How to Shoot Friends and Influence People: Chopper 3 Mark Brandon "Chopper" Read,Mark Brandon Read,2012-02-15 'Crims and screws agree on one thing: that the people who run prisons wouldn't know if a tram was up them unless you rang the bell.' How to Shoot Friends and Influence People, Mark Brandon 'Chopper' Read's third book, was written behind bars as Chopper faced life in prison for a shooting he claimed he didn't commit. For this book, Chopper obtained confidential and extensive prison files relating to him under the Freedom of Information Act. These included psychological assessments, plus prison classification and discipline records. They provide a fascinating insight into how this maverick criminal dealt with the prison system over two decades. Featuring the infamous story of Tanya and Eddy, Chopper's coming-of-age yarn from his 18th birthday, plus reflections on the end of his long-term relationship and what it's like to be the most famous author-in-residence at Risdon Prison, this third volume of his memoirs contains more tales of the criminal underworld told in Chopper's unique style.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Shoot to Win Chris Cheng, 2018-05-01 A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn't shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel's Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, Shoot to Win is sure to please shooters of all stripes, but especially fans of History Channel's program Top Shot. Don't Shoot Innocent People Richard Gary Horn, 2016-06-28 Too many innocent people being shot in our times. This book was written for the millions of citizens who function normally in our society every day and are trying to understand why some people would go out and shoot totally innocent people who have absolutely no relationship at all to the shooter. It was also written for those who are fed up with society and want to strike back—those individuals who have hate in their hearts and revenge on their minds. It offers alternatives to the way they're thinking and encourages them to be brave and face life as it is.

Stalin's Genocides Norman M. Naimark, 2010-07-19 The chilling story of Stalin's crimes against humanity Between the early 1930s and his death in 1953, Joseph Stalin had more than a million of his own citizens executed. Millions more fell victim to forced labor, deportation, famine, bloody massacres, and detention and interrogation by Stalin's henchmen. Stalin's Genocides is the chilling story of these crimes. The book puts forward the important argument that brutal mass killings under Stalin in the 1930s were indeed acts of genocide and that the Soviet dictator himself was behind them. Norman Naimark, one of our most respected authorities on the Soviet era, challenges the widely held notion that Stalin's crimes do not constitute genocide, which the United Nations defines as the premeditated killing of a group of people because of their race, religion, or inherent national qualities. In this gripping book, Naimark explains how Stalin became a pitiless mass killer. He looks at the most consequential and harrowing episodes of Stalin's systematic destruction of his own populace—the liquidation and repression of the so-called kulaks, the Ukrainian famine, the purge of nationalities, and the Great Terror—and examines them in light of other genocides in history. In addition, Naimark compares Stalin's crimes with those of the most notorious genocidal killer of them all, Adolf Hitler.

On Killing Dave Grossman, 2014-04-01 A controversial psychological examination of how soldiers' willingness to kill has been encouraged and exploited to the detriment of contemporary civilian society. Psychologist and US Army Ranger Dave Grossman writes

that the vast majority of soldiers are loath to pull the trigger in battle. Unfortunately, modern armies, using Pavlovian and operant conditioning, have developed sophisticated ways of overcoming this instinctive aversion. The mental cost for members of the military, as witnessed by the increase in post-traumatic stress, is devastating. The sociological cost for the rest of us is even worse: Contemporary civilian society, particularly the media, replicates the army's conditioning techniques and, Grossman argues, is responsible for the rising rate of murder and violence, especially among the young. Drawing from interviews, personal accounts, and academic studies, *On Killing* is an important look at the techniques the military uses to overcome the powerful reluctance to kill, of how killing affects the soldier, and of the societal implications of escalating violence.
