TV Socialism Anikó Imre, 2016-06-03 In TV Socialism, Anikó Imre provides an innovative history of television in socialist Europe during and after the Cold War. Rather than uniform propaganda programming, Imre finds rich evidence of hybrid aesthetic and economic practices, including frequent exchanges within the region and with Western media, a steady production of varied genre entertainment, elements of European public service broadcasting, and transcultural, multi-lingual reception practices. These televisual practices challenge conventional understandings of culture under socialism, divisions between East and West, and the divide between socialism and postsocialism. Taking a broad regional perspective encompassing Eastern Europe and the Soviet Union, Imre foregrounds continuities between socialist television and the region's shared imperial histories, including the programming trends, distribution patterns, and reception practices that extended into postsocialism. Television, she argues, is key to understanding European socialist cultures and to making sense of developments after the end of the Cold War and the enduring global legacy of socialism.

The Hungarian Girl Trap Ray Dexter, 2006-07-01 Boy meets girl. Boy is English, girl Hungarian: boy has a good job at a very well-known boarding school in England; girl is an au pair who wants to get back to Hungary as soon as possible. Boy discovers he knows a man who is running an International school in Hungary and he is desperate for boy to work for him. Boy decides you can't fight that sort of coincidence, chucks in the good job

at the well-known boarding school and follows the girl to Budapest ... This is a book about real life in one of Europe's most fascinating cities. Ray Dexter shows us deep inside the Hungarian soul and also inside the minds of the expats who have also ended up in the Hungarian Girl Trap--P. [4] of cover.

Towards Openly Multilingual Policies and Practices Johanna Laakso,Anneli Sarhima,Sia Spiliopoulou Åkermark,Reetta Toivanen,2016-03-03 This book investigates the maintenance of multilingualism and minority languages in 12 different minority communities across Europe, all of which are underrepresented in international minority language studies. The book presents a number of case studies covering a broad range of highly diverse minorities and languages with different historical and socio-political backgrounds. Despite current legislation and institutional and educational support, the authors surmise there is no guarantee for the maintenance of minority languages, suggesting changes in attitudes and language ideologies are the key to promoting true multilingualism. The book also introduces a new tool, the European Language Vitality Barometer, for assessing the maintenance of minority languages on the basis of survey data. The book is based on the European Language Diversity for All (ELDIA) research project which was funded by the European Commission (7th framework programme, 2010–2013).

International Industrial Networks and Industrial Restructuring in Central and Eastern Europe S. Radošević,Bert M. Sadowski,2004-08-03 International Industrial Networks and Industrial Restructuring in Central and Eastern Europe analyses the role of international industrial networks in industrial restructuring and corporate growth in central Europe, Russia and Ukraine. It shows that two distinct patterns of international industrial integration - domestic vs. foreign led modernisations - have developed in these two regions which have significant effects on patterns of growth and integration of these economies. International Industrial Networks and Industrial Restructuring in Central and Eastern Europe is based on a number of industry and firm case studies which are analysed and interpreted within the current international business and political economy literature. The publication provides valuable insights to managers and policy-makers who are interested in understanding different strategic options for business activity in Central and East European countries. For the academic reader, it offers a new perspective on international, industrial networks in which theories on strategic management and on industry restructuring and corporate growth are merged into a new view of growth and transformation process.

Global Politics Anthony G. McGrew,Paul Lewis,2013-05-02 This innovative new text is derived from a highly successful Open University course of the same title. It takes as a dominant theme the contested issue of 'globalization' (the apparent intensification of global patterns of inter-dependence) and its implications for the autonomy of the modern nation-state. Following a conceptual introduction, which critically examines the theoretical debates framing the study of world politics, the work is structured around four key processes of globalization which the authors identify as being the central determinants of contemporary global politics. These key processes are: the global impact of great power relations; the globalizing tendencies of technological innovation; the existence of a global economy; and the

globalizing force of modernity. Reflecting this structure the text is organized into four discrete sections. Each section explores, both theoretically and empirically, one of the four processes of globalization. Throughout, particular attention is paid both to a critical evaluation of these globalizing processes as well as to their consequences for the sovereignty and autonomy of the modern nation-state. Moreover, the authors combine a lucid treatment of theoretical debates with topical case-study material to produce a text which is extremely accessible to undergraduate students studying international relations and politics and to those readers with little prior knowledge of world affairs.

Hungarian Language Contact Outside Hungary Anna Fenyvesi,2005-01-01 In Communist times, it was impossible to do sociolinguistic work on Hungarian in contact with other languages. In the short period of time since the collapse of the Soviet bloc, Hungarian sociolinguists have certainly done their very best to catch up. This volume brings together the fruits of their work, some of which was hitherto only available in Hungarian. The reader will find a wealth of information on many bilingual communities involving Hungarian as a minority language. The communities covered in the book are located in countries neighboring Hungary (Austria, Serbia, Slovakia, Slovenia, Romania and Ukraine) as well as overseas (in Australia and the United States). Several of the chapters discuss material derived from the Sociolinguistics of Hungarian Outside Hungary project. Throughout the book, the emphasis is on how the language use of Hungarian minority speakers has been influenced by the majority or contact language, both on a sociolinguistic macro-level as well as on the micro-level. In the search for explanations, particular attention is given to typological aspects of language change under the conditions of language contact.

