The position of Indonesia and most countries in IMF calculations, facing the same challenges. Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil. Good governance is an insistence of the constitution in the economic Article 33 paragraph (5), subsequently published Constitution Number: 30 Year of 2014 on Government Administration, contains 17 principles of a good governance. One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy. The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0-100 in 2022. This is a 4-point decrease from the previous year. This decline in the CPI also brought down the ranking of Indonesia's CPI globally. It was noted that Indonesia's CPI in 2022 ranked 110th. In the previous year, Indonesia's CPI was ranked 96th globally. Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions. To implement the principles of Good Governance and Clean Government, the Government must implement the principles of accountability and efficient resource management. Good and clean governance will contribute to economic growth and economic growth will have an impact on human development. During the last decades of 20th century, the needs for a good governance has given some impacts and became a recurring theme in literature related to human development. The intervention of government or the quality of government become crucially important in relation to the high achievement of human development. Whereas an effort in improving society's welfare is through economic development. One of dominant aspects in economic development is through legal development. Good law or policy in such country will have some impacts to the existence of good economic growth because supremacy of law is one aspect of a good governance. Law supremacy is an important institution which is related to economic growth because rule of law ensures personal safety, property rights, unbiased contract enforcement, stability of politics, freedom of speech and control of corruption. According to those various issues and debates on economic, legal development and good governance, then the Doctoral Program of the Faculty of Law Sebelas Maret University needs to hold an international conference as a place in exchanging some academic ideas in order to contribute to those legal issues with a theme, INTERNATIONAL CONFERENCE ON LAW, ECONOMICS, AND GOOD GOVERNANCE

Confessions of an International Banker Sean Hickey, 2013-03 From the City of London to the deserts of Arabia, the former Soviet states, and sub-Saharan Africa, this book traces the life and career of a man who has been a banker

in some remarkably challenging environments over a period of half a century. The author has counted bales of cotton in Yemen, dodged Israeli bombs in Lebanon, financed exports from Romania in the days of Ceausescu, been a banker to a member of a ruling family in the Gulf, conducted business in the sauna of a bank in Kazakhstan, and met Her Majesty Queen Elizabeth II. In his spare time, he has taken an active part in amateur theater groups in the countries in which he has lived, served as a member of committees administering cemeteries, and been a warden appointed by the British Embassy to assist their citizens in times of trouble. As well as being an engrossing story of banking in many varied countries, the book includes chapters about the background to the problems of some of the places in which he has worked that show a clear understanding of the history and politics involved. Having lived in the Middle East for much of his life, he comments on the Arab Spring, and his long and diverse banking career has enabled him to write incisively on events in the industry in recent years. He draws conclusions on both of these momentous stories.

Changes in law either from the meaning of normative substance, institutional, and legal culture are inevitably in line with the dynamics within various sectors of life society. Therefore, it is necessary to thoroughly discuss and analyze which sectors may have a significant impact on the business world and society today. By discussing comprehensively, comparatively and collaboratively, it is hoped that legal issues can be seen from various perspectives in the legal and social fields by finding fundamental problems in depth related to several topics of discussion, including in the telematics legal sector, natural resource management law, business legal culture, as well as the tourism sector. For this reason, APPTHI held a series of conferences in 3 cities to discuss and make it a meeting place for world law experts with law lecturers throughout Indonesia and invited lecturers from various countries, such as South Korea, India, Malaysia and Europe to take a part in this conference. The 1st APPTHI International Conference on Changing of Law (the series) is the first international conference series held in Indonesia by the Association of Indonesian Law College Leaders (APPTHI), inviting several legal experts from countries such as the USA, the Netherlands, Korea, Malaysia, India, as well as South Korea. This activity has 3 major themes each held in several cities, namely: in Jakarta which will be held at Trisakti University on 22 July 2023 with the theme Changing of Law in the digital era, while in Makassar it will take place at the Indonesian Muslim University/UMI on July 24 2023 with the theme Changing of Law in the Energy sector and Natural Resources Management, as well as the last series of conferences in Bali on July 26 2023 at Warmadewa University, becoming a series of academic activities that have a broad spectrum and dimension of legal knowledge with various legal perspectives such as business law, corporate law, civil law, criminal law, intellectual property law, telematics law, agrarian law, environmental law, HTN/HAN etc. This event was carried out within the framework of the first round of the APPTHI international program which will continue to be held regularly every year. This program is also a form of implementation of various forms of international cooperation in several countries such as New York University, Utrecht University, National University of Malaysia, Hankuk University, and Jawaharlal Nehru University. In this event APPTHI collaborated with the international program organizer, PASQAPRO. For the activities of The First APPTHI International Conference on Changing Law, The Series, involving campuses as co-hosts in Jakarta (hosted by Trisakti University), including: Jakarta Islamic University, Universitas Suryakencana, Cianjur, Lampung Mitra University, Palembang Law School STIHPADA, Islamic University Jakarta, Muhamadiyah University Jakarta, YARSI University, National University, Borobudur University, while co-hosted in Makassar (Host Indonesian Muslim University): Panca Bakti University, West Kalimantan, Sawerigading University, Christian University of Paulus, Makasar, Universitas Juanda, Bogor and Seventeen August University (UNTAG) Semarang, for Bali with the host university Warmadewa, assisted by co-hosts including: Caritas College of Law, Papua. Hopefully this conference will not only be a scientific forum for APPTHI members and various foreign partner universities by providing outputs in the form of indexed proceedings and journals, but also an event that will contribute thoughts in the field of law for the Indonesian government in conducting studies on legal changes positively as well as being a think tank for the formation of state laws and policies.

Riots, Pogroms, Jihad John T. Sidel, 2018-07-05 In October 2002 a bomb blast in a Balinese nightclub killed more than two hundred people, many of them young Australian tourists. This event and subsequent attacks on foreign targets in Bali and Jakarta in 2003, 2004, and 2005 brought Indonesia into the global media spotlight as a site of Islamist terrorist violence. Yet the complexities of political and religious struggles in Indonesia, the most populous Muslim country in the world, remain little known and poorly understood in the West. In *Riots, Pogroms, Jihad*, John T. Sidel situates these terrorist bombings and other jihadist activities in Indonesia against the backdrop of earlier episodes of religious violence in the country, including religious riots in provincial towns and cities in 1995-1997, the May 1998 riots in Jakarta, and interreligious pogroms in 1999-2001. Sidel's close account of these episodes of religious violence in Indonesia draws on a wide range of documentary, ethnographic, and journalistic materials. Sidel chronicles these episodes of violence and explains the overall pattern of change in religious violence over a ten-year period in terms of the broader discursive, political, and sociological contexts in which they unfolded. Successive shifts in the incidence of violence—its forms, locations, targets, perpetrators, mobilizational processes, and outcomes—correspond, Sidel suggests, to related shifts in the very structures of religious authority and identity in Indonesia during this period. He interprets the most recent jihadist violence as a reflection of the post-1998 decline of Islam as a banner for unifying and mobilizing Muslims in Indonesian politics and society. Sidel concludes this book by reflecting on the broader implications of the pattern observed in Indonesia both for understanding Islamic terrorism in particular and for analyzing religious violence in all its varieties.
