Focus On: 100 Most Popular 20Th-century American Politicians Wikipedia contributors,

China Airborne James Fallows,2012-05-15 More than two-thirds of the new airports under construction today are being built in China. Chinese airlines expect to triple their fleet size over the next decade and will account for the fastest-growing market for Boeing and Airbus. But the Chinese are determined to be more than customers. In 2011, China announced its Twelfth Five-Year Plan, which included the commitment to spend a quarter of a trillion dollars to jump-start its aerospace industry. Its goal is to produce the Boeings and Airbuses of the future. Toward that end, it acquired two American companies: Cirrus Aviation, maker of the world's most popular small propeller plane, and Teledyne Continental, which produces the engines for Cirrus and other small aircraft. In *China Airborne*, James Fallows documents, for the first time, the extraordinary scale of this project and explains why it is a crucial test case for China's hopes for modernization and innovation in other industries. He makes clear how it stands to catalyze the nation's hyper-growth and hyper-urbanization, revolutionizing China in ways analogous to the building of America's transcontinental railroad in the nineteenth century. Fallows chronicles life in the city of Xi'an, home to more than 250,000 aerospace engineers and assembly workers, and introduces us to some of the hucksters, visionaries, entrepreneurs, and dreamers who seek to benefit from China's pursuit of aerospace supremacy. He concludes by examining what this latest demonstration of Chinese ambition means for the United States and the rest of the world—and the right ways to understand it.

Richistan Robert Frank,2008-06-24 THE NEW YORK TIMES BESTSELLER RICH-I-STAN n. 1. a new country located in the heart of America, populated entirely by millionaires, most of whom acquired their wealth during the new Gilded Age of the past twenty years. 2. a country with a population larger than Belgium and Denmark; typical citizens include "spud king" J. R. Simplot; hair stylist Sydell Miller, the new star of Palm Beach; and assorted oddball entrepreneurs. 3. A country that with a little luck and pluck, you, too, could be a citizen of. The rich have always been different from you and me, but Robert Frank's revealing and funny journey through "Richistan" entertainingly shows that they are truly another breed.

Socialism, Capitalism and Alternatives Peter J. S. Duncan,Elisabeth Schimpfössl,2019-10-14 In 1989 the Berlin Wall came down. Two years later the Soviet Union disintegrated. The collapse of communism in Eastern Europe and the Soviet Union discredited the idea of socialism for generations to come. It was seen as representing the final and irreversible victory of capitalism. This triumphal dominance was barely challenged until the 2008 financial crisis threw the Western world into a state of turmoil. Through analysis of post-socialist Russia and Central and Eastern Europe, as well as of the United Kingdom, China and the United States, *Socialism, Capitalism and Alternatives* confronts the difficulty we face in articulating alternatives to capitalism, socialism and threatening populist regimes. Beginning with accounts of the impact of capitalism on countries left behind by the planned economies, the volume moves on to consider how China has become a beacon of dynamic economic growth, aggressively expanding its global influence. The final section of the volume poses alternatives to the ideological dominance of neoliberalism in the West. Since the 2008 financial crisis, demands for social change have erupted across the world. Exposing the failure of neoliberalism in the United Kingdom and examining recent social movements in Europe and the United States, the closing chapters identify how elements of past ideas are re-emerging, among them Keynesianism and radical socialism. As those chapters indicate, these ideas might well have potential to mobilise support and challenge the dominance of neoliberalism.

A Guide to the Top 100 Companies in China Wenxian Zhang,Ilan Alon,2010 Chinese-English company name index -- Company-industry index -- Industry-company index -- Introduction -- A guide to the top 100 companies in China -- List of abbreviations -- List of contributors -- About the editors.

American Hegemony after the Great Recession Brandon Tozzo,2017-10-17 This book traces America's rise as a hegemon of the capitalist system, arguing that the greatest threat to global economic stability is America's polarized and ineffectual political system rather than foreign competition from China and the European Union. The author points to China's considerable demographic problem, which will likely undermine its economic potential. Furthermore, the sovereign debt crisis in Europe – which has left the continent politically fragmented by an institutional malaise – is evidence of the United States' continued status as the world's most successful nation. Tozzo posits that, due to factors such as its initial response to the financial crisis, the near failure of its banking system, the catastrophe of the debt ceiling crisis, and the election of Donald Trump as president, the greatest threat to American hegemony is America itself.

