The Encyclopedia of Sustainable Tourism Carl I Cater,Brian Garrod,Tiffany Low,2015-10-01 Tourism is the world's fastest growing industry, and impacts globally upon ecology, economies, peoples, cultures and the built environment. Development, therefore, must be sustainable and sympathetic in order to preserve the environment and culture it exploits. Despite sustainable tourism being an area of considerable recent interest, there has been no synthesis of the diverse considerations of sustainable tourism, and the language and terms particular to this subject. An important resource for researchers of tourism, this reference work defines and explains terms associated with considering and preserving the environment, host peoples, communities, cultures, customs, lifestyles and social and economic systems.

Educational Strategies for the Next Generation Leaders in Hotel Management Feng, Jiuguang,2015-04-30 As the hospitality industry continues to grow, managers and educators are faced with the task of preparing future hospitality professionals for a rewarding but challenging career. Due to the impact of an ever-changing economy on the industry as a whole, the education of hotel managers and professionals has become an increasingly important area of study. Educational Strategies for the Next Generation Leaders in Hotel Management combines practical experience with the effective pedagogical approaches being implemented in higher learning institutions and hospitality programs internationally.

Highlighting key issues surrounding the current and future scope of hotel management and the skills and knowledge necessary for career success in the hospitality industry, this publication is an essential reference source for hospitality managers, educators, and students interested in the future of the industry and the best practices for hospitality education. This publication features timely, research-based chapters and analysis relevant to topics in the hospitality industry including, but not limited to, craft-based learning, e-learning, higher education, hospitality management, human resources, opening delays, professional development, six sigma, women in global leadership, and work integrated learning.

The Leisure Commons Payal Arora, 2014-06-27 There is much excitement about Web 2.0 as an unprecedented, novel, community-building space for experiencing, producing, and consuming leisure, particularly through social network sites. What is needed is a perspective that is invested in neither a utopian or dystopian posture but sees historical continuity to this cyberleisure geography. This book investigates the digital public sphere by drawing parallels to another leisure space that shares its rhetoric of being open, democratic, and free for all: the urban park. It makes the case that the history and politics of public parks as an urban commons provides fresh insight into contemporary debates on corporatization, democratization and privatization of the digital commons. This book takes the reader on a metaphorical journey through multiple forms of public parks such as Protest Parks, Walled Gardens, Corporate Parks, Fantasy Parks, and Global Parks, addressing issues such as virtual activism, online privacy/surveillance, digital labor, branding, and globalization of digital networks. Ranging from the 19th century British factory garden to Tokyo Disneyland, this book offers numerous spatial metaphors to bring to life aspects of new

media spaces. Readers looking for an interdisciplinary, historical and spatial approach to staid Web 2.0 discourses will undoubtedly benefit from this text.

From Playgrounds to Playstation Carroll Pursell, 2015-04-23 This “engaging social history of play” explores how technology and culture have shaped toys, games, and leisure—and vice versa (Choice). In this romp through the changing landscape of nineteenth- and twentieth-century American toys, games,

hobbies, and amusements, technology historian Carroll Pursell poses a simple but interesting question: What can we learn by studying the relationship between technology and play? *From Playgrounds to PlayStation* explores how play reflects and drives the evolution of American culture. Pursell engagingly examines the ways in which technology affects play and play shapes people. The objects that children (and adults) play with and play on, along with their games and the hobbies they pursue, can reinforce but also challenge gender roles and cultural norms. Inventors—who often talk about “playing” at their work, as if motivated by the pure fun of invention—have used new materials and technologies to reshape sports and gameplay, sometimes even crafting new, extreme forms of recreation, but always responding to popular demand. Drawing from a range of sources, including scholarly monographs, patent records, newspapers, and popular and technical journals, the book covers numerous modes and sites of play. Pursell touches on the safety-conscious playground reform movement, the dazzling mechanical innovations that gave rise to commercial amusement parks, and the media’s colorful promotion of toys, pastimes, and sporting events. Along the way, he shows readers how technology enables the forms, equipment, and devices of play to evolve constantly, both reflecting consumer choices and driving innovators and manufacturers to promote toys that involve entirely new kinds of play—from LEGOs and skateboards to beading kits and videogames.

