**Exotic Betting At The Racetrack** William T Ziemba,2018-12-21 Exotic Betting at the Racetrack is unique as it covers the efficient-inefficient strategy to price and find profitable racetrack bets, along with handicapping that provides actual bets made by the author on essentially all of the major wagers offered at US racetracks. The book starts with efficiency, accuracy of the win odds, arbitrage, and optimal betting strategies. Examples and actual bets are shown for various wagers including win, place and show, exacta, quinella, double, trifecta, superfecta, Pick 3, 4 and 6 and rainbow pick 5 and 6. There are discussions of major races including the Breeders' Cup, Pegasus, Dubai World Cup and the US Triple Crown from 2012-2018. Dosage analysis is also described and used. An additional feature concerns great horses such as the great mares Rachel Alexandra, Zenyatta, Goldikova, Treve, Beholder and Song Bird. There is a discussion of horse ownership and a tour through arguably the world's top trainer Frederico Tesio and his stables and horses in Italy.Related Link(s)

*Sports Analytics* Leonard C Maclean,William T Ziemba,2021-12-22 This book is a collection of applications of analytic techniques to a number of popular sports including baseball, basketball, hockey, Jai Alai, NFL football and horseracing. We focus on both the statistics of the sporting events and betting strategies on the events. The subject is fascinating as there are many twists and subtle complicated decisions.Sports analytics applies mathematical and statistical methods to important questions in the structure and performance of sporting activities using the same basic methods and approaches as data analysts in other disciplines.Sports games and events are a fruitful area for study and to evaluate betting strategies as there is extensive data and mean reversion. With prices changing continuously, risk arbitrage bets can be made. Moreover, little errors, like a penalty to a player or an error in a call by a referee, can change the score of a game and corresponding betting prices. The collection and analysis of in-game data can inform players, coaches and staff on effective decision making during sporting events.Novel features of the book include: an analysis of who were the greatest baseball batters; analyses of the players most important to team success (and they are not necessarily the best players) in basketball, NFL football and hockey; a tutorial on risk arbitrage and its applications to NFL football and NBA basketball; a discussion of many ad hoc decision rules by coaches and players and what was really optimal; in the racing section we discuss breeding, the analysis of various bets like the Rainbow and ordinary Pick 6, a discussion and betting on the most important races and a visit to the Breeders' Cup with Ed Thorp to demonstrate the place and show system in action.

*Why This New Race* Denise Kimber Buell,2008-08-28 Denise Kimber Buell radically rethinks the origins of Christian identity, arguing that race and ethnicity played a central role in early Christian theology. Focusing on texts written before the legalization of Christianity in 313 C.E., including Greek apologetic treatises, martyr narratives, and works by Clement of Alexandria, Origen, Justin Martyr, and Tertullian, Buell shows how philosophers and theologians defined Christians as a distinct group within the Roman world, characterizing Christianness as something both fixed in its essence and fluid in its acquisition through conversion. Buell demonstrates how this view allowed Christians to establish boundaries around the meaning of Christianness and to develop the kind of universalizing claims aimed at uniting all members of the faith. Her arguments challenge generations of scholars who have refused to acknowledge ethnic reasoning in early Christian discourses. They also provide crucial insight into the historical legacy of Christian anti-Semitism and contemporary issues of race.

**Prejudice and Christian Beginnings** Laura Nasrallah,Elisabeth Schüssler Fiorenza,2009 While scholars of the New Testament and its Roman environment have recently focused attention on ethnicity, on the one hand, and gender on the other, the two questions have often been discussed separately-and without reference to the contemporary critical study of race theory. This interdisciplinary volume addresses this lack by drawing together new essays by prominent scholars in the fields of New Testament, classics, and Jewish studies. These essays push against the marginalization of race and ethnicity studies and put the received wisdom of New Testament studies squarely in the foreground.

*Minoritized Women Reading Race and Ethnicity* Jin Young Choi,Mitzi J. Smith,2020-09-24 Nonwhite women primarily appear as marginalized voices, if at all, in volumes that address constructions of race/ethnicity and early Christian texts. Employing an intersectional approach, the contributors analyze historical, cultural, literary, and ideological constructions of racial/ethnic identities, which intersect with gender/sexuality class, religion, slavery, and/or

power. Given their small numbers in academic biblical studies, this book represents a critical mass of nonwhite women scholars and offers a critique of dominant knowledge production. Filling a significant epistemological gap, this seminal text provides provocative, innovative, and critical insights into constructions of race/ethnicity in ancient and modern texts and contexts.

