**Book 5: Learn @ Home Coaching Rugby Union Project** Bert Holcroft, 2019-05-17  
The Holcroft saga is a rugby story the like of which may never have been equaled in the history of the game. It begins over a century ago, when Mr. George Holcroft took charge of Leigh St. Peters RLFC in 1889. He married; and when his family grew, Jack, Harry, William, and Tom all played for local teams. They married, and George's grandsons Bert and Bill also played. Bert Holcroft has been a distinguished servant for the game of rugby all his life. He holds coaching certificates from both the Australian and British governing bodies—one of only a handful of men to achieve such an honor in the game's history. For twenty odd years, Bert Holcroft has had one of the unlikeliest jobs in sport—teaching Australian rugby coaches how to coach! Considering the Australian dominance in the World Rugby in recent years, that might seem par with taking coal to Newcastle. But make no mistake, Bert Holcroft has done as much as anyone to ensure Australia's reemergence as a major rugby power. On the face of it, Australia wouldn't seem to need any outside help, let alone from a Pom. Their record of only one test defeat since 1978 speaks for itself. But Bert's reputation is nationwide “down under”—quite simply, he's one of the best in the business. Bert, who played for Leigh between 1950-60, has spent much of his latter years Down Under, lecturing to top-grade coaches in New South Wales. Born and bred in Cameron Street, Leigh, Bert has few peers when it comes to teaching the basics of the 13, a side game. Since migrating in the late '60s, Bert has dedicated his life to coaching and fitness techniques. Teams in Queensland, New South Wales, and Sydney have all come under his influence—often with spectacular results. Bert's credentials are impeccable. Last summer, he achieved the highest accolade in Australia—his grade 3 certificate personally signed by the then Australian league chairman Kevin Humphreys and the director of coaching, Peter Corcoran. Three years earlier, Bert has sailed through his grade 1 and 2 with flying colors. In 1953, he was awarded his senior coaching certificate in England. Bert, who held a number of posts at Hilton Park before immigrating to Australia, has spent a lot of his time heavily involved with rugby in the universities there. He became director of coaching for the University of New South Wales and later coach of the Combined Universities side. He was awarded coaching accreditation by the Australian Institute of Sport, Department of Sport and Recreation, New South Wales, and the NSW Rugby League for administration, as well as national coaching certificates in both Britain and Australia—being one of only a handful of people to do so. Eventually, the offer of a job in Sydney came—to coach Premiership glamorous club, Eastern Suburbs.

Hard Men of Rugby Luke Upton, 2020-10-23 The gruesome stories of the hardest, most ruthless rugby players from around the world since World War I. As talented as they were fiery, many were just as lively off the pitch as on it. In our era of citing commissioners, super slow-motion replays and trial by social media, some of their actions are quite hard to believe! Foreword by Nigel Owens.

*How Language Shapes Relationships in Professional Sports Teams* Kieran File, 2022-10-06 While the topic of relationships in professional sports teams is gaining greater attention from researchers and practitioners, the role that coach and athlete language plays in shaping these relationships remains largely unexplored. This book addresses this gap by examining how every day, authentic language patterns used by coaches, captains and players shape relationships in a professional New Zealand rugby team. More specifically, through a discourse analysis of taken-for-granted ritual language practices in training sessions, team meetings and match-day interactions, the chapters of this book illustrate how coaches, captains and players shape particular interpersonal dynamics of power and solidarity between themselves in and through language and, in the process, reflect and reconstruct shared and underlying ideologies about how relationships of power and solidarity work in

their team. Offering an evidence-based discussion of the silent and pervasive ideologies that underpin how relationships work in professional sports teams, this book extends research on this important topic by providing largely missing illustrations of consequential interpersonal dynamics that actively shape professional relationships in sports teams. Written in an approachable style, this book offers linguists, social scientists and sports practitioners a frame of reference for greater understanding of how language directly shapes relationships of power and solidarity.

*Rugby Classics: Think Rugby* Jim Greenwood, 2015-04-23 Think Rugby and Total Rugby are rugby classics – two of the most important and influential books ever written on the game of rugby. Thousands of players and coaches around the globe have benefited from the concepts and methods in these books, equipping them with the coaching skills and strategy to play the very best in fifteen-a-side rugby. Think Rugby is a systems book that gets both coach and player working more productively: – the coach, through a wealth of practical advice on keeping sessions fresh and purposeful – the player, through tried and tested methods of improving tactical decision-making to enhance whole-team possession – the team, through focusing on dynamic attack in the forwards and effective positioning in the backs. Written by one of Rugby Union's most respected coaches, Think Rugby is a classic manual, which continues to influence coaching strategy the world over.

**The Research Process in Sport, Exercise and Health** Rich Neil, Sheldon Hanton, Scott Fleming, Kylie Wilson, 2013-12-04 What are the challenges and potential pitfalls of real research? What decision-making process is followed by successful researchers? The Research Process in Sport, Exercise and Health fills an important gap in the research methods literature. Conventional research methods textbooks focus on theory and descriptions of hypothetical techniques, while the peer-reviewed research literature is mainly concerned with discussion of data and the significance of results. In this book, a team of successful researchers from across the full range of sub-disciplines in sport, exercise and health discuss real pieces of research, describing the processes they went through, the decisions that they made, the problems they encountered and the things they would have done differently. As a result, the book goes further than any other in bringing the research process to life, helping students identify potential issues and problems with their own research right at the beginning of the process. The book covers the whole span of the research process, including: identifying the research problem justifying the research question choosing an appropriate method data collection and analysis identifying a study's contribution to knowledge and/or applied practice disseminating results. Featuring real-world studies from sport psychology, biomechanics, sports coaching, ethics in sport, sports marketing, health studies, sport sociology, performance analysis, and strength and conditioning, the book is an essential companion for research methods courses or dissertations on any sport or exercise degree programme.

Including coverage of exercise in extreme environments and applications of physical activity for health, this will be the only exercise physiology textbook you will need!