Income Distribution in Less Developed Countries R. M. Sundrum,2003-08-29 This is a major book in a key area of development economics. It gives a comprehensive survey of the link between income distribution and the growth of national income, bringing out major patterns and trends, and concluding that there is still considerable scope for growth with equity in LDCs.

Mangrove Ecosystems: A Global Biogeographic Perspective Victor H. Rivera-Monroy,Shing Yip Lee,Erik Kristensen,Robert R. Twilley,2017-11-03 This book presents a comprehensive overview and analysis of mangrove ecological processes, structure, and function at the local, biogeographic, and global scales and how these properties interact to provide key ecosystem services to society. The analysis is based on an international collaborative effort that focuses on regions and countries holding the largest mangrove resources and encompasses the major biogeographic and socio-economic settings of mangrove distribution. Given the economic and ecological importance of mangrove wetlands at the global scale, the chapters aim to integrate ecological and socio-economic perspectives on mangrove function and management using a system-level hierarchical analysis framework. The book explores the nexus between mangrove ecology and the capacity for ecosystem services, with an emphasis on thresholds, multiple stressors, and local conditions that determine this capacity. The interdisciplinary approach and illustrative study cases included in the book will provide valuable resources in data, information, and knowledge about the current status of one of the most productive coastal ecosystem in the world.

The Hero's Farewell Jeffrey Sonnenfeld,1991-02-07 How a business replaces its chief executive often determines that firm's future. If a business does not effectively manage the transfer of power, utter turmoil can result, with profound implications not only for the CEO, but also for the other employees, the shareholders, and the community at large. Filled with inside stories from corporate boardrooms and fresh conceptual perspectives, *The Hero's Farewell* describes in rich detail the factors that affect executive succession. Jeffrey Sonnenfeld offers the first close examination of the critical role a CEO's departure style plays in

helping, or hindering, the transfer of power. Through candid interviews with fifty prominent retired chief executives from corporations such as AT&T, Ford, Dupont, United Technologies, and Raytheon (David Rockefeller of Chase Manhattan and Thomas J. Watson, Jr. of IBM among them) and a survey of an additional three hundred top managers, Sonnenfeld identifies the four major types of leadership departure styles. These types include Monarchs, who choose not to leave voluntarily but either die in office or are overthrown; Generals, who leave reluctantly and spend their retirement planning a comeback; Ambassadors, who retain close ties with their former firms; and Governors, who willingly serve a limited time and leave to pursue new interests. Capturing the human drama of these departures and succession battles, *The Hero's Farewell* will fascinate anyone intrigued by power struggles in large corporations. Outlining ways to smooth out the inevitable transfers of power that corporations must face, Sonnenfeld presents essential information for all top executives and especially for CEOs.

Achieving Excellence Through Customer Service John Tschohl, 1996 Promotes the theory that superior customer service leads to a superior business organisation

As China Goes, So Goes the World Karl Gerth, 2010-11-09 In this revelatory examination of the most overlooked force that is changing the face of China, the Oxford historian and scholar of modern Asia Karl Gerth shows that as the Chinese consumer goes, so goes the world. While Americans and Europeans have become increasingly worried about China's competition for manufacturing jobs and energy resources, they have overlooked an even bigger story: China's rapid development of an American-style consumer culture, which is revolutionizing the lives of hundreds of millions of Chinese and has the potential to reshape the world. This change is already well under way. China has become the world's largest consumer of everything from automobiles to beer and has begun to adopt such consumer habits as living in large single-occupancy homes, shopping in gigantic malls, and eating meat-based diets served in fast-food outlets. Even rural Chinese, long the laggards of consumerism, have been buying refrigerators, televisions, mobile phones, and larger houses in unprecedented numbers. *As China Goes, So Goes the World* reveals why we should all care about the everyday choices made by ordinary Chinese. Taken together, these seemingly small changes are deeper and more profound than the headline-grabbing stories on military budgets, carbon emissions, or trade disputes.

Market in State Yongnian Zheng, Yanjie Huang, 2018-09-06 Uses the framework of 'market in state', to argue that the Chinese economy is state-centered, dominated by political principles over economic principles.