Race and Rhyme Love Lazarus Sechrest,2022-08-23 A leading womanist biblical scholar reads passages from the New Testament in dialogue with modern-day issues of racial justice. The narratives and letters of the New Testament emerged from a particular set of historical contexts that differ from today’s, but they resonate with us because of how the issues they raise “rhyme” with subjects of contemporary relevance. Listening for these echoes of the present in the past, Love Sechrest utilizes her cultural experience and her perspective as a Black woman scholar to reassess passages in the New Testament that deal with intergroup conflict, ethnoracial tension, and power dynamics between dominant and minoritized groups. After providing an overview of womanist biblical interpretation and related terminology, Sechrest utilizes an approach she calls “associative hermeneutics” to place select New Testament texts in dialogue with modern-day issues of racial justice. Topics include: antiracist allyship and Jesus’s interaction with marginalized individuals in the Gospel of Matthew cultural assimilation and Jesus’s teachings about family and acceptance in the Gospel of Luke gendered stereotypes and the story of the Samaritan woman in the Gospel of John the experience of Black women and girls in the American criminal justice system and the woman accused of adultery in the Gospel of John group identity and the incorporation of Gentiles into the early Jesus movement in Acts privilege and Paul’s claims to apostolic authority in 2 Corinthians coalition-building between diverse groups and the discussion of unity in Ephesians government’s role in providing social welfare and early Christians’ relationship to the Roman Empire in Romans and Revelation Through these creative and illuminating connections, Sechrest offers a rich bounty of new insights from Scripture—drawing out matters of justice and human dignity that spoke to early Christians and can speak still to Christians willing to listen today.

*Tertullian the African* David E. Wilhite,2011-06-24 Who was Tertullian, and what can we know about him? This work explores his social identities, focusing on his North African milieu. Theories from the discipline of social/cultural anthropology, including kinship, class and ethnicity, are accommodated and applied to selections of Tertullian’s writings. In light of postcolonial concerns, this study utilizes the categories of Roman colonizers, indigenous Africans and new elites. The third category, new elites, is actually intended to destabilize the other two, denying any “essential” Roman or African identity. Thereafter, samples from Tertullian’s writings serve to illustrate comparisons of his own identities and the identities of his rhetorical opponents. The overall study finds Tertullian’s identities to be manifold, complex and discursive. Additionally, his writings are understood to reflect antagonism toward Romans, including Christian Romans (which is significant for his so-called Montanism), and Romanized Africans. While Tertullian accommodates much from Graeco-Roman literature, laws and customs, he nevertheless retains a strongly stated non-Roman-ness and an African-ity, which is highlighted in the present monograph.

Christ Identity Sergio Rosell Nebreda,2011-03-09 Sergio Rosell Nebreda focuses on how the Philippian Christ-followers received Paul's letter. The social, historical, literary, rhetorical, anthropological and theological elements are dealt with in order to understand the effect Paul wanted to achieve.The main thesis of the book is that the apostle Paul, who greatly suffered at Philippi, and writing from a prison, desires to affect the Philippians believers to acquire a Christ-orientation based on the values expressed in the Christ-hymn. Phlp 2, 5–11 forms the core of Paul's theological narrative that aims at constructing a sense of imitatio and conformatio in the Christ-following community. Paul uses a 'friendly' style in his letters in order to produce rapport and trust in the community, presenting himself as exemplum ad imitando, after that of Christ. It is because Paul so fully identifies with Christ's orientation in life that the apostle presents himself as a slave of Jesus Christ.In the midst of a society ill with the desire for honour and power, the Christ narrative stands as a radical call for an alternative life-style, based on the exercise of humility which seeks the interest of others rather than focusing on one's own needs and desires. Paul insists on the basis of the Christ-hymn that such a life-style reveals God's character and it is therefore a life rewarded. Through the use of Social Identity Theory this book evaluates how ancient people constructed their group identity in daily life and how through a seemingly inferior model (that of Christ's kenosis in 2, 5–11) the community receives a re-definition of values which are according to God's values, and who has the last word in history. Paul thus presents an alternative and viable way of life in the midst of a society he knows well.

**Tertullian's Aduersus Iudaeos** Geoffrey D. Dunn,2008 Geoffrey D. Dunn is the first scholar to use classical rhetoric as the interpretative tool for analyzing the question of the authorship of Aduersus Iudaeos. He argues that Tertullian structured this work according to the rules of classical rhetoric and employed arguments familiar to anyone with training in oratory