Unequal Accommodation of Minority Rights Tamás Kiss,István Gergő Székely,Tibor Toró,Nándor Bárdi,István Horváth,2018-05-31 This book provides an in-depth multidisciplinary analysis of the major social and political processes affecting Hungarians in Romania after the overthrow of the Communist regime in 1989. The volume highlights the interdependence between the ethno-political strategies of minority elites and Romania's minority policy regime on the one hand, and social processes such as ethnic boundary making and ethnic stratification on the other. The chapters combine perspectives from a variety of disciplines including political science and the sociology of ethnic relations, supported by the findings of a broad array of empirical investigations carried out in Transylvania. It will therefore be of particular interest to scholars and students with a focus on minority politics, ethnic mobilization and nationalism, as well as researchers of ethnic relations, ethnic boundary making, social distances and ethnic inequalities.

The Hungarians Paul Lendvai,2021-03-02 An updated new edition of a classic

history of the Hungarians from their earliest origins to today In this absorbing and comprehensive history, Paul Lendvai tells the fascinating story of how the Hungarians, despite a string of catastrophes and their linguistic and cultural isolation, have survived as a nation for more than one thousand years. Now with a new preface and a new chapter that brings the narrative up to the present, the book describes the evolution of Hungarian politics, culture, economics, and identity since the Magyars first arrived in the Carpathian Basin in 896. Through colorful anecdotes of heroes and traitors, victors and victims, revolutionaries and tyrants, Lendvai chronicles the way progressivism and economic modernization have competed with intolerance and narrow-minded nationalism. An unforgettable blend of skilled storytelling and scholarship, *The Hungarians* is an authoritative account of this enigmatic and important nation.

Turbulent Sounds Susanne Fuchs, Martine Toda, Marzena Żygis, 2010 This series consists of collected volumes and monographs about specific issues dealing with interfaces among the subcomponents of linguistic structure: phonology-morphology, phonology-syntax, syntax-semantics, syntax-morphology, and syntax-lexicon. Recent linguistic research has recognized that the subcomponents of grammar interact in non-trivial ways. What is currently under debate is the actual range of such interactions and their most appropriate representation in grammar, and this is precisely the focus of this series. Specifically, it provides a general overview of various topics by examining them through the interaction of grammatical components. The books function as a state-of-the-art report of research.

Democracy Delayed Juan J. López, 2003-05-22 With the dissolution of the Soviet Union, foreign policy analysts and international relations scholars expected communist Cuba to undergo transitions to democracy and to markets as had the Eastern European nations of the former Soviet bloc. But more than a decade after the fall of the Berlin Wall, Castro remains in power, with no sign that the Cuban government or economy is moving toward liberalization. In *Democracy Delayed*, political scientist Juan López offers a searching and detailed analysis of the factors behind Cuba's failure to liberalize. López begins by comparing the political systems of three Eastern European states—the former German Democratic Republic, Czechoslovakia, and Romania—with that of Cuba, in order to identify the differences that have allowed Castro to maintain his hold over the government and the economy. López also shows the various conditions promoting change, including the development of civil society groups in Cuba, and discusses why some U.S. policies help the possibility of democratization in Cuba while others hinder it. While the Catholic Church in Poland and the Protestant Church in East Germany fostered change, the Catholic Church in Cuba has not taken a defiant stance against authoritarianism but seems instead to be biding its time until Castro is out of the picture. In conclusion, López argues that a political transition in Cuba is possible even under the government of Fidel Castro. Some necessary conditions have been missing, but it is possible that U.S. policies could lay the groundwork for democratic change.

The Intriguing Life and Ignominious Death of Maurice Benyovszky Andrew Drummond, 2017-08-10 Published in 1790, Maurice Benyovszky's posthumous memoir was an instant sensation. A tale of exploration and adventure beginning with his daring escape from a Siberian prison and ending with his coronation as

King of Madagascar, it was translated into several languages and adapted for the theatre and opera. This book explores the veracity of this memoir and, more broadly, the challenges faced by the explorers of the age and the brutality of colonisation. The self-styled Hungarian Baron Maurice Auguste Aladar Benyovszky, Counsellor to the Duke of Saxony and Colonel in the service of the Queen of Hungary, was in fact only confirmed to have been an officer in a regiment of the Polish Confederation of Bar. While he did escape from Russian captors and subsequently travel to Japan, Formosa, China and Madagascar, many of his exploits were wildly exaggerated or simply invented. Andrew Drummond reveals an alternative picture of events by looking at statements from Benyovszky's travelling companions and sceptical officials as well as contemporary documents from the places he claimed to have visited, untangling the truth behind his stories and examining what these stories can nonetheless tell us about the era in which Benyovszky lived. Witty and engagingly written, this book is fascinating reading for anyone interested in eighteenth-century colonial history and the story of early European and Russian explorers.
