretical concepts stresses the thought process behind the creation of intriguing images. It's extensive and inspiring collection of images and accompanying captions allow makers to provide insight into how photographic methodology was utilized to visualize and communicate their objectives. The text continues to deliver inspiring leadership in the field of color photography with the latest accurate information, ideas, commentary, history, a diverse collection of contemporary images, and expanded cellphone photography coverage. A Problem Solving and Writing chapter offers methods and exercises that help one learn to be a visual problem solver and to discuss and write succinctly about the concepts at the foundation of one's work. Exploringcolorphotography.com, the companion website, has been revamped and updated to feature more student and teacher resources, including a new web-based timeline: As It Happened: A Chronological History of Color Photography.

**Canceling Appointment with Death** Akintayo Emmanuel, 2021-11-03 On March 11, 2020, the World Health Organization declared COVID-19--a disease caused by a virus known as SARS-CoV-2--a global pandemic. The year 2020 was the year that brought global change that requires a global shift, and we can't be tone-deaf to it. This shift demands we respond swiftly to the problems. Novel coronavirus claimed its first victim in Wuhan Province of China. In the blink of an eye, the invisible enemy had soared and has taken the lives of thousands with no regard for social class, race, or status. Those identified as the most powerful in the world were equally affected as money, power, and fame did nothing to stop the virus from spreading. As of April 30, 2021, about 3.17 million people died of COVID-19 worldwide. Many wonder why God, who is Love, would allow humanity to go through these horrendous times. The COVID-19 pandemic storm has revealed the debility of human beings and the perfection of our God. God might not hurriedly change the situation, but He uses the situation to change us. God uses this time to test the faith of those genuinely serving and fully committed to Him. In *Canceling Appointment with Death, COVID-19 Pandemic*, 'Tayo Emmanuel invites readers around the globe to learn how to dwell in the secret place of the Most High and how to build a personal Noah's Ark for the individual and the family at such a time as this. This secret place of the Most High and Noah's Ark is never a place or a structure. It is Jesus Christ who has established us inside a kingdom that cannot be shaken and who has all things under His perfect control, working all things after the counsel of His own will. How can every appointment with death, including COVID-19 and other future pandemics, be annulled? 'Tayo Emmanuel offers us answers from the revelation of God's Word that all enemies have been placed under Jesus's feet, including death, the last enemy. And the last days' church of Jesus Christ, the many membered body of Christ, are the feet of Jesus Christ that will

take Jesus, the head of the body of Christ to every nation of the world to usher in the end of the old and the beginning of the new. But now we see--yet not all things--put under him clearly shows that the Lord Jesus Christ, through the power of His Holy Spirit, is at work at this moment in history.

Covid-19 in Asia Victor V. Ramraj,2020-11-19 This is a book for an extraordinary time, about a pandemic for which there is no modern precedent. It is an edited collection of original essays on Asia's legal and policy responses to the Covid-19 pandemic, which, in a matter of months, swept around the globe, infecting millions. It transformed daily life in almost every corner of the planet: lockdowns of cities and entire countries, physical distancing and quarantines, travel restrictions and border controls, movement-tracking technology, mandatory closures of all but essential services, economic

devastation and mass unemployment, and government assistance programs on record-breaking scales. Yet a pandemic on this scale, under contemporary conditions of globalization, has left governments and their advisors scrambling to improvise solutions, often themselves unprecedented in modern times, such as the initial lockdown of Wuhan. This collection of essays analyzes law and policy responses across Asia, identifying cross-cutting themes and challenges. It taps the collective knowledge of an interdisciplinary team of sixty-one researchers both in the service of policy development, and with the goal of establishing a scholarly baseline for research after the storm has passed. The collection begins with an epidemiological overview and survey of the law and policy themes. The jurisdiction-specific case studies and cross-cutting thematic essays cover five topics: first wave containment measures; emergency powers; technology, science, and expertise; politics, religion, and governance; and economy, climate, and sustainability.

**Vulnerable** Colleen M. Flood, Vanessa MacDonnell, Jane Philpott, Sophie Thériault, Sridhar Venkatapuram, 2020-07-14 The novel coronavirus SARS-CoV-2, which causes the disease known as COVID-19, has infected people in 212 countries so far and on every continent except Antarctica. Vast changes to our home lives, social interactions, government functioning and relations between countries have swept the world in a few months and are difficult to hold in one's mind at one time. That is why a collaborative effort such as this edited, multidisciplinary collection is needed. This book confronts the vulnerabilities and interconnectedness made visible by the pandemic and its consequences, along with the legal, ethical and policy responses. These include vulnerabilities for people who have been harmed or will be harmed by the virus directly and those harmed by measures taken to slow its relentless march; vulnerabilities exposed in our institutions, governance and legal structures; and vulnerabilities in other countries and at the global level where persistent injustices harm us all. Hopefully, COVID-19 will force us to deeply reflect on how we govern and our policy priorities; to focus preparedness, precaution, and recovery to include all, not just some. Published in English with some chapters in French.
