**A Finer Future** L. Hunter Lovins,Stewart Wallis,Anders Wijkman,John Fullerton,2018-10-09 The blueprint for an inspiring regenerative economy that avoids collapse and works for people and the planet. Humanity is in a race with catastrophe. Is the future one of global warming, 65 million migrants fleeing failed states, soaring inequality, and grid-locked politics? Or one of empowered entrepreneurs and innovators building a world that works for everyone? While the specter of collapse looms large, A Finer Future demonstrates that humanity has a chance - just - to thread the needle of sustainability and build a regenerative economy thorough a powerful combination of enlightened entrepreneurialism, technology, and innovative policy. The authors - world leaders in business, economics, and sustainability - gather the evidence, outline the principles of a regenerative economy, and detail a policy roadmap to achieving it, including: Transforming finance and corporations Reimagining energy, agriculture, and the nature of how we work Enhancing human well-being Delivering a world that respects ecosystems and human community. Charting the course to a regenerative economy is the most important work facing humanity and A Finer Future provides the essential blueprint for business leaders, entrepreneurs, environmentalists, politicians, policymakers, and others working to create a world that works for people and the planet.

**Southeast Asian Personalities of Chinese Descent** Leo Suryadinata,2012 This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business, including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have, in one way or another, made their homes in, or made some difference to, Southeast Asia. I believe that, when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service. - Professor Wang Gungwu, National University of Singapore
