A Really Good Day Ayelet Waldman,2017 In an effort to treat a debilitating mood disorder, Ayelet Waldman undertook a very private experiment, ingesting 10 micrograms of LSD every three days for a month. *This 'n That* Bette Davis,2017-04-04 Originally published in 1987, a collection of anecdotes as well as opinions pro and con on a wide range of subjects by legendary actress Bette Davis--now in ebook for the first time! A woman of strong appetites and opinions, Bette Davis minces no words. In frank, no nonsense

terms she talks about the stroke that nearly killed her, and inspires us with the story of her subsequent recovery from cancer--a lively and encouraging account shot through with the star's unique blend of spunk and wit. Davis was famous for being as unsparing of herself as she was of others. Among the others of this book are President Ronald Reagan, who was a contract player at Warner Bros. when she was; Joan Crawford, her costar in *What Ever Happened to Baby Jane?*; Humphrey Bogart; Marilyn Monroe; Elizabeth Taylor; and Helen Hayes, Bette's costar in her first film after her illness, *Murder with Mirrors*. She also talks about her deep friendship with her longtime assistant, Kathryn Sermak, who nursed Davis back to health after her stroke and ushered her back into acting when Davis's doctors thought all hope was lost. As Davis says, If everyone likes you, you're doing your job wrong. This is a unique and controversial book by one of the most incandescent and unconventional acting talents of all time, as magnetic and supremely talented as the lady herself.

*Once Bitten, Twice Shy* Jennifer Rardin, 2007-10-08 I'm Jaz Parks. My boss is Vayl, born in Romania in 1744. Died there too, at the hand of his vampire wife, Liliana. But that's ancient history. For the moment Vayl works for the C.I.A. doing what he does best -- assassination. And I help. You could say I'm an Assistant Assassin. But then I'd have to kick your ass. Our current assignment seemed easy. Get close to a Miami plastic surgeon named Assan, a charmer with ties to terrorism that run deeper than a buried body. Find out what he's meeting with that can help him and his comrades bring America to her knees. And then close his beady little eyes forever. Why is it that nothing's ever as easy as it seems?

In this first English edition, Oner Doser presents numerous powerful and ancient techniques for natal charts, focusing on the use of time lords planets and places which manage one's life, in order, for various amounts of time. The traditional techniques here include: Ptolemy's Ages of Man, triplicity periods, distributions or directions through the bounds, primary directions, profections, and firdaria. Contemporary techniques include secondary progressions, solar arcs, and transits.