Garden Tourism Richard Benfield, 2013 Garden visitation has been a tourism motivator for many years and can now be enjoyed in many different forms. Private garden visiting, historical garden tourism, urban gardens, and a myriad of festivals, shows and events all allow the green-fingered enthusiast to appreciate the natural world. This book traces the history of garden visitation and examines tourist motivations to visit

gardens. Useful for garden managers and tourism students as well as casual readers, it also examines management and marketing of gardens for tourism purposes, before concluding with a detailed look at the form and tourism-based role of gardens in the future.

Drowning by Accident Elizabeth Meinhard, 2022-02-15 *Drowning By Accident* explains why it is so easy to drown, where accidents happen, and how to save lives by early rescue and resuscitation. More than 600 people die by drowning in Britain every year. Swimming is promoted as a particularly safe form of exercise, so that swimmers forget or ignore the dangers of frigid lakes, swollen rivers, incoming tides or outgoing rip currents. Drowning accidents take place because we don't recognise water as a hostile environment. We overestimate the strength and endurance of our bodies and underestimate the power and deceptiveness of water. Year after year, victims lose their lives in typical drowning accidents, often sinking so quickly and silently that nearby family, friends and onlookers fail to notice the tragedy taking place close beside them. Babies drown in baths. Toddlers drown in garden ponds. School children fall off rafts. Teenagers strike too far from the shore. Pensioners wade into rivers to save their dogs. Victims often die within minutes of sinking beneath the surface. A quarter of those who reach hospital alive will also die, while others survive with severe permanent brain damage. This means that it is vitally important for parents, grandparents, teachers, lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place.

Global Perspectives on Strategic Storytelling in Destination Marketing Campos, Ana Cláudia, Almeida, Sofia, 2022-05-27 Stories have always been part of tourism with tourists eager to both share and listen to stories about destinations. Destinations also build identity and distinctiveness by sharing stories with visitors. It is essential to gain a deeper understanding of the role that stories play in marketing and branding destinations, as well as how storytelling through digital mobile technologies can aid in these practices. **Global Perspectives on Strategic Storytelling in Destination Marketing** is a key reference that offers theoretical frameworks and empirical approaches to the study of storytelling in tourism at the organizational and destination levels, and from the perspectives of experience providers and customers. It

further addresses current and future challenges of tourism organizations and destinations that may be tackled by creatively adopting storytelling as a strategy for brand differentiation and customer involvement. Covering topics such as film-induced tourism, heritage tourism, and community engagement, this premier reference source is an excellent resource for marketers, advertising executives, brand managers, travel agencies, tour operators, event and program managers, business executives, government officials, community leaders, students, researchers, academicians, professionals, and practitioners in the tourism and hospitality industry.

Storybook Worlds Made Real Kathy Merlock Jackson, Mark I. West, 2022-04-22 Memorable children's narratives immerse readers in imaginary worlds that bring them into the story. Some of these places have been constructed in the real world--like Pinocchio's Tuscany or Anne of Green Gables' Prince Edward Island--where visitors relive their favorite childhood tales. Theme parks like Walt Disney World and Harry Potter World use technology to engineer enchanting environments that reconnect visitors with beloved fictional settings and characters in new ways. This collection of new essays explores the imagined places we loved as kids, with a focus on the meaning of setting and its power to shape the way we view the world.

Tourism Dynamics in Everyday Places Aurélie Condevaux, Maria Gravari-Barbas, Sandra Guinand, 2021-12-30 This title offers a dynamic understanding of tourism, usually defined in terms of clearly circumscribed places and temporalities, to grasp its changing spatial patterns. The first part looks at the before – everyday places such as daily markets, flea markets, urban neighbourhoods, that have

captured the tourists' interest and have progressively experienced new development in their ordinary patterns. The second part investigates the afters – former tourist spaces moving beyond the tourism sphere and becoming places of everyday life, study, or work. Chapters explore what this means for local societies and examine this contemporary phenomenon of former tourist attractions becoming ordinary and everyday, and of ordinary places beginning to take on a tourist dimension. The hybridisation of tourist practices and ordinary practices is also explored through a range of international case studies and examples written by highly regarded and interdisciplinary academics. This edited volume will be of great interest to upper-level students, academics, and researchers in tourism, urban studies, and land use planning.

