Lexie Nicholas

Hurricanes Paul V. Kislow, 2008 A hurricane is a tropical storm with winds that have reached a constant speed of 74 miles per hour or more. Hurricane winds blow in a large spiral around a relative calm centre known as the eye. The eye is generally 20 to 30 miles wide, and the storm may extend outward 400 miles. As a hurricane approaches, the skies will begin to darken and winds will grow in strength. As a hurricane nears land, it can bring torrential rains, high winds, and storm surges. A single hurricane can last for more than 2 weeks over open waters and can run a path across the entire length of the eastern seaboard. August and September are peak months during the hurricane season that lasts from 1 June to 30 November. This book presents the facts and history of hurricanes.

Hurricane Wolf Diane Paterson, 2006 Hurricane Anna is coming! Noah and his family are getting ready for the storm. First they board up the windows, then they get supplies for the house, like extra food and batteries. When the storm comes, it howls like a wolf.

The Great Bahamas Hurricane of 1866 Wayne Neely, 2011-04 In October 1866, a powerful Category 4 hurricane struck the Bahamian Islands. With winds well over 140 miles per hour and even higher gusts that toppled trees, sank ships, peeled away rooftops, and destroyed vital infrastructures, the massive storm battered the islands with great ferocity. When the seas finally calmed and the winds died down, the massive storm had killed more than 387 people in the Bahamas alone and left a massive trail of destruction. Author Wayne Neely, a leading authority on Bahamian and Caribbean hurricanes, shares an engaging account of how the hurricane of 1866 not only devastated the islands, but also altered the course of Bahamian history forever. While demonstrating how the hurricane significantly impacted the wrecking and salvaging industry, Neely also educates others about the complex set of weather conditions that contribute to hurricanes. He includes fascinating stories of survival and heroism as the storm's victims struggled to move forward in the midst of tragedy. Hurricanes are no novelty to the Bahamas, but all who were lucky enough to live through the howling winds and the terror of a sky filled with flying debris surely never forgot The Great Bahamas Hurricane of 1866.

Hurricane Charley, 2004 Captioned photographs tell the story of the destruction left by Hurricane Charley.

Changes in the Air Eleonora Rohland, 2018-10-19 Hurricanes have been a constant in the history of New Orleans. Since before its settlement as a French colony in the eighteenth century, the land entwined between Lake Pontchartrain and the Mississippi River has been lashed by powerful Gulf storms. Time and again, these hurricanes have wrought immeasurable loss and devastation, spurring reinvention and ingenuity on the part of inhabitants. *Changes in the Air* offers a rich and thoroughly researched history of how hurricanes have shaped and reshaped New Orleans from the colonial era to the present day, focusing on how its residents have adapted to a uniquely unpredictable and destructive environment across more than three centuries.

Hurricane Philip Wolny, 2007-01-15 Describes the devastation of various hurricanes and how people survived them.

The Homeowner's Hurricane Handbook Bob Stearns, 2009-07-01 With chapters such as Nature of the Beast, to What To Expect In The Aftermath, the Hurricane Preparedness Handbook is a how-to guide for dealing with hurricanes before, during, and after—including understanding how where and when these powerful storms form, protecting yourself and your property, and how to deal with the repercussions.

The Whirlwind World of Hurricanes with Max Axiom, Super Scientist Katherine Krohn, 2011 In graphic novel format, follows the fictional adventures of Max Axiom as he explores the science and history behind hurricanes.

Southeast Hurricane Disaster, Hearings ... 89-1, on H.R. 11539, and Similar Bills, October 13, 1965 United States. Congress. House. Public Works, 1965

Hurricane Harry Kathryn Lay,2010 Presents information about hurricanes, using a narrative in which, after Wendy's essay about the 1900 Galveston hurricane wins a contest, she and her friends receive a trip to the city just as it is being threatened by Hurricane Harry.

Carolina Hurricane Marian Rumsey,1977 Lost in a crab boat in the middle of a South Carolina salt marsh, twelve-year-old Morgan endures the full brunt of a hurricane.

Hurricane Laura Taylor,2019-06 Lieutenant Azure Lynwood's latest mission with the Space Corps is turning into a complete disaster. A routine inspection of a remote outpost on Titan unexpectedly turns into a murder investigation. Then a blizzard hits, trapping the five crew members in the tiny base, cut off from any contact with civilisation. And now, without access to his supply of hormonal suppressants, Azure realises he has only a couple of hours until he goes into heat. Without medical assistance, omegas in heat experience twelve hours of the worst pain imaginable. The thought of what he has to endure is terrifying, but Azure knows that being mated wouldn't necessarily be any better. Alphas in rut are notoriously violent and aggressive, and matings invariably leave omegas with brutal injuries and emotional scars that can last a lifetime. But just when Azure thinks his situation can't get any worse, he finds out one last, staggering piece of news. Major Tor Savan, his commanding officer, and one of the most respected men in the Space Corps, is an alpha. And once he gets a whiff of Azure's heat pheromones, there isn't a force in the entire galaxy that could keep them apart.

Inspired by the 6th International Summit on Hurricanes and Climate Change: From Hazard to Impact, this book brings together leading international academics and researchers, and provides a source reference for both risk managers and climate scientists for research on the interface between tropical cyclones, climate and risk.

Hurricane Beach Lexie Nicholas,2020-12-31 Can a hurricane threatening the Georgia coast reunite the once high school sweethearts? With her disgruntled teenage daughter in tow, Anna, a recently divorced paramedic, returns to Magnolia Hill to heal and to prove to herself she is capable of providing for them on her own. Soon her old small-town life she had left behind catches up with her-but not all in a good way. Only by facing her fears and the people who've told her she's not worthy can she make room in her heart to love again. Two years after a car accident that claimed his wife, Chief Meteorologist Jason Morrison is still grieving. However, when he collides with Anna at a community event, memories of his senior year resurface, and he can't get her out of his mind. He invites her to tag along on an opportunity of a lifetime-to cover Hurricane Gerard's landfall at Tybee Island-just as friends. Nothing ever goes as planned, though. Spending time together

rekindles the familiar feelings they had for each other when they dated in high school nearly two decades ago. But they can't be together. Too much has changed. He's made a sacred promise. She has to learn to trust again. Will they find a way? If you enjoy clean romances with charming characters and a small-town feel, stories about second chances, and the excitement of stormy weather, then you'll love Lexie Nicholas's debut novel.
