Global Perspectives on Legal Challenges Posed by Ridesharing Companies

Zeynep Ayata, Işık Önay, 2020-09-28 This book examines how regulators and

policymakers from nine different countries have dealt with Uber, and initiates a legal dialogue between different jurisdictions that could potentially pave the way to a harmonized approach in regulating Uber. The case studies, conducted in Brazil, Germany, Italy, Mexico, Spain, South Africa, Turkey, the UK and the US reveal the case law and regulatory responses that have been adopted in various areas of law. Legal issues relevant to Uber include market regulation, labor law, civil liability, consumer protection, unfair competition and antitrust law. The book thus compares and contrasts the regulatory policy implications of the disruptive innovation created by Uber in the area of transport services. The book starts with a conceptual overview of the legal challenges posed by Uber and concludes with comparative findings based on the individual case studies. In addition to introducing academics and legal practitioners to the theoretical and practical legal problems they may encounter in connection with Uber, the book will especially appeal to policymakers, who can benefit from and compare the experiences of other jurisdictions.

Introduction to Turkish Law Tuğrul Ansay, Don Wallace Jr, 2011-04-07 Encompassing all the major fields of legal practice, Introduction to Turkish Law provides an essential understanding of the Turkish legal system, so that users can become familiar with law and legal processes in Turkey and pursue further research on specific Turkish legal matters. Twelve chapters, written by Turkish experts in their areas of specialty, focus on particular fields and provide also the Turkish equivalents of English terminology. The book covers the following topics: • sources of Turkish law; • constitutional law; • administrative law; • legal persons and business associations; • family and inheritance matters; • property; • obligations; • criminal law; and • the laws of civil and criminal procedure. The sixth edition reflects the continuing adaptation of Turkish law to international standards – especially in light of Turkey's hopes for membership in the European Union. These aspirations forced the Turkish lawmakers to modify some basic laws intensively or change them entirely. A short updated list of books and articles in English on Turkish law is appended.

International Commercial Agency and Distribution Agreements Cristelle

Albaric, Marianne Dickstein, 2017-03-06 In this enriched new edition of a proven, indispensable practical guide to the drafting and negotiating of agency, distribution, and franchising agreements, the contributors have all updated their country reports with recent cases and commentary and an abundance of new sample clauses and other practical features. In addition, four major jurisdictions – Brazil, England, Japan, and the United States – have been added, bringing the total number of country reports to nineteen. The first edition is well known among commercial law practitioners as the preeminent hands-on guide to drafting effective distribution agreements tailored specifically to countries in which foreign direct investment is a major component of the economy. Local experts provide detailed information on specific applicable law, major current case law, drafting guidance with specific clauses, and official English versions of relevant primary material. Case law summaries clearly expose the issues from which disputes arise, – and the financial consequences of those disputes – and the practical discussion includes sample clauses designed to anticipate those issues and avoid the pitfalls to which they often lead. The enormous day-to-day usefulness of this book will be self-evident to corporate counsel and other lawyers negotiating international commercial distribution agreements. Legal scholars as well will welcome the book's comparative study of applicable law on commercial contracts in a wide variety of national jurisdictions.

A Treatise of Legal Philosophy and General Jurisprudence Damiano Canale, Paolo Grossi, Hasso Hofmann, Patrick Riley, 2009-08-11 TO VOLUMES 9 AND 10 OF THE TREATISE I am happy to present here the third batch of volumes for the Treatise project: This is the batch consisting of Volumes 9 and 10, namely, *A History of the Philosophy of Law in the Civil Law World, 1600–1900*, edited by Damiano Canale, Paolo Grossi, and Hasso Hofmann, and *The Philosophers' Philosophy of Law from the Seventeenth Century to Our Days*, by Patrick Riley. Three volumes will follow: Two are devoted to the philosophy of law in the 20th century, and the third one will be the index for the entire Treatise, which will therefore ultimately comprise thirteen volumes. This Volume 9 runs parallel to Volume 8, *A History of the Philosophy of Law in the Common Law World, 1600–1900*, by Michael Lobban, published in 2007. Volume 10, for its part, takes up where Volume 6 left off: which appeared under the title *A History of the Philosophy of Law from the Ancient Greeks to the Scholastics* (edited by Fred Miller Jr. in association with Carrie-Ann Biondi, likewise published in 2007), and which is mainly a history of the philosophers' philosophy of law (let us refer to this philosophy as A).

Citizenship in Transition Francis Owttram, Annemarie Profanter, 2014-07-18 The revolutions and protests arising from the Arab Spring, combined with the establishment of the Islamic State in Syria and Iraq, challenged dominant ideas about what people in the Middle East expect from their governments. At the same time, a new wave of migration has been created, once again showing how the local, regional and global are connected in the identity of citizens and concepts of citizenship. This turmoil and its human cost –tragically captured in the image of drowned toddler Aylan Kurdi–have called into

question prevailing modes of thinking about the Middle East, as well as the policy of EU governments towards refugees and immigration. These seismic events have compounded underlying changes in the internal composition of contemporary liberal democracies, which, together with the challenges imposed by globalization on the state, are demanding a rethink of theories of citizenship, particularly in a transnational sense. By bringing together new perspectives on these critical issues, this timely and thought-provoking book deconstructs the processes that are shaping and reshaping debates on migration and integration in Europe, and illuminates emerging patterns in key areas such as citizenship and cultural identity, education, and second generation networks. Introduction: Celebrating Difference: In Search of Paradigms Addressing Barriers to Transnational Migration – Annemarie Profanter and Francis Owtram Chapter One: The Impact of the Arab Spring on Issues of MENA: Europe Migration in the Context of Globalization – Kristian Coates Ulrichsen Chapter Two: Modernity and Islamic Immigration: Examining the Historical Roots of Identity and Difference – Nigel M. Greaves Chapter Three: The Burgeoning of Transnationalism: Narrowing the Transitional Gap from Emigrant to Citizen – Annemarie Profanter Chapter Four: Citizenship and Education: Economic Competitiveness, Social Cohesion and Human Rights – Christine Difato Chapter Five: Acquiring and Losing Turkish Citizenship under the New Turkish Citizenship Act – Necla Ozturk Chapter Six: Xenophobia, Alienation, Heterotopias and Cultural Limits: Fictional Boundaries of the Athens Pakistani and Afghani Communities – Sotirios S. Livas Chapter Seven: Arab Diasporas in the UK: Yemeni Citizenship still in Transition? – Khawlah Ahmed Chapter Eight: Muslim Society Trondheim: The Dialectics of Islamic Doctrine, Integration Policy and Institutional Practices – Ulrika Mårtensson Chapter Nine: Yalla, Lombards! Second Generations in Lombardy: Looking for a Model – Francesco Mazzucotelli

Advocating for Human Rights Claudio Grossman, Claudia Martin, Diego Rodríguez-Pinzón, 2008-07-25 Moot Court competitions constitute an alternative model of human rights training, giving students the skills to contribute to the development of international human rights law and thus make them qualified advocates for human rights change in their home countries and abroad. By focusing on the perfection of oral as well as written skills, participants are more likely to be successful not only in cases brought

before their home courts, but in front of international tribunals and other organs. Such competitions have opened the doorway for more human rights classes in law schools, more clinical training programs, more NGOs dedicated to human rights law, and overall more lawyers dedicated to participating in an expanded notion of a human rights community. As demonstrated in this volume, moot court competitions have revolutionized human rights legal education in Africa, Europe and the Americas.