Luxury Brands in China and India Glyn Atwal, Douglas Bryson, 2017-06-27 This book provides an analysis of the luxury industry in two of the world's biggest and evolving markets, and identifies and discusses the key issues and dynamics in transforming their luxury landscapes. By discussing the elements that are most likely to dominate boardroom agendas, the pragmatic implications for both strategic and marketing planning are made clear. Special emphasis is placed upon well-contemplated responses to luxury brand marketing challenges that executives are likely to face as they push their brands to adapt and thrive in these shifting markets.

Firing Back Jeffrey A. Sonnenfeld, Andrew Ward, 2007-01-01 Sonnenfeld and Ward show how to rise Phoenix-like from the ashes. Their account of the psychological and behavioral foundations of that important quality resilience is important reading for everyone who will ever face a reversal of fortune. Jeffrey Pfeffer, Thomas D. Dee II Professor of Organizational Behavior, Graduate School of Business, Stanford University Is it possible to rescue your career and restore your reputation after a major professional setback? In an age rife with press accounts of disgraced CEOs, politicians, and celebrities as well as courageous but beleaguered whistleblowers and victims of rivals or envious colleagues and bosses this question has grown more important than ever. In *Firing Back*, Jeffrey Sonnenfeld and Andrew Ward answer the question with a resounding Yes. They go on to lay out a practical and an important five-step process for actually recovering from setbacks. Following these steps will help guide you through the difficult circumstances, rebuild your reputation, and chart a new future. The authors also explore strategies for surmounting common barriers to career recovery, including tricky corporate cultures and psychological stresses. Anchored in decades of research and scholarly studies across multiple fields, this book is packed with engrossing stories and first-hand accounts from humbled but restored CEOs and executives from firms as diverse as General Electric, The Home Depot, Morgan Stanley, Apple, Staples, and Hewlett-Packard. *Firing Back* offers a clear plan for anyone who needs to recover from a career setback and reclaim lost prestige and reputation whether the setback stemmed from his own actions or forces outside her control.

Varieties of Post-communist Capitalism Iván Széleányi, Péter Mihályi, 2019-11-26 This book intends to be a contribution to the varieties of capitalism paradigm. Our main question is to what extent the present system in Russia, the model of President Putin is a generic model for all post-communist capitalisms.

Pragmatic Philanthropy Ruth A. Shapiro, Manisha Mirchandani, Heesu Jang, 2018-01-10 This book is open access under a CC BY 4.0 license. This cutting edge text considers how Asian philanthropists and charitable organizations break with Western philanthropic traditions and examines the key traits and trends that make social investment in Asia unique. Based on 30 case studies of excellent social delivery organizations (SDOs) and social enterprises as well as interviews with ultra-high net-worth individuals throughout Asia, this book examines which characteristics and strategies lead to successful philanthropy and social delivery organizations.

Providing evidence based findings on philanthropy, social investment and social delivery organizations in Asia, this book provides invaluable resources for those wishing to deepen their understanding of the sector and what this means for political and economic development in the region.

The Routledge Handbook of Taxation and Philanthropy Henry Peter, Giedre Lideikyte Huber, 2021-12-24 The Routledge Handbook of Taxation and Philanthropy ventures into a territory that is still widely unexplored. It contains 30 academic contributions that aim to provide a better understanding of whether, why, and how philanthropic initiatives, understood as voluntary contributions for the common good, can and should be fostered by states through tax incentives. The topic has been addressed from a multidisciplinary and multicultural perspective – covering neuroeconomics, sociology, political science, psychology, affective sciences, philosophy, behavioral economy, and law – because of its global and multifaceted nature. It also contains the OECD report on Taxation and Philanthropy released in November 2020, which was prepared in this context as a result of a collaboration with the Geneva Centre for Philanthropy of the University of Geneva. The book is divided into four sections, exploring, respectively, the justification of tax incentives for philanthropy, theoretical and empirical insights about taxes, efficiency and donor behavior in that context, and tax incentives for cross-border philanthropy and for hybrid entities and social entrepreneurship. It is believed that this volume will be a landmark yet only the beginning of a journey in which a lot remains to be studied, learned, and said.

Global Private Banking and Wealth Management David Maude, 2010-02-09 Wealth management is one of the areas in which banks and other personal financial services players are investing heavily. But the market is changing fast. Going forward, players therefore need to adapt their strategies to the new realities: what worked in the past will not, for the most part, be appropriate in the future. This unique book, written by a former McKinsey consultant, offers an up-to-date, detailed, practical understanding of this exciting area of financial services.