Driving Innovation from Within Kaihan Krippendorff, 2019-10-22 Conventional business wisdom tells us that entrepreneurs are society's main source of innovation. Young founders leave college with a big idea, get to work in a garage, and build something that changes the world. Typical corporate employees, strangled by slow-moving bureaucracy, are blocked from making transformative discoveries. In *Driving Innovation from Within*, strategist and advisor Kaihan Krippendorff disproves one of today's biggest business myths to highlight lessons for innovators and leaders. He reveals how many of the modern world's most impactful creations were invented by passionate employee innovators. If it were left up to go-it-alone entrepreneurs, we would not have mobile phones, personal computers, or e-mail. Distilling more than 150 interviews with internal innovators and leading experts along with insights from the latest research and today's most successful companies, from Tencent and Amazon to Mastercard and Starbucks, Krippendorff

lays out a step-by-step playbook to unlock innovation from the inside. He maps the barriers that frustrate efforts to disrupt from within and provides tools to remove them, detailing how visionary leaders can create islands of freedom inside an organization to activate existing employees' potential and beat startups at their own game. *Driving Innovation from Within* is a practical and inspiring guide to leadership from all levels for those who want the fulfillment of changing the world without leaving their job in order to do it.

Handbook Of Tourism Economics: Analysis, New Applications And Case Studies Tisdell Clement A, 2013-03-08 *Handbook of Tourism Economics: Analysis, New Applications and Case Studies* provides an up-to-date, concise and readable coverage of the most important topics in tourism economics. It pays attention to relevant traditional topics in tourism economics as well as exciting emerging topics in this field — topics which are expected to be of continuing importance. In doing this, it takes account of advances in economic thought, analysis and applied methods. Contributions provide applications of economic analysis to tourism policy and constructive assessment of contemporary thought about tourism economics. The handbook includes several in-depth case studies such as the contribution of tourism to economic development in selected countries including China, India, Japan and Australia, Portugal and Fiji. Coming from diverse countries (both industrialised and developing) and established in the field of tourism economics, travel and management, many of the contributors have been consultants to governments, private organisations, and international bodies, including the UN World Tourism Organisation, the OECD and UNEP. Experts contributing to this volume include the President of the International Association of

Tourism Economics, as well as its Secretary-General, the Secretary-General of the Tourism Research Centre (Association of Tourism Research Institutes), the Founder-Fellow of the International Academy for the Study of Tourism and the former Director of the UK's Centre for Social and Economic Research on the Global Environment (CSERGE).

Tourism and Opportunities for Economic Development in Asia Ordóñez de Pablos, Patricia, Aung, Zeyar Myo, 2017-01-25 The growing market of tourism in Asian countries has caused significant changes to the economy, transportation, and safety for citizens. With the ubiquity of tourism, there is now an increasing need for resources to assist in the challenges that arise. *Tourism and Opportunities for Economic Development in Asia* is a key resource on the priorities, challenges, and strategies in the globalized economy of the Asian tourism market. Highlighting multidisciplinary studies on cultural tourism, gastronomy, and hospitality management, this publication is an ideal reference source for academicians, researchers, politicians, policy makers, and information technology directors actively involved in the tourism industry.

Destination Management and Marketing: Breakthroughs in Research and Practice Management Association, Information Resources, 2020-03-06 The marketing of a destination necessitates strategic planning, decision making, and organization. Effective positioning will result in a strong brand that develops an emotional and productive two-way relationship. Notwithstanding, destination managers should possess relevant knowledge and understanding on traditional and contemporary marketing channels to better engage with prospective visitors. *Destination Management and Marketing: Breakthroughs in*

Research and Practice focuses on utilizing destination branding and content marketing for sustainable growth and competitive advantage within the tourism and hospitality industry, including tools and techniques for travel branding and best practices for better tourism management strategies. Highlighting a range of topics such as service quality, sustainable tourism, and competitiveness model, this publication is an ideal reference source for government officials, travel agencies, advertisers, marketers, tour directors, hotel managers, restaurateurs, industry professionals including those within the hotel, leisure, transportation, and theme park sectors, policymakers, practitioners, academicians, researchers, and students.
